JUDGE WALTON FAVORS RAILROAD TO SIUSLAW

Editor Guard—Permit me to heartily commend and fully approve your article on building a railroad from Eugene to Florence. A certain old Roman senator repeated at every opportunity to make a speech, "Carthago delenda est." Eugene must have a railroad to Florence. Let this matter be pushed. Keep it continually before the people. It is for the very best interest of all Lane county. It means 50,000 people for Eugene. Let us organize and pull together to that end. The money can be raised, if we are united. Let us have a great mass meeting of the people and get them enthused. Give us more editorials on the same line. J. J. WALTON.

Levi Minkler, a middle-aged man who lives just north of Roseburg, was brutally assaulted in his orchard yesterday by an unknown man. Minkler is not very strong, and is still suffering from the effects of a similar assault a few years ago, and was in such a condition as to be able to offer only slight resistance to his assailant, armed as he was with a club. Sheriff Fenton pursued the fugitive, but as yet has not captured him.

A fire which broke out at 2 o'clock yesterday afternoon destroyed nine buildings in Aberdeen, Wash., in the restricted district. For several hours the factory and residence section across the river were threatened. Loss, \$75,000; insurance, \$50,000.

BOOTH'S LAWYERS ASK COURT FOR ACQUITTAL

CONTENTION IS MADE THAT GOVERNMENT HAS NOT MADE CASE SUFFICIENT TO CONVICT—IF MOTION IS OVERRULED CASE WILL GO TO JURY SATURDAY

Portland, July 30.—Convinced that the government has not introduced evidence to convict R. A. Booth, J. H. Booth and T. E. Singleton of conspiracy to defraud the government, the defense decided not to place any witnesses on the stand. Today Attorneys Webster and Woodcock are making a motion for a directed verdict for the defendants separately and together. Providing the motion is overruled, the arguments will be made to the jury tomorrow and part of Saturday, and may begin at a late hour this afternoon. It is expected that the case will go to the jury possibly by noon Saturday.

Judge Webster, who opened the argument for the motion, declared that R. A. Booth was not connected with the alleged conspiracy, except to the extent that he was present when Agee called and tendered a deed to his lieulands. F. E. Singleton, continued the judge, had nothing to do with the transaction after 1900, when he secured a loan of \$20 for Agee, and in any event the statute of limitations had run against Singleton. Concerning the third defendant, Jas. H. Booth, said Webster, he only gave advice to Agee as an official of the land office at Roseburg, and under the conviction that Agee was entitled to the land. Finally, argued the lawyer, the contract to purchase was subsequent to the completion of the conspiracy charged in the indictment. This afternoon Attorney Woodcock is following Webster, citing authorities.

T. C. Becker, for the government, will answer the argument for the instructed verdict.

Yesterday Miss Schloemann, Mrs. J. T. Agee, Miss Shupe and several other witnesses were called by the government, but their testimony was of little weight. Harry Dunbar, bookkeeper for the Booth-Kelly Company, identified checks and drafts.

FINED TEN DOLLARS FOR FAST DRIVING

H. H. Miller, a foundry worker, appeared in the police court this afternoon on the charge of fast driving on the streets, having been arrested this forenoon for the offense. He pleaded guilty and was fined \$10. Judge Dorris let him go on his own recognizance with the promise that he pay the fine within two or three days. Miller is charged with driving faster than the law allows on West Eighth street Sunday night.

WARNING AGAINST DANGEROUS ROADWAY

Editor Guard—The building of the street railroad just within the city limits at Judkins Point narrows an already narrow road to the danger point, especially considering the fact that two teams passing there one will be forced very near to the railway track. And no person who has driven horses to any considerable extent will fail to realize the danger that will mean there with a car passing at the same time. The remedy? The road should be widened twenty feet. And the city authorities should not wait till some one is killed or crippled before doing it.

Then for two weeks or so the north side of the east end of Thirteenth street has been left without a crossing over the street railway. Any one driving east on that side of the street, especially at night, would find himself in a pretty pickle when he got where the street railway crosses the railroad—in a sack, as it were.
