COUNTRY CLUB AND LIVESTOCK MEET BEGINS

Guard Special Service.

Portland, Sept. 21.—The Portland Country Club and Livestock Association begins its initial meeting today. The exhibit of livestock surpasses that shown at the Lewis and Clark exposition, and the races will be the best ever witnessed here. The great mile track just completed at a cost of \$27,000, the immense barns and steel frame amphitheatre, give the grounds and surroundings an appearance of solidity and permanence. The track is considered the best drained that has been built in this part of the United States. There is a steam railroad line into the grounds in addition to a splendidly equipped electric line—in fact, the latter has been tested and found capable of handling forty-five cars at one time. Together these lines will relieve the ground sofs even thousand people within the first fifteen minutes after a meeting.

No event has taken place in the last year that will be more beneficial to the Pacific Northwest than the visit of the delegates in attendance upon the National convention of the American Association of Traveling Passenger Agents. These men have traveled through Washington, spent three days thoroughly investigating Seattle, where they held their convention, visited interesting points on the sound; then they came to Portland, where they disbanded, going to many points in Oregon, Washington and down through California. The traveling passenger agents meet thousands of people every year, and influence a vast amount of travel.

The Missouri river valley is one of the most successful hog sections of the United States. Today one of the most popular stock-raising foods in the Missouri river region is a mixture of alfalfa meal and sugar beet pulp, which is produced in Colorado. Advice recently received from that state show that numerous new mills are being erected, and certainly the Pacific Northwest should give this industry every possible encouragement, and this is particularly true since the great international concerns like Swift & Company and others have decided to locate upon the Pacific coast and are now spending millions of dollars in building their plant at Portland. A good reliable fattening food equal to corn would make this section of the United States the very richest portion of our great republic.

The Hood River Applegrowers' Association has just closed a contract for 80,000 boxes of the growing crop, and now have under discussion the sale of 150,000 additional boxes. This will be good news to all the fruit-growing sections of the Northwest.

AMUSEMENTS

One of the most successful plays of the present season is "The Little Prospector," a comedy-drama which comes to the Eugene theatre on Thursday, September 24. "The Little Prospector" was written especially for "Chic" Perkins by a master hand in stage-craft, and the lines and "business" fit her like a kid glove. The character of the self-assertive, independent, yet lovable daughter of a degenerate physician is interpreted with a charm that wins the audience and sets the gallery gods in a furore, and the real critic in the gallery god, he is honest to himself and the players and he won't stand for phoney goods. "Chic" Perkins is surrounded with a group of theatrical satellites that are an important factor in the success of the new play, and give the magnetic little star excellent support, which causes "The Little Prospector" to run as smooth as the waters of a mountain brook. There is an element of pathos in the drama that is not overworked, and the comedy is not of the "slap-stick" order, but is clean, refined, yet the situations never fail to bring roars of hearty laughter. There is an indescribable charm about "The Little Prospector" as interpreted by "Chic" Perkins that makes the play a success, for it tells the story of human emotions in which love, hate and romance are skillfully blended by a playwright of international fame. Success from a financial, artistic standpoint has crowned the efforts of the strenuous magnetic "Chic" and the little star deserves the laurel of Fame.

FOR SALE, EXCHANGE OR LEASE

Having concluded to retire from the lumber business I offer for sale, lease or will exchange for Eugene or Portland income property, my sawmill, sawmill site, booms, lumber sheds, office, planers, dry kilns and all tools connected with the business. Mill located at river bridge in the centre of Eugene city, east and west, and only three blocks from the S. P. R. R.

This is a fine opportunity for some one to go into the lumber business, as there is always a big local demand for all slawwood, sawdust, shavings, cull lumber, as well as the better grades of lumber. Logs are cheap, labor cheap, lumber high.

A good millman can make this property pay for itself in two years, and if he will operate day and night in one year. Greatest opportunity in this part of Oregon for a mill man; best located mill in the state. Capacity, 20,000 feet in ten hours.

When you have this mill you are at the market. Planer and dry kiln—everything needed to make lots of lumber and lots of money. Give this your early attention if interested in a lumber proposition. I am sure you cannot beat it in the state. The quicker you act the surer you are of making your fortune, for this is a chance in a lifetime.
