HUGHES PLANS SEVERE MEASURES FOR GAMBLERS

New York, Aug. 3.—Race track interests are about to experience one of the most severe shocks in their history if the plans of Governor Hughes are carried out. Just what form the action of the governor will take is not learned, but it is said that it will be something that will shake Saratoga from end to end, and that it will take place in the next few days.

NO SERIOUS FIRES IN LANE COUNTY

While forest fires are raging in British Columbia and in different parts of Oregon, Lane county has so far escaped anything serious in that line. As far as can be learned no fires to amount to much are burning in Lane county forests. Inquiry at the Booth-Kelly Lumber Company's office this afternoon elicited the information that no fires are near any of their holdings. The Guard's correspondent at Lowell reported a number of small blazes in that vicinity a couple of days ago, but they are evidently under control, as nothing more has been heard from them.

A representative of the University will begin tomorrow morning to make a list of all boarding and rooming places for students. A thorough canvass of the whole city as far west at least as Charnelton street will be made and full information taken in regard to location, prices, water supply, etc. Since the enrollment this fall will probably be the largest in the history of the University, it is hoped to find a good supply of rooms.

The policy of the University makes it desirable that those giving homes to women students take women only, and that they provide a reasonable use of a reception room or a parlor on the lower floor. It is hoped that many homes will provide room and board.
