

A Careful Man Protects His Family

By carrying a Life Insurance Policy. This is a wise plan and we have no criticism to offer.

The first necessity for a family however is a **HOME**. If you have gone this long without one, you should not delay another day. **MATERIAL** of all kinds is advancing, but is still reasonable. If you need a home and don't take advantage of this opportune time to build then get the insurance anyway for you surely are a **DEAD ONE**.

CLASS WORK BEGINS TOMORROW AT UNIVERSITY

REGISTRATION A HUNDRED AHEAD OF LAST YEAR—FOOTBALL PRACTICE HAS BEGUN—THE SEASON'S SCHEDULE

Regular classes will begin tomorrow morning in all lines of work at the University, the great bulk of the students having registered yesterday and today. Registration up to 1 o'clock today had reached 340, as against 250 for Wednesday last year. Most of the students who have registered are new students. Many of the old students will come in tonight and during the remainder of the week.

The University, though without new buildings to meet the influx of students this fall, has been greatly improved. Every building has received innovations so that the college work can be handled with greater success.

While most of the new apparatus has arrived, some of it, especially the books, will not arrive until later in the year.

Football Practice. Thirty-five turned out last night for football practice, and fifty is the number expected tonight. Coach Forbes is well liked so far, and promises to make much out of the team. Strictness seems to be his key note in the building up of an aggregation, and discipline and accuracy is just what the team lacked last year.

The men have done little but preparatory work, such as kicking and punting. Five of last year's eleven are back, Captain Moulton, Coleman, Clarke, McIntyre, and Pinkham. The outlook in regard to the old eleven is poor, but Forbes has an excellent lot of new material in the freshman class, as well as the splendid second team of last year. These two bodies of men are making the University enthusiasts cheer up.

Forbes has just a month to whip the eleven into shape for the first game, with Willamette, is played in Eugene on October 24. All this time is needed in the present condition of the squad. In order to facilitate the building up of the team and to find the qualities of his men, the head coach has just taken the big beefy fellows under his care and turned the lighter men over to his assistant, Ole Arnapiger.

The Schedule. The football schedule for the season is as follows:

October 24—U. of O. vs. Willamette, at Eugene.
October 29—U. of O. vs. Idaho at Moscow.
October 31—U. of O. vs. O. A. C.

(Freshman teams) at Corvallis.
November 7—U. of O. vs. Whitworth, at Eugene.
November 14—U. of O. vs. Washington, at Eugene.
November 21—U. of O. vs. O. A. C. at Portland.
November 28—U. of O. vs. M. A. A. C. at Portland.

Mr. John White, of 28 Highland avenue, Houlton, Me., says: "I have been troubled with a cough every winter and spring. Last winter I tried many advertised remedies, but the cough continued until I bought a 50-cent bottle of Dr. King's New Discovery. Before that was half gone the cough was all gone. This winter the same happy result has followed; a few doses once more banished the annual cough. I am now convinced that Dr. King's New Discovery is the best of all cough and lung remedies. JUDGE TAFT STATES OPINION OF BRYAN

(Continued from Page 1.)

for a period of twelve years, with this record of a hunt for an issue upon which to achieve the presidency, with this record of repudiation of negotiation and of running away from national responsibilities, Mr. Bryan comes forward and asks the people to give him an opportunity to put into operation new reforms in respect to trusts and in respect to guaranty of bank deposits, wholly untried, wholly theoretical, and on their face bearing evidence of their impracticability and of having been devised by the ready brain of one looking for arguments rather than real reforms. He only in a qualified way approved the postal savings banks recommended by the Republican platform, which is a tried and proved means of encouraging the wage earner and small farmer to make deposits in a bank absolutely secure; but much prefers a system which takes a man's money to pay another man's default and which, instead of strengthening our banking system, will break it down by destroying the value of the banking character and experience and capital, and offering inducement to reckless and speculative bankers without character or capacity.

"The record of Mr. Bryan and his character as it is understood by a twelve years' acquaintance with him, have impressed the business community of this country and those whose judgment determines whether or not capital shall be invested that he is not a safe man with whom to try experiments in government; that he loves financial theories that are full of sophistry and are impractical; that he advances propositions with but little sense of respect as to how they may be carried out in practice, and that he gives but little attention to the welfare of the conservative business community in suggestions of reform. Certainly his record justified this judgment of him by the business men. If he were to be elected, unquestionably because of his record, however much now he may seek to pose as a conservative, because of his record, because of his failure in the theories which he has proposed for the last 12 years, his election will mean a paralysis of business and we should have a recurrence of the disastrous conditions of the last Democratic administration."
