of maintaining about 4000 Filipino troops as a part of the regular army, does not exceed \$5,000,000 annually. This is all the expense to which the United States has been put for five or six years past. The expenses of the civil government in the islands since its establishment has been met entirely from the proceeds of taxes collected in the islands, but one notable, generous and commendable exception, when the congress of the United States appropriated \$3,000,000 in 1902 to relieve the inhabitants of the islands from the dangers of famine and distress caused by the death by zinderpest of three-fourths of the cattle of the islands.

Veterans of Country's Wars
"Both platforms declare, as they should, in favor of generous provisions for the veterans of the Civil War and Spanish War. I stop to notice here the presence of a body of veterans of Ohio, and to express my thanks for the honor they do me in coming. I am lacking in one qualification of all Republican presidents since Lincoln, that of being exposed to danger and death on the field of battle in defense of my country. The Rights and Progress of the Negro

"The Republican platform refers to those amendments to the constitution that were passed by the Republican party for the protection of the negro. The negro in the 40 years since he was freed from slavery has made remarkable progress. He is becoming more and more a valuable member of the communities in which he lives. The education of the negro is being expanded and improved in every way. The best men of both races, in the North as well as the South, ought to rejoice to see growing up among the Southern people an influential element disposed to encourage the negro in his hard struggle for industrial independence and assured political status. The Republican platform adopted at Chicago explicitly demands justice for all men without regard to race or color, and just as explicitly declares for the enforcement, and without reservation, in letter and in spirit, of the thirteenth, fourteenth and fifteenth amendments to the constitution.

Army and Navy
"Mr. McKinley and Mr. Roosevelt and the Republican party have constantly advocated a policy with regard to the army and navy that will keep this republic ready at all times to defend her territory and her doctrines, and to assure her appropriate part in promoting tranquility among the nations. I welcome from whatever motive the change in the Democratic attitude toward the maintenance and support of an adequate navy and hope that in the next platform the silence of the present platform in respect to the army will be changed to an acquiescence in its maintenance to the point of efficiency in connection with the efficiently reorganized militia and the national volunteers for the proper defense of the country in times of war and the discharge of those duties in times of peace for which the army, as at present constituted, has shown itself so admirably adapted in the Philippines, in San Francisco, in Cuba and elsewhere. We are a world power and cannot help it, and although at peace with the world and secure in the consciousness that the American people do not desire and will not provoke a war with any other country, we must be prudent and not be lulled into a sense of security which would possibly expose us to national humiliation.

Asiatic Immigration
"In the matter of the limitation of Asiatic immigration, referred to in the Democratic platform, it is sufficient to say that the present Republican administration has shown itself able by diplomatic nominations and without unnecessary friction with self-respecting governments to minimize the evils suggested and a subsequent Republican administration may be counted upon to continue the same policy.

Conservation of National Resources
"The conservation of natural resources to the public has been endorsed by the government. The necessity for a comprehensive and systematic improvement of our waterways, the preservation of our soil and of our forests, the securing from private appropriation of the power in navigable streams, the retention of the undisposed coal lands of the government from alienation, all will properly claim the next administration's warmest attention and appropriate legislation.

Publicity of Campaign Contributions and Expenditures
"Another plank of the Democratic platform refers to the failure of the Republican convention to express an opinion in favor of the publicity of contributions received and expenditures made in elections. Here again we contrast our opponent's position with our own acts. Great improvement has taken place under Republican auspices in respect to the collection and expenditure of money for this purpose. The old and pernicious system of leaving a tax upon the salaries of government employees in order to pay the expenses of the party in control of the administration has been done away with by statute. By a law passed by the Republican congress in 1907 contributions by corporations to influence or pay the expenses connected with the election of presidential electors or of members of congress is forbidden under penalty. A resident of New York has been selected as treasurer of the Republican national committee who was treasurer of the Republican state committee when a governor was elected in New York, and who made a complete statement within twenty days after the election, as required by the New York law of the contributions received by him or expended by him under authority in that election. His residence and the discharge of his duties in the state of New York subject him to the laws of that state as to receipts from the treasury of the national

committee from whatever source, and as to all his disbursements. His returns will be under the obligations and penalties of law, and a statement by him, or the filing of a false account will subject him to prosecution for perjury. Of course, under the federal law, he is not permitted to receive any contributions from corporations.

"If I am elected I shall urge upon congress with every hope of success that a law be passed requesting a filing in a federal office of a statement of contributions filed by committees and candidates in elections for members of congress and in such other elections as are constitutionally within the control of congress. Meantime the Republican party, by the selection of a New York treasurer, has subjected all of its receipts and expenditures to the compulsory obligation of such law."

Mr. Taft next endorses an income tax law in a short paragraph.

Election of Senators.
"With respect to the election of senators by the people personally I am inclined to favor it, but it is hard by a party question. A resolution in its favor has passed a Republican house of representatives several times, and has been rejected in the Republican senate by the votes of senators from both parties. It has been approved by the legislatures of many Republican states. In a number of states, both Democratic and Republican, substantially such a system now prevails.

Inaccuracy and Insincerity of Democratic Charges
"Our opponents denounce the Republican party for increasing the number of offices 23,000 at a cost of sixteen millions of dollars during the last year. Such denunciation is characteristic of the Democratic platform. It fails to specify in any way what the offices are and leaves the inference that the increase was related by the representatives of Democracy in congress. As a matter of fact the net number of offices increased was just about half the number stated, the increase being due chiefly to the enlargement of the navy, the construction of the Panama canal, the extension of the rural free delivery and to the new offices necessary in the enforcement of the pure food, meat inspection, railroad rate regulation, arid land reclamation, forest preservation and other measures which congress passed with an almost popular approval.

"The Democratic platform, so far from attacking any of this legislation, specifically approved much and condemned none of it, and it is, of course, disingenuous to claim credit for approving legislation necessary to give it effect and yet to denounce the expenditure.

Charge of Deficit
"Again it charges that a deficit of \$60,000,000 between the receipts and expenditures during the fiscal year ending June 30, 1908, occurred. As explained by the secretary of the treasury, at least half of this deficit is only an apparent one. The falling out in receipt was due, of course, to the unusual panic, but there is ample free money in the treasury to meet the difference and the difference itself is not half of it properly a deficit, because involved in it was the retirement of some \$23,000,000 of the bonds of the government. During the past seven years the income and expenditures of the government have been nearly equal, some years showing a surplus, and others, fewer in number, a deficit. Taking one year with another, including this spring, there has been an average surplus. The surplus last year, for instance, was greater than the deficit this year, so that in fact, under the present administration there has been no deficit, but a surplus, which is actually in the treasury.

THE REMEDY THAT DOES.
"Dr. King's New Discovery is the remedy that does the healing others promise, but fail to perform," says Mrs. E. R. Pierson, of Auburn Centre, Pa. "It is curing me of throat and lung trouble of long standing, that other treatments relieved only temporarily. New Discovery is doing me so much good that I feel confident its continued use for a reasonable length of time will restore me to perfect health." This renowned cough and cold remedy and throat and lung healer is sold at W. A. Kuykendall's drug store, 50c and \$1.00. Trial bottle free.

government to meet her obligations and avert anarchy is another instance of the work of this administration in helping our neighbors.

"This administration has, by the promptness, energy and skill of its negotiations, secured dominion over the canal zone of the Isthmus of Panama without which the construction of the canal would have been impossible. It has subdued the heretofore insurmountable obstacle of disease and made the place of work healthy. It has created such an organization that in six years, certainly, and probably in less, the Atlantic and Pacific will be united, to the everlasting benefit of the world's commerce, and the effectiveness of our navy will be doubled.

Independent Democrats
"The Democratic party, under its present leadership, in various previous campaigns has manifested a willingness to embrace any doctrine which would win votes, presents little sense of responsibility for its practical operation. In its striving for success it has ignored the business prosperity of the country, has departed from sound economic and governmental principles, and has reversed its own traditional views of constitutional construction. Patriotic members of the party have refused to be controlled by party ties and have either refrained from voting or have supported the Republican candidates. May we not appeal to those courageous and independent citizens to again give us their support in this campaign, because the reasons for their breaking the bonds of party are stronger today than ever before.

Difference Between Parties—Prosperity with Republicans; Business Disaster with Democratic Victory
"I have pointed out that the attitude of the Republican party with reference to evils which have crept in, due to the enormous difference between the material expansion of this country, is to continue the Roosevelt policies of progress and regulation, while the attitude of the Democratic party under its present leadership is the change for the sake of a change to the point of irresponsible destruction, and that there is no hope whatever of a restoration of prosperity in returning it to power. As said in our platform, we Republicans go before the country asking the support not only of those who acted with us heretofore, but of all our fellow citizens who, regardless of past political differences, unite in the desire to maintain the policies, perpetuate the blessings and make secure the achievements of a greater America."
