### SWEETER TALKS ON OYSTER BEDS IN COOS BAY

Unless present plans are interfered with, a native oyster bed will be planted in Coos Bay on or about the first of January with a view of propagating the bivalves that at one time abounded here as is evidenced by the tons of oyster shells around the bay. The announcement was made by Prof. A. R. Sweeter, state biologist, last evening, before the Chamber of Commerce, says the Marshfield Times.

"We have investigated the conditions pretty thoroughly here and believe conditions are favorable to the propagation of the oyster," said Mr. Sweeter. "The only doubt in our minds as to the advisability of experimenting with them is as to the cause of the destruction of the original oyster beds. If that is liable to be repeated at frequent intervals, it would be useless to experiment with them, but I don't believe it will. I am going to make a further examination of the Bay and conditions here and we will know definitely about the matter by about January 1.

"The state will bear the expense of securing and planting the seed. I will make arrangements with parties owning the mud spots here for a small area to be used for the oyster. We will have to get the seed from the Puget Sound. They will grow and propagate here while the eastern oyster will merely grow in size without propagating.

**Must Guard Beds.**

"There is one thing we need and must have to make the experiment a success and that will be the moral support of the people in seeing that the oyster beds for at least four years. It will take about that long to give the oysters a start.

"If the experiment is a success, it will be a great thing for Coos Bay and for Oregon. The commercial possibilities of oyster culture are great. If we succeed in Coos Bay it is our plan to establish a dozen or so places in Oregon. At present Yaquina Bay is about the only place having many native oysters and they are rapidly being depleted there.

"As to the experiment station at Sunset Bay, it is coming along nicely. Mr. Simpson contributed a site for the research building, the lumber has been arranged for and we will now have to arrange for the labor. Sunset Bay affords the finest location for studying all kinds of sea life of any north of San Diego. This will be the only station on the Oregon coast and will be a great advertisement for Coos Bay."

### MINNESOTA INDIAN LANDS ARE OPENED

Duluth, Minn., Sept. 15.—More than 46,000 acres of land, formerly included in the Cass Lake, the Chipewas of Mississippi, the Leech Lake, the Fond du Lac, the Red Lake and the Winnibigashish reservations, were thrown open to settlement today in accordance with orders from the general land office. A large part of the tract consists of good agricultural lands. All of the lands are subject to entry under the homestead laws, and settlers will be required to pay \$1.25 an acre in five annual installments. An important provision is one subjecting all of the lands to a pro-rata charge for drainage work that may be erected by the state of Minnesota under the terms of the Volstead law passed at the last session of Congress.

### MOORES WILL COACH COLUMBIA UNIVERSITY

Gordon Moores, the fast end who graduated from the University of Oregon last June, and who it was hoped would turn out for the Multnomah eleven and will not be seen in a football uniform again, says the Portland Journal, Moores Saturday signed a contract to coach the Columbia University team at a contract which calls for \$300 for the season's work.

Plowden Stott has signed to coach the Columbia University, but objections were raised by the directors of the club and he resigned. Moores' selection followed.

Moores will make a good coach for he was one of the headiest players at Oregon last year and has had much valuable work under good coaches. He will take up the study of law in Judge Fenton's office this morning, and much of his spare time will be devoted to trying out a good football team at Columbia. He may take charge of the track team there in the spring.

### AMUSEMENTS

Picturing a phase of life in a big city that cannot fail to excite the interest of all patrons of the drama, "Hooligan in New York" is full of sensational scenes, original comedy and thrilling climaxes. It comes to Eugene Theatre, Thursday, September 17. Scenically the production is unusually elaborate, five complete sets being carried, each one of which is a work of art.

A welcome announcement to local theater-goers will be the forthcoming engagement of the well known and popular German dialect comedians, Kolb and Dill, in their New York and San Francisco success, "Lonesome Town." These clever German dialecticians will appear at the Eugene theatre next Friday night for a limited engagement of one night. "Lonesome Town" was an unmistakable success, not only on this coast but in New York, Chicago and all of the prominent cities of the east. It ran for four months at the Circle theatre, New York city, playing to crowded houses and this has been the rule wherever Kolb and Dill have since appeared in this laugh-producer.

"Lonesome Town" is a comedy set to music and it is a distinct novelty in its particular line. The late Juason C. Brusie wrote it and the humor is as keen and pungent as the most critical playgoer could desire. The story deals with the laughable attempt on the part of several impostors to claim the town of Watts, California, which proves an excellent vehicle for the two stars to create scenes as well as for the introduction of sixteen musical numbers, every one of which is a gem.

The play is full of original, catchy music of the sort that makes one want to whistle and the orchestration is decidedly unique. There are scores of beautiful girls in elegant costumes, while the novel stage and

light effects all serve to make "Lonesome Town" the most complete and up-to-date musical play that these past-masters of "showed-up" Eucalyptus have appeared in. This is surely a great deal when one considers the innumerable hits that these comedians have scored in the past.

There are more than forty people in the company and the cast numbers among others the Broadway prima-donna, Maude Lambert and Billy Clifford, Charlotte Vidar, Edward Gorman, J. A. Raynes, Miss Lambert has been a Broadway idol for several years and her song-bits in "Lonesome Town" are still being whistled in the great metropolis.

Messrs. Kolb & Dill promise us the New York production in every particular from principal to chorus, as well as the same elaborate scenery and gorgeous costumes which were one of the many features of the long run at the Circle Theatre.

### FRESH WATER CAUSED DEATH OF HERRING

Albany, Sept. 14.—That the thousands of herring which were strewn on the beach of the Pacific ocean near Yaquina bay recently were not destroyed by any volcanic eruption in the ocean is indicated by a logical solution of their death which is offered by W. M. Toner, express messenger on the Corvallis & Eastern railroad and owner of the oyster beds and crab-fishing plant on Yaquina Bay.

The herring enter Yaquina Bay annually in large schools, Mr. Toner says, and penetrate far up the Yaquina river. When they begin to get too much fresh water they return to the ocean. This year heavy sudden rains fell when the herring were going upstream in large schools and so much fresh water overwhelmed the fish.

Mr. Toner verifies his theory by the fact that people on the bay saw the dead herring floating out to the ocean from up the river long before the tides threw them out upon the beach. If a volcanic disturbance had killed the herring, it would have caused the death of scores of other kinds of fish.

### A MEASURE OF MERIT.

Eugene Citizens Should Weigh Well This Evidence.

Proof of merit lies in the evidence. Convincing evidence in Eugene. Is not the testimony of strangers. But the endorsement of Eugene people.

That's the kind of proof given here.

The statement of a Eugene citizen, L. Bonney, 459 Olive St., Eugene, Ore., says: "I have suffered from backache for a good many years. My trouble was severe pains in the back which caused me a great deal of suffering. My kidney secretions were irregular, unnatural in appearance and of much annoyance. At night my sleep was greatly broken on account of the frequent action of the secretions. I tried many remedies but obtained no relief until I procured Doan's Kidney Pills at W. L. DeLano's drug store. After I had used one box I received great relief and on continuing their use my troubles quickly disappeared. I take great pleasure in expressing my appreciation of Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-McBurg Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no others.

### FOR SALE, EXCHANGE OR LEASE

Having concluded to retire from the lumber business I offer for sale, lease or will exchange for Eugene or Portland income property, my sawmill, sawmill site, booms, lumber sheds, office, planers, dry kilns and all tools connected with the business. Mill located at river bridge in the centre of Eugene city, east and west, and only three blocks from the S. P. R. R.

This is a fine opportunity for some one to go into the lumber business, as there is always a big local demand for all slabwood, sawdust, shavings, cull lumber, as well as the better grades of lumber. Logs are cheap, labor cheap, lumber high.

A good millman can make this property pay for itself in two years, and if he will operate day and night in one year. Greatest opportunity in this part of Oregon for a mill man; best located mill in the state. Capacity, 20,000 feet in ten hours.

When you have this mill you are at the market. Planer and dry kiln—everything needed to make lots of lumber and lots of money. Give this your early attention if interested in a lumber proposition. I am sure you cannot beat it in the state. The quicker you act the surer you are of making your fortune, for this is a chance in a lifetime.
