COTTAGE GROVE SAWMILL WILL BE REBUILT

McKIBBEN BROS LIKE OREGON BETTER THAN VIRGINIA—BIG REAL ESTATE DEAL—CITY COUNCIL MEETS—OTHER ITEMS

The McKibben Bros. sawmill, which was burned August 1st, has been rebuilt, new and first-class machinery put in, and inside of two weeks will be running again full blast and with double the former capacity. To hurry the work along a part of the new machinery from their mill northeast of the city was put into this mill which has arisen from the ashes of the old plant. This demonstrates pretty quick work on the part of the McKibben Bros. To show that their energy and enterprise is not confined to this mill alone, we publish the following letter received by them last week. It comes from the Norfolk board of trade and is as follows: "May we not lay before you the advantages of Norfolk as a manufacturing centre, with a view of securing the location of your new plant in this vicinity?"

A real estate deal involving a tract of 1923 acres of land three miles south of Cottage Grove was consummated this week, the tract comprising many acres of good grazing land as well as a fine tract of timber. The purchaser was none other than our townsman, M. H. Anderson, the deeds being made out by A. L. Woodard, the Latham sawmill man. The tract comprises what is known as the Woodard and upper Mary White places, and Mr. Woodard reserves the milling timber on the tract, it being specified in the transfer that he be given five years time in which to remove said timber.

The city council held another adjourned meeting last night and passed the bridge ordinance for constructing the steel bridge across the coast fork, which is to be 96 feet span, 16 foot roadway, with 5-foot sidewalk on each side. The concrete piers are to stand on bedrock. Bids will be received up to September 14th, and the work is to be completed within 60 days of letting the contract. Separate bids will be received for the pier and steel work. An ordinance for grading Locust street was also passed. The contract for sewer work on the West Side was let to S. C. Hart for \$2900.

Colonel and Mrs. Blair have exchanged their little home east of the railroad depot for 60 acres of land off the south side of the Spray farm on South Fourth street, paying \$2000 in cash also in the transaction.

Albert Wallace, the brick mason, is here from Portland to act as head mason in the construction of the walls of the Spray block and the walls of the new brick of the Burkholder-Woods Company at the corner of Main and Third streets.

Lane Shortridge has purchased the L. W. Baker residence property on Fourth street, consideration, \$1150. The deal was made through the W. B. Cooper real estate exchange. Three lots in the Cooper tract were sold to Sam McKernon the same day and

also two lots to Mr. Fidler, of Eugene, through the same agency. Hon. R. M. Venable, H. H. Venable, F. H. Ross, C. W. Wallace and John Wallace have returned home from their summer vacation on the Middle Fork.

Mrs. P. Valentine and child, of this city, and Mrs. Pike and three children, of Eugene, have gone to Mapleton.

Mrs. Hattie Munser and two children, of Washington, are enjoying a pleasant visit with Mrs. Munser's mother, Mrs. Kate Severson, after a four-years' absence.

Mrs. Brewster and daughter, of Eugene, are guests of Mr. and Mrs. Charles Jackson.

Mrs. Lancelotta Thomas has returned home from a visit at Woodburn and Eugene.

Miss Laurel Inman, of Wallowville, and Miss Ettie Owen, of Iverson, will teach the Elmira school this fall.—Cottage Grove Leader and Western Oregon.

GIRL STRUCK BY LARGE STONE

Rocks thrown by a blast at the rock quarry of the paving company Friday struck the little daughter of Robert Poole, and broke the roofs of several houses. The big piece of stone which struck the little girl only bruised her heel, so that she could not walk, but weighed nearly seventy-five pounds, according to those who investigated the accident. Not only was there one such big rock but scores, more in fact, than has ever been thrown out in the past.

J. R. Sellers first reported that his house had its roof punctured by flying stones. An investigation showed that a number of others were in the same condition. Any amount of rock was scattered around. The point in the quarry from which the rock was blown out was one at which there had not been operations. An extra large blast was put in, shooting the rocks into the air for many yards.

Superintendent Shewry, of the paving company, went out into the country today to look for another quarry, but as yet has no location. The Warren people are extremely sorry for the occurrence. They think that they have enough rock to finish their present contracts, and believe they can arrange the blasting that no more rocks will be in case they take more contracts. The manager will be down from Portland today to look into the matter.

SPRINGFIELD LOCAL NOTES CLIPPED FROM THE NEWS

Dr. A. K. Turner was in Springfield a few hours Tuesday, having recently returned from Tillamook, where he has been working on the government survey. He says he expects to be away for about two months longer.

Mrs. L. M. Beebe and sons Earl and Frank took their departure on the early train this morning for Portland, and this evening will leave on the O. R. & N. through train for Lyons, Neb., via Omaha, where she will visit her parents for several months. Mr. Beebe accompanied them as far as Portland to see them safely on their journey.

Judge Bryan and wife, brother of our townsman, J. J., are visiting in the city from Caldwell, Idaho. Mr. Bryan is district judge, having been elected to that office two years ago, and while he resides in Caldwell his official duties are in Boise. He is now enjoying a month's vacation and will spend his time here with his brother Joe and at Philomath with his parents.

Kennedy & Son's business college and academy will start September 7, and from all indications looks as though a bright future was before it.

Melvin Fenwick, who came here about a month ago for the purpose of residing for the winter, has left us and gone back to Harney county, where his presence is needed in a large merchandise store at Burns. Mr. Fenwick owns considerable property here and has recently purchased more. He has great faith in the future of Springfield.

A camping party consisting of Mr. and Mrs. Shaw and little daughter, Mrs. McElroy and son Earle and Walter and Cecil Whitmore started at 5 o'clock yesterday morning for Hazel Dell, where they will spend a couple of weeks camping on the North Fork of the Willamette. During the absence of Mr. Shaw, Merritt Tuer will have charge of his confectionery and ice cream business.

J. V. Machen shipped two cars of stock to the Portland market Wednesday, and says he finds the stock yards at Springfield a great convenience, inasmuch as it has always been necessary for him to drive the stock to Eugene for shipment before the building of the yards here.

Mrs. Mabel Watson, sister of Mrs. R. A. Jayne, whose home is in Detroit, Mich., is in the city making quite an extended visit. She arrived from California last week after being with her mother through sickness and death. She will visit here till the doctor and his family take their departure for Hood River and will then visit another sister in Portland for a time before returning East.
