

service may ask congress for an appropriation to build a prison for fleas in order to make some experiments. Congress is likely to jump on them at such a proposition.

Mr. Harriman's theory that railroads need protection, as well as regulation, is thoroughly sound in one respect—they need protection from the speculative gamblers who use them as chips in the stock market game.

Being dissatisfied is the spirit responsible for most of the world's progress, however much individuals may dislike filling the role. In fact, it is the strength of this individual dislike that brings about a betterment.

Nobody has seen fit to charge that "Sunny Jim" took the stump in Pennsylvania for fear that the G. O. P. would lose the state. Maybe he only wanted to give his voice a little training among known friends.

Diaz has arranged to again "bow to the public demand" and be elected for the seventh time president of Mexico. Not much fun in presidential campaigns over there, as it is treason to vote against Diaz.

The end of consumption would be a glorious consummation, indeed, but some of the advance advertising of the crusade, or rather some of the crusaders, seems to be just a little tinged with quackery.

The presidential campaign seems to be warming up in the East, and if it wasn't for those close pennant races in the big baseball leagues people might become really interested in it.

There are a number of new candidates for governor who are not complaining, or likely to have to complain, about apathy in their campaigns. Quite the reverse.

Frank Hitchcock says the "racket and red fire" campaign will not be started until October. Wonder which ball team Frank is rooting for.

GALVESTON WAY

Galveston, Texas, are the latest with their particular interest in the matter and are not slow to take to all other municipalities. It is what H. S. Cooper, Galveston News, says of it:

Galveston do think, however, they have pretty nearly solved the difficult problem of municipal administration. After six years of it there is very little that would want changed in the city and we have re-elected the same commissioners three times in no politics in it—and the old board of aldermen, the "bad element" of Galveston and yearning for the old municipal government, have had to inject politics into a plain business government every-day, common-sense, business plan; it has nothing to do with geographical in Galveston; it is practical for Galveston city, even the very best for it has nothing to do with Galveston.

"This is My Fiftieth Birthday,"
William De Witt Hyde, president of Bowdoin College and recognized as one of the most prominent educators in America, was born September 23, 1858, at Winchendon, Mass.

His early education was received in the public schools at Phillips Exeter Academy. After leaving the academy he went to Harvard College and was graduated from that institution with high honors in 1879. His theological training he received at Andover Seminary. Dr. Hyde filled various New England pulpits an aspect several years as a teacher before he became president of Bowdoin College in 1885, when he was but twenty-seven years old. He is the author of a number of works on religious and educational circles.

BOOST; DON'T KNOCK!
Eugene, Or., Sept. 21, '08.
The worst of the recent panic is over, the empty dinner pail will soon begin to fill up. Let us all talk prosperity and work for prosperity. Either Bryan or Taft will be elected, and no matter which one the majority of the voters choose, times will continue to get better. It is a moral crime to predict a panic, for a panic means poverty, bankruptcy, suicide and untold suffering. We have recently had enough of it.

Let us not lay it onto any individual. A candidate for office who will predict that if the majority elect someone else there will be a panic, is not a patriot. A politician or newspaper who will endeavor to create a panic for political reasons should be punished as a criminal.

Let us all be patriots and work for a return of prosperity and it will make no difference whether Bryan or Taft is elected. Boost! Don't Knock!

Soundings just completed at the order of the government lighthouse service show a maximum depth on Yaquina Bay of 19 feet at ordinary high water. This depth is on the crest of the bar, and on either side from Newport to the sea the depth is from 15 to 10 feet greater. This gives a depth of nowhere less than 12 feet at low water.

The annual conference of the M. E. church will be held in Salem this week.

Not less interesting and even closer is the race in the American League, which yesterday witnessed the displacement of Detroit from the leadership, assumed now by Cleveland, by virtue of that club's victory over New York and Detroit's defeat by Boston. Only five points behind Detroit is Chicago, also a winner yesterday, with St. Louis keeping up the pace 13 points to the rear of Chicago, and with only 20 points between the St. Louis men in fourth place and Lajoie's men in first place. The potentialities of this race are also great, even with the season thus near to its close.
