SEVEN THOUSAND
PERSONS GO HOME
IN TWENTY MINUTES

INCREASED TRANSPORTATION
FACILITIES ABOUT PORTLAND
—GREAT BUILDING ACTIVITY
THROUGHOUT NORTHWEST —
GOOD ROADS CONFERENCE TO
BE HELD IN PORTLAND

(Special Correspondence.)
Portland, Aug. 3.—"Seven thousand persons go home in twenty minutes"—that's the rate at which the various transportation interests in Portland have assured the directors of the Country Club and livestock show that the crowds attending the event in September will be handled. Every day at the grounds is busier than the one preceding. The intense interest of the whole Northwest is evidenced by the great number of entries already made, while the national interest is shown by a heavy advance correspondence from every part of the United States.
Hon. Wilbur K. Newell, president of the Oregon State Board of Horticulture, and equally well known in Washington, has, at the request of the Oregon Development League, condensed his ideas on good roads into one hundred words, and they tell the story:
"Had roads nullify advertising, repeal immigration, increase cost of living, render the automobile useless, and will deprive the farmer of rural free delivery."
"State aid and supervision of road construction is essential."
"In equity—because a public benefit—the state should pay 25 per cent and the adjacent property 25 per cent."
"For thoroughness—trained engineers and strict supervision of all work."
"For economy—levy taxes and pay as we go, or on short time certificate plan."
"For education—regular and correspondence courses in road building at Oregon Agricultural College and University of Oregon."
"Let us build good roads all summer instead of talking about them all winter."
The Oregon good roads conference will convene promptly at 8:30 a. m. Tuesday, August 11, in the convention hall of the Portland Commercial Club, sixth floor. Another meeting will be held at 2 o'clock, and perhaps an evening session. A feature of the convention will be the attendance of many road supervisors and practical road officials.
A great cement plant is to be built in Portland—the first instance in America in which Portland cement has been manufactured in a city of that name. Portland and Salt Lake capitalists have organized a company with a capital of \$1,200,000, and the Ilmerock will be brought from Roseburg, where they own a tract of 100 acres of choice rock.
One thousand barrels of cement a day will be manufactured at the beginning, but the plant is so designed that this capacity can be doubled at any time with very slight change. Buildings and grounds will occupy a site of fifteen acres in the suburbs of Portland, with both rail and water transportation.
C. W. Nibley and associated capitalists, of Salt Lake City, hold one-half the stock, with Portland capitalists the other half. Mr. Nibley has extensive interests in Utah, Idaho, Oregon and California, and is president of the Union Cement Company at Devil's Slide, Utah, which has manufactured two thousand barrels a day during two years of successful and profitable operation.
Building permits exceeding a million dollars were issued in Portland during July, an increase of \$300,000 as compared with that month last year. Transfers of choice business properties were never so numerous, nor building so active.
Astoria's fourteenth annual regatta, August 27, 28 and 29, presents an excellent opportunity for people in the interior of Oregon and Washington to get a brief tenting and camping experience near the ocean. The program of sports will be unusually interesting, with the addition this year of the Swedish-Norwegian Saengerfest. Hon. George S. Shepherd, of Portland, has been made admiral, the railroads have given very special rates, and \$1 will be the fare by heat from Portland.

Rome, Aug. 4.—In observance of the fiftieth anniversary of his ordination to the priesthood, which occurred in Castelfranco in 1858, Pope Pius X today celebrated a solemn pontifical mass in St. Peter's. In attendance were all of the members of the Sacred College resident in Rome and a large number of bishops, clergy and lay pilgrims from all parts of the world.

FOR SALE, EXCHANGE OR LEASE

Having concluded to retire from the lumber business I offer for sale, lease or will exchange for Eugene or Portland income property, my sawmill, sawmill site, booms, lumber sheds, office, planers, dry kilns and all tools connected with the business. Mill located at river bridge in the centre of Eugene city, east and west, and only three blocks from the S. P. R. R.

This is a fine opportunity for some one to go into the lumber business, as there is always a big local demand for all slabwood, sawdust, shavings, cull lumber, as well as the better grades of lumber. Logs are cheap, labor cheap, lumber high.

A good millman can make this property pay for itself in two years, and if he will operate day and night in one year. Greatest opportunity in this part of Oregon for a mill man; best located mill in the state. Capacity, 20,000 feet in ten hours.

When you have this mill you are at the market. Planer and dry kiln—everything needed to make lots of lumber and lots of money. Give this your early attention if interested in a lumber proposition. I am sure you cannot beat it in the state. The quicker you act the surer you are of making your fortune, for this is a chance in a lifetime.

GARDEN HOME ADDITION

IS SITUATED close to the city limits on the Southwest---only a short distance beyond the Fair Grounds. It adjoins the large tract purchased by J. O. Storey, president of the Portland, Eugene & Eastern R. R., which indicates that it will be in close proximity to the electric road system in the near future. It is bounded by a county road on two sides, and lies beautifully, sloping gently to the northwest, which gives it perfect drainae.

TRACTS ARE FROM 2 1/2 TO 5 ACRES

Have been platted and are now offered for sale at very reasonable prices for cash, or upon easy terms---monthly installments if the purchaser desires. Property situated as close in as this will double in value within two years, and for the home builder and investor these tracts will prove a snap. The owners of

GARDEN HOME ADDITION

bought the property at prices far below its value, and are thereby enabled to place it on the market at prices below what is asked for surrounding property in larger tracts and some of it even less desirable.
