That the railway company and Honey on August 22, 1908, went upon the land and broke down and destroyed the foundation of a building that had previously stood upon the lot and tore the same down and destroyed it to the damage to the owners in the sum of \$25.

A decree is asked for an injunction restraining the defendants from building the obstruction and for \$25 damages.

BLASTING STOPPED BY ORDER OF MAYOR ACTIVITY AT WARREN CONSTRUCTION CO.'S QUARRY CEASES AND FORTY MEN ARE OUT OF EMPLOYMENT Mayor Matlock last evening made a trip to the Warren Construction Company's stone quarry at the west end of Skinner's Butte and ordered all blasting stopped on account of the danger to the residents of that portion of the city from flying particles of rock. The work was at once ceased and the quarry and crusher are idle today, forty men being thrown out of work temporarily and a payroll of \$90 a day stopped. It will be remembered that a few days ago a huge rock blown by a blast from the quarry struck a little girl living nearby on the heel, rendering her lame. Other accidents of a minor nature have occurred and there have been numerous complaints against the blasting on account of the damage to houses occasioned by the jar from the blasts. Manager Shewry, of the Warren Construction Company, says he does not know where they will get their rock for the paving work location. He says they have enough crushed to finish the Park street contracts. They have no other contracts on hand now, but the West Ninth street and other jobs will be let soon.
