LAW ENFORCEMENT ENEMIES OF GOVERNOR FORT ATTEMPT LIFE BY INFERNAL MACHINE METHOD

JOHN FRANKLIN FORT.

Governor of New Jersey, whose assassination by means of an infernal machine was thwarted recently.

Saugitt, N. J., Sept. 12.—An attempt to assassinate Governor Fort, of New Jersey, was thwarted by the vigilance of a postoffice employee, who

discovered a cleverly arranged infernal machine in the mails. Had the governor opened it in the usual way there is little doubt but what it would have killed him. The governor's mail has been carefully watched since the recent crusade against the violators of the law at Atlantic City.

That the would-be assassin had a grim sense of humor was evidenced by the following message written on a bit of paper to the governor:

"Please notify us promptly of any change in your address," while another read, "You will know me better after we are acquainted."

Another line by which it is believed the sender sought to give the impression that the machine was sent by a foe of constitutional government instead of a personal enemy of the governor, read:

"Any gun against this rotten government."

Governor Fort would not discuss the matter in any way, but it is learned today that officials of the postoffice at Philadelphia will hereafter officially scrutinize all packages of mail matter reaching the Philadelphia office before posting to the governor.

The Chippewa landed the Sentinel's passengers and proceeded on her way. No one was hurt.

President Gozzain, of the company which owns the Sentinel, has just returned from Seattle. He says the Sentinel is only slightly damaged, and that she will leave on her regular run Monday. She carried thirty passengers on this trip.

Great excitement prevailed on both boats, and cool headed men on the Sentinel had to use force to prevent the women and men from leaping overboard. The Chippewa struck the Sentinel just abaft of the stem and smashed in her bow like an egg-shell.

No Man Deliberately Buys Poor Clothes

He thinks they're good; worth the money, or he doesn't want them. Just the same, lots of men are paying their good money for cheap clothes—mixed goods—and they think they're being real economical because they get such clothes for little less than all-wool would cost.

This cotton mixed stuff is certainly very deceiving, even expert clothing men find it difficult at times to tell whether or not the fabric has cotton in it. We've seen clothes that looked good enough to sell at \$20 which were over one-half cotton and really worth about \$6 the suit.

We sell no such flim-flam here. You know what Hart, Schaffner & Marx clothes are, so do we.

The makers say "All-wool" and live up to it.

We'll say you come here and get one of "Mae Jane Hopkins" suits for him. They are made with as much hard wear for the money. Boy's Suits from \$1.50 to \$6.00
