CARELESSNESS OF PHYSICIANS CAUSES BLINDNESS

Springfield, Ill., July 31.—One-third of the blind children of this country are victims of carelessness of physicians or midwives in the starting claim made by George W. Jones, superintendent of the Illinois School for the Blind. Inflammation of the eyes of the newly born is an acute infection, opening from one to three days after birth. A one per cent solution of silver nitrate is an absolute specific for this disease, and can be administered without danger by the most untried physicians.

IMAGINES HE OWNS THE WHOLE EARTH

OLLAR MAHALAY, A HUNGARIAN, COMMITTED TO INSANE ASYLUM TODAY—ALSO WANTS A WIFE

Ollar Mahalay, a Hungarian who cannot speak a word of English, and who resides at Goshen, was examined before County Judge Chrisman this afternoon as to his sanity. Dr. L. W. Brown and W. L. Cheshire being the examining physicians. Mahalay is 34 years old and single. At the examination the fact was brought out that he wanders about the country at night barefooted, and tries to get people to give him land. He sometimes imagines he owns the earth and has expressed a desire for a wife to share his holdings. He has Socialistic ideas and can see no good in any law.

The physicians found that his mind was badly affected and Judge Chrisman committed him to the insane asylum at Salem. An attendant from that institution will arrive tonight and take the man down on the morning train.

GOMPERS PAYS HIS RESPECT TO POLITICAL FOES

Washington, July 30.—"The report that I ever said I would not deliver the labor vote to any political party is an infamous lie," said Samuel Gompers today. "Organized labor is not only honest, but intelligent enough to choose the party for its support which best represents its interests." Gompers went on to say that the enemies of organized labor, by spreading lies and misrepresentations, may injure him personally, or even cause his dismissal as president of the American Federation of Labor, but that would not affect his course in battling for the principles for which he stands.

He said that he fully expected that some would disagree with him and he does not expect the labor world to accept his conclusions in every instance. He expected to be criticized, but did not believe the criticism would be so unjust and contemptible. Chairman Hitchcock, of the Republican committee, when asked as to the truth of the report that a personal campaign was to be waged against Gompers, said that "nothing of the kind had been arranged."

The Eugene Gun Company this morning received a card from Arthur Hendershot stating that the Cadillac automobile, in which he and Mr. Covert left yesterday forenoon for Medford, reached there with them early in the evening, and that the machine went about as fast as the train.

AFTER EVIDENCE TO RENEW FIGHT ON HARRIMAN

Chicago, July 30.—Special agents of the government are in Chicago trying to collect evidence to substantiate proceedings for the disruption of the Harriman system of railroads upon the ground that the combination is in violation of the Sherman anti-trust act.

For more than a week Ralph M. McKenzie, who did a great deal of preliminary work in the investigation which the interstate commerce commission made into the affairs of the Harriman railroads, has been industriously working among big shippers with a view to ascertaining how the Harriman combination has been used, and if used at all, to stifle competition and restrain trade.

On Mr. McKenzie's new calling list are all of the traffic men of the big industries in the city. It is not known what what success he is meeting, but his investigation is taken as a means to swing over the Harriman lines.

It is understood that evidence is desired for use in connection with a suit to be begun by the government, which will be similar to the Northern Securities case, which resulted in the disruption of the Hill merger, so that as a holding company is concerned.
