

THE EUGENE DAILY GUARD... PRINTING CO., INC. Eugene, O. Fisher

of the corporation to make, when they have been telling us that it was only a "seepage" creek. And more remarkable, too, Mr. Freeland says that this was the amount of water that went over the weir, which, he says, was very leaky, a considerable amount going through, around and under it.

This is a most remarkable statement, and it is doubtful if it is worth what it cost the corporation to get it. In character it recalls the campaign of a year ago, when the water company herded together a lot of business men and made them sign a statement that water was being pumped from the dry well across the river.

People laughed at that statement because it was so false that it was more humorous than mendacious. Mr. Freeland's guess at the flow of Ritchey creek will have a similar effect upon the voters of Eugene.

ARTESIAN WELLS INFESTED WITH DANGEROUS GERMS

Prineville, Or., Sept. 19.—The Prineville Light & Water Company today notified all water users in this city to boil the water before domestic use. This action is taken as the result of an analysis just made by the state bacteriologist, who reports finding the bacillus coli in the water, a germ that causes a stomach trouble, from which ailment many local people have been suffering.

Now suppose Eugene should spend thousands of dollars sinking deep wells and we should succeed in securing an ample supply of water, which is not altogether certain; and just as we thought everything was lovely the state germ sleuth should discover bacillus coli or some other dangerous bug, and—well, wouldn't it jar the corporation bunch a little bit, anyway?

THE REAL ISSUES IN BOND ELECTION

Every believer in the rule of the people as opposed to that of private corporations should be active at the polls tomorrow. That is the real issue in the bond election. The people have declared time and again for a certain policy and it has as often been postponed and retarded by the opposition of a small minority who oppose the will of the majority. It will be the supreme test tomorrow. If the bonds carry, the people will be independent and in a position to carry out their wishes regardless of whether the Willamette Valley company refuses to turn over the present plant or not. If they do refuse to consummate the sale, the people will have the means of going ahead and installing a plant independent of them.

Voters should not be misled by the false statements in the corporation's newspaper. They may expect any kind of a misrepresentation of facts at the eleventh hour—remember they are paid to print these things. They even tell you the \$500,000 bond issue is in addition to the \$300,000 issue now pending in the courts, on the question of validity of issue. This is false. If the \$500,000 are voted, the former issue of \$300,000 will be wiped out, and it will no longer be a matter of real interest what decision is rendered by the court.

The truth is that it is estimated that it will cost about \$425,000 to buy the present plant at the agreed price and install the proposed gravity system. It is the intention to actually issue only such a part of the \$500,000 issue, authorized by the voters, as is necessary to buy the present plant and install the gravity supply. This money will be expended under the direction of a water commission, composed of Eugene's best business men, and not by the mayor or councilmen. These are the facts and no intelligent voter should be misled by the falsehoods peddled by the agents or newspapers of the water company.

ATTEMPT TO DECEIVE

In its headlines the Willamette Valley Co's paper says this morning: "The O. A. C. also finds bacteria." This is simply a cheap attempt to deceive the ignorant. Of course there is bacteria in all water, but the samples analyzed by Prof. Fern of

the Agricultural College, is reported as free from them as to come under the head of absolutely pure water. For ways that are dark and tricks that are vain," the Hearthen Childer is not in it with the newspaper that is paid to do the dirty work of the corporation in Eugene.

Residents of the vicinity of Ritchey creek, who have no interest in Eugene's water fight, resent the barefaced slanders heaped upon Ritchey creek and other streams in the same section of the county. They know from personal observation and long use of the water that both quality and quantity have been lied about in a manner that ought to put to blush even the paid agent of the grasping water corporation.

Bank deposits 22,500,000 in Eugene, according to sworn statements filed this week, show a most gratifying condition.

THIS DATE IN HISTORY

- 1770—George Whitfield, one of the founders of the Methodist denomination, died in Newbury, Mass.
1777—Congress assembled in York, Pa., and continued in session there until the following summer.
1787—Ship Columbia sailed from Boston, Mass., and returned three years later, having completed the first trip around the world.

1800—United States and France concluded a treaty settling long standing difficulties between the two countries.
1831—A free trade convention met in Philadelphia.
1833—Matthew S. Quay, U. S. Senator from Pennsylvania, born. Died May 28, 1904.
1867—Negro riots in Savannah.
1882—Steamboat R. E. Lee, which made the fastest time on record between New Orleans and St. Louis, burned below Vicksburg.
1901—Duke and Duchess of Cornwall visited Vancouver, B. C.

THIS IS MY 74TH BIRTHDAY.

Cyrus Northrup, president of the University of Minnesota, and one of the most prominent among American educators, was born September 30, 1834, at Ridgefield, Conn. His education was received at Yale College, from which institution he graduated with high honors in 1857. Subsequently he took a two years' course in the Yale law school. From 1860 to 1862 he was clerk at the senate and house of representatives of Connecticut, which position he resigned to become editor of a New Haven newspaper. His career as an educator began in 1863 in which year he was appointed professor of rhetoric and English literature in Yale College. He remained at Yale until 1884, when he resigned to accept the presidency of the University of Minnesota.

Large shipment of rockers and dining chairs just received. See us for new, up-to-date furniture at right prices.

CHAMBERS HARDWARE CO.

The sting of a bee proved fatal to Mrs. Caroline Hower, aged 55, a pioneer resident of Whitman county, at her home in Spring Flat, five miles south of Colfax, Wash., the other day. Mrs. Hower stepped from the house to bid her children good bye as they were leaving for Colfax. A bee from a nearby hive settled on her hand, stinging her near the base of the thumb. She grew violently ill and her children assisted her to the house, where she died ten minutes later, before medical attention could reach her.
