ATTORNEY GENERAL BONAPARTE REPLIES TO DANIEL'S LETTER

Washington, Oct. 13.—Attorney General Bonaparte has replied to a second letter from Josephus Daniels, chairman of the press bureau of the Democratic National Committee, in which he complains that in the attorney-general's answer to his first inquiry as to trust prosecutions he had not differentiated between the prosecutions under the Sherman anti-trust law and those under other laws.

Answering the inquiry officially, the attorney-general stated that under the Sherman anti-trust law passed in 1890 there have been 65 proceedings in all, 56 under Republican and one under Democratic administration, 46 since Mr. Roosevelt became President in September, 1901, and 19 during the preceding 11 years.

Among the prosecutions of the Democratic administration, the Attorney-General says, is included resistance to the petition of Eugene V. Debs for a writ of habeas corpus.

It is also asserted that four out of nine proceedings under Democratic rule were against labor organizations and their leaders, and that under Republican rule there have been in all three such proceedings out of 56.

JENKINS LUMBER COMPANY BURNED OUT AT BLAINE.

Bellingham, Wash., Oct. 13.—Fire, started by incendiaries at 10:50 o'clock last night, destroyed the entire plant of H. L. Jenkins Lumber Company at Blaine, Wash., valued at \$500,000 and threatened for several hours to wipe out the entire waterfront of Blaine, carrying with it two other valuable mills, the plants of two canning companies and the city dock.

Through the heroic efforts of the Blaine fire department, assisted by hundreds of volunteers, the flames were confined to the Jenkins plant, which nothing was left but smoldering embers. Nothing was saved except the company's stable, a few books and two pieces of furniture, included in the loss were a sawmill, with a capacity of 100,000 feet of lumber daily; a single mill, capacity 600,000 shingles daily; a planing mill with six planers, eight dry kilns and a two-story office building.

The plant was one of the largest in the world, but had been idle for the past 18 months because of the depression in the lumber market. When running it employed 150 men.

According to a report made public tonight the mill was to have recommenced operations within the next 30 days. It is said that the company carried \$250,000 insurance on the plant.
