

# S.S.S. CURES SKIN DISEASES

When the blood is pure and healthy, the skin will be soft, smooth, and free from all blemishes and eruptions; but when some acid humor takes root in the circulation, its presence is quickly manifested by some form of skin disease. The skin receives its necessary nourishment and strength from the blood. When, however, this vital fluid becomes a humor-laden stream, it can no longer preserve the healthy, natural appearance of the skin, but by its acrid, impure nature continually irritates and inflames the delicate tissues and fibres and keeps the cuticle in a diseased and disfigured condition. External applications cannot reach the blood, and therefore are beneficial only for their ability to reduce inflammation, and assist in keeping the parts clean. To cure any skin trouble the blood must be purified of the humors that are causing the trouble. S. S. S. drives out the humors from the blood so that the skin, instead of being irritated and diseased, is nourished by a healthy, cooling stream. S. S. S. goes down into the circulation and removes every particle of impure matter, all acids and humors, and restores the blood to its normal, pure condition, thereby curing every form of skin disease or affection. Book on skin diseases and any medical advice free to all who write.

## FAMOUS RUSSIAN AUTHOR IS EIGHTY YEARS OLD

(Continued from Page One.)

Jan of note in Russia, and it had no difficulty in enlisting the support of many distinguished men in nearly every European country, the United States and some of the British colonies. The committee had started several important movements coincident with the celebration, and all of them promise to be successful. One of the plans is to raise enough money to purchase the copyright of Tolstol's books, so that cheap editions may be published with a view of popularizing the ideas and theories of Russia's grand old man. Another movement is directed toward the establishment of a Tolstol institute and museum in St. Petersburg.

Letters and telegrams of congratulation, addresses and birthday presents for the count were sent to him in large numbers from every part of the Russian empire and from many parts of the world. Many tokens of admiration and sympathy came from the United States, Germany, France and England. Judging from the general and enthusiastic manner in which Tolstol's birthday was celebrated throughout Russia today the count is at the height of his popularity. The fact that quite recently Count Tolstol has been "persona non grata" to the Russian government, even more than before, may have been a stimulating influence upon the sympathies of that large class of educated Russians belonging to the opposition. Tolstol represents, more than any man in Russia, the progressive and radical element. Nearly all his life he has been on the opposition side, defying and combatting the evil influences surrounding the throne, the bureaucratic clan and the reactionary faction of the nobility. His sympathies have ever been with the people, and his aim has ever been to lead them to freedom and happiness. Yet his radicalism was not of a violent nature, and never did he advocate the use of force or violence. The nihilists of Russia, the anarchistic element, found neither support nor sympathy with Tolstol.

Tolstol had a remarkable career. He was born of noble and wealthy parents at Vasyaya, Polyana, on August 28, 1828. His parents died while he was a child and he was left in charge of an aunt. He received the usual education of a Russian noble, first at home and afterward, in 1843-44 at the University of Kazan, where he entered the faculty of Eastern languages and literature. In 1844 he took up the study of law and was granted his degree and admitted to practice in 1848. In 1851 he accompanied his brother to the Caucasus and entered the army. It was during his residence in the Caucasus that he wrote his earliest novels. In 1853 he joined the Russian army of the Danube and fought against the Turks. In 1862 he married Miss Sophie Bhrs in Moscow, who has had the most remarkable influence upon his life, his religious and sociological views, and has, many believe, saved him from financial ruin and from becoming a mental wreck. His first great novel, "Anna Karenina," was published in 1875 and made him famous. Although the income from his estate and from the copyright of his books would enable him to live in keeping with his rank, Count Tolstol has ever since his marriage lived the simple life of a peasant, denying himself all luxuries. His time is divided between his literary work and labor in the fields or at the cobbler's bench, where he makes shoes for himself, his family and his neighbors. His ethical, sociological and political teachings have produced a deep impression not merely in Russia, but throughout the whole civilized world and the old man has thousands of ardent admirers all over the globe.

## CAPTAIN HAINS MUST ANSWER MURDER CHARGE

New York, Aug. 28.—Captain P. C. Hains, Jr., brother of T. Jenkins Hains, was held today without bail to await the action of the grand jury on the charge of murdering William E. Annis. Captain Hains wore citizen's clothes, and his pallor and unshaven appearance indicates the effect of his confinement.

The announced intention of Hains' counsel is to plead insanity as a defense, together with sensational charges against the captain's wife.

## GRACE CAMERON SCORED BIG HIT AS "DOLLIE DIMPLES"

There was a well-pleased audience at the Eugene theatre last night when Miss Cameron and her company presented "Little Dollie Dimples," a bright, sparkling operatic drama. At the rise of the curtain, and from the time Miss Cameron appeared in the part of "Little Dollie Dimples," she was the talk of the audience, in fact, the whole house. It began to dawn on them that they were making the acquaintance of an extremely charming and talented young woman when she made her first appearance, but it was not until her singing of "Good-bye Dear Old Home" that she took the house by storm and then they accorded her an ovation that shook

the house. She graciously responded to several encores and would still be singing and bowing had the audience had their way. The company supporting Miss Cameron is a strong one having been especially selected by the author, C. Herbert Kerr, and the one hundred and one good things seen in the piece will make its life long and we hope prosperous. "Hiram Skinner" and "Alexander Comstock" were characters that won liberal applause and numerous encores. Tonight the company completes its engagement here, presenting "Mlle Julia," a splendid opera that is new to this city.
