IDAHO DEMOCRATS RENT IN TWIN BY MORMON ISSUE

Wallace, Aug. 5.—With all the form and precision of a court of law and all the heat and anger of a battlefield, the Democratic state convention assembled at 10:30 today. Every move of the jealous factions was guided by skilled attorneys. Two or three fist fights which seemed imminent have been averted and the anti-Dubois men say that in the convention they will start no riot, but march out in perfect order, go to another hall and hold a convention of their own.

Another attempt at peace negotiations failed today.

The present indications are that the Dubois men will control and name A. L. Frohman as temporary chairman. It is expected that the ousting of the Mormon, or anti-Dubois, delegates from Ada county will follow, when the split may occur.

GREAT FOREST FIRE SWEEPING TO NORTHWARD

DEATH LOSS NOT BELIEVED TO BE OVER SIXTY—WORK OF REBUILDING FERNIE HAS ALREADY BEGUN, CANADIAN PACIFIC COMMENCING WORK ON NEW DEPOT

Spokane, Aug. 5.—The great forest fire which has terrorized the people of the East Kootenai country during the last few days, has rolled toward the north and swept over the mountains into an almost uninhabited region. Michel, which seemed doomed yesterday, is safe today. Hosmer and Crow's Nest are out of danger unless the wind changes to the south. Late reports state that the new town of Michel, which is half a mile west of the old town, was destroyed yesterday, but no one was seriously hurt. The work of rebuilding has already started at Fernie, the Canadian Pacific being the first to start, putting a crew to work on a new depot. It is now estimated that the total loss of life will not exceed 60.

COUNT ZEPPELIN'S AIRSHIP IS TOTAL LOSS FROM FIRE

Stuttgart, Aug. 5.—After completing the most remarkable voyage in the history of aerial navigation, the Zeppelin airship, after descending about 8 o'clock today five miles south of here on account of the over-heating of a piston rod and lack of gas, was completely destroyed by fire. A gust of wind tore the balloon from its anchorage and carried it fifty yards, when flames soon burst out from end to end. In a few seconds an explosion occurred, following which the motors and frame work leaped to the earth, knocking several bystanders down.

Count Zeppelin has devoted his life and fortune to the development of airships, and this was the fourth he had constructed and the German government had agreed to pay a large sum for the airship upon the completion of 24 hours of successful flight in the air without touching terra firma.

ANOTHER WOULD-BE SUICIDE REPORTED

The officers are looking for one Paul Simmons, whose home is at Roseburg and who had written his folks there that he intended committing suicide. The man's brother arrived in Eugene from Roseburg this morning and told Chief of Police Farrington how the young man had written that he was going to the hills and make away with himself, after having shipped his trunk, containing all his extra clothing, and his violin home. The young man has been at Dallas, Polk county, for some time past and arrived in Eugene a few days ago. He mailed four registered letters to his folks, sending them all from the Eugene postoffice the same day. Young Simmons is ill and he imagines that he has consumption. Chief of Police Farrington has investigated the case and is of the opinion that he has not taken his own life, and thinks he can locate him soon.

PORTLAND BOY GUILTY OF COLD-BLOODED MURDER

Portland, Aug. 4.—Government Island, in the grounds where was the Lewis and Clark fair, was the scene today of a killing in which an 11-year-old boy, Jackson Reid, shot to death George F. Demars, a painter. Demars, with his brother and father, were members of a party who were fishing in Gull's Lake. Demars, Sr., was on one side of the island and his son on the other. He broke his hook and started across the island to get

another who was accompanied by several children, who live on the island among whom was the Reid boy. He was told that he was trespassing and was ordered off the island. The old man told the children he would leave at once, but according to his version of the shooting that was not sufficient. Then Demars, not making a successful resistance to the animal, George saw him and ran to his assistance with an oar. The young man drove off the dog, which appears to have angered the Reid boy. The youngster, it is stated, sent his slater to their house for a revolver. When she returned the boy is alleged to have told George Demars to stop where he was and simultaneously to have shot him. Demars fell without a word with a bullet through his head. The boy made no effort to escape and some little time later was arrested and placed in jail. When the police arrived at the boy's home they asked if he had done the shooting, to which the boy replied: "I did it."
