

the news comes that one or more of them have dropped themselves out of the clouds for the amusement of the assembled multitudes. And this makes us believe that the flying machine, whether maintained in the air by the gas-bag or aeroplane methods, will never become very popular with the masses.

Harriman says the Oregon Eastern will be built across the mountains from Natron to Klamath Falls, connecting with the Southern Pacific at Weed, California. This is equivalent to saying that Eugene will be made the actual junction of two of the greatest railroad lines in the West. Wouldn't that jar the knockers of Eugene, if there are really any more of those fellows left here?

Some of the yellows have discovered that the Mikado is throwing hourly fits, just as the yellows do, because of his fear that our battleship fleet, under pretense of a friendly visit, intends to wipe Japan off the map. Now, if a scheme to wipe the yellows at home out of existence were possible, 'twould be all right.

That was a mistake of the Guard reporter on the Shriners' train which held up the Harriman special at Halsey in having the magnate ask for "three cheers for Bryan." What he really did request of the crowd was "three cheers for O'Brien"—his Northwest manager, which were given with a will.

Mr. C. D. Minton has leased the "Oregon Agriculturist" of Portland, and expects to devote his entire attention to that excellent publication, making it a better paper than ever for the farmer, fruitgrower and stockman. He was formerly connected with the Pacific Homestead and Oregon Poultry Journal.

Fars are to be higher. That may be important to some, but there are a whole lot of us who expect to wriggle through the winter somehow without buying a new fur overcoat, with prices ranging from \$135 to \$1300. This is a warm climate, anyway.

Now that Russia has \$300,000,000 in real money, obtained from a sale of bonds, the czar is said to be dreaming of going after vindication by scrapping with the Japs again. Some men never know when they have enough.

Yes, sir—ee; the blasted old tariff has made another life-long enemy in the person of the Boston lady who was caught trying to dodge something like \$75,000 in duty on a little high-art bric-a-brac she brought over.

When Evelyn Thaw could not manage to think up any more shocking stories she managed to get a little inside-page advertising by getting nervous prostration at the proper time.

It should not be forgotten that it is possible for a voter to be card-indexed right and then vote wrong. In other words card-indexing his does not guarantee that he will stay put.

Whenever some of the most vicious born trouble-makers are at a loss for something to do they try to tangle up one of the candidates in a denominational religious maze.

It frequently happens that when some slick-talking company promoter comes along with a proposition to "take in local interests" that he does just that.

Any politician who cannot prove by the Vermont returns that his side has a cinch on the presidential election didn't know his business.

Doubtless many were surprised that the business of the Havana post-office was big enough to turn out a \$400,000 shortage.

This is Labor Day—a legal holiday for everybody but the newspaperman.

A Sure-Enough Knocker  
J. C. Goodwin, of Reidville, N.C., says: "Bucklen's Arnica Salve is a sure-though knocker for ulcers. A bad one came on my leg last summer. That wonderful salve knocked it out in a few hours. Not even a scar remained." Guaranteed for piles, sores and burns, etc. 25c at W. A. Kuykendall's drug store.

THIS IS MY 62ND BIRTHDAY

Rear Admiral Merrell  
Rear Admiral John P. Merrell, who goes on the retired list of the United States navy today on account of age, was born September 7, 1846, at Auburn, N. Y. He spent his boyhood in Marshall, Mich., and in 1865 entered the United States naval academy. After leaving the academy he served with the European fleet for three years. From 1875 to 1877 he served with the North Atlantic fleet and during the next two years he was in charge of the naval ordnance proving grounds. For five years he was an inspector at the Annapolis academy, and then came another period of sea duty on the European station. In later years Admiral Merrell has served with the Asiatic fleet, as a member of the staff of the Naval War College, as commandant of the naval station at New Orleans, and as commander of the battleship Oregon.

MORE TRAINS BETWEEN WENDLING AND SPRINGFIELD

It is rumored through the News has been unable to get the information from headquarters, that the Booth-Kelly Company has made a contract for two trains daily, to run from Springfield to Wendling and return. These trains, it is said, will haul all the logs to the mill from that section of the country. A track will be built along the side of the mill pond where the logs will be shot into the water. It is said that the trains will cost the Booth-Kelly Company several thousand dollars monthly.

Word has been received at Springfield that Will White, who formerly worked for the Booth-Kelly Company and was a nephew of J. T. Turff, is now lying at the point of death from consumption at Grants Pass. The young man left here about three years ago, but has many friends who will regret learning of the sad news. Grover Kestley took his departure the latter part of the week for Ontario, where he has been elected as assistant principal of the schools for the coming year. Grover is one of the late graduates of the University of Oregon, and this will be his first year in the school room as a teacher, but we predict for him a bright future. Frank Whiteman informs us that he has leased his corner building opposite the hotel to J. S. Kirkley, who will move his meat market therein. Mr. Kirkley expects to fit up one of the best markets in Lane county. The location is an ideal one. Ole Holverson has sold the Peoples' meat market to J. L. Barbra, who will take possession October 1st. The deal has been pending for some time, but was not closed until Tuesday.—News.

Advertisements, Like Clocks, Should Keep Running

A store's advertisements tell the people what is "doing" at that store—what is new, what is inviting, why today is a good time to visit the store. People look for the ads to tell them these things just as naturally as they would look at a clock to tell the time. Sometimes a clock does not run—sometimes a store's ad does not run. A "run-down" clock or ad are about equally unsatisfactory, unserviceable, misleading. Curious thing about it is that a merchant who would think it absurd to have a run-down or out-of-repair clock will, sometimes, deliberately let his ad stop running. It's not wise, nor good business, nor defensible on any known grounds—but it is sometimes done.
