A Careful Man Protects His Family

By carrying a Life Insurance Policy. This is a wise plan and we have no criticism to offer.

The first necessity for a family however is a **HOME.** If you have gone this long without one, you should not delay another day. **MATERIAL** of all kinds is advancing, but is still reasonable. If you need a home and don't take advantage of this opportune time to build then get the insurance anyway for you surely are a **DEAD ONE.**

OFFICERS ELECTED AT SAN FRANCISCO

(Continued from Page One.)

tum from E. H. Harriman delivered by J. C. Stubbs, his personal director of all Harriman lines, made at this morning's session of the Trans-Mississippi Congress, is one of the most sensational events in the history of that organization.

Harriman's message came like a thunderbolt.

He told the Trans-Mississippi Congress, in effect, that if it did not work to prevent the enactment of legislation which had a tendency to discourage the confidence of the money markets, in railroads as investments, not a mile of track in Harriman territory would be built or improved.

Stubbs compared the great undertakings of the United States government with those of Harriman and predicted regretfully as a notable example that the Panama canal, forty years after its completion, would prove a failure as a financial investment.

President Wheeler Replies

President Benjamin Ide Wheeler, of the University of California, gave credit to the builders of railroads, saying the relation of the people and the railroads was a matter of life and death.

"It is not raiment or ring," he said, "but tissue and blood. Their joint interests are not separable. The prosperity of one is the prosperity of the other."
