FRIDAY, OCTOBER 16, 1908. WAR NOT PROBABLE.

About the only people who are wishing that the Balkan troubles in Europe will cause a general war are those comprising the American gunpowder trust. But from the present outlook nothing of the kind will take place, but on the contrary, everything goes to show that the gentle dove of peace will reign over that section of the world, which now seems turbulent and ready to explode.

OUR SATURDAY EDITION.

The serial story, "Jane Cable," running once a week in the Daily Guard, will be published tomorrow. Hereafter, our serial story will be a feature of Saturday's big edition, which will be made a special number with much matter of interest to all classes of readers in addition to the regular local and telegraphic news report.

We hope to be able to make the Saturday paper of tomorrow of sufficient merit to give an idea of what it will be when we shortly make a number of contemplated improvements.

In the "old" controversy it is our belief that it should be less a thing of the law than one of propriety, advantage and convenience, says the Oregon Tradesman. The rest day is as much a necessity for the merchant as for the day laborer. We have no doubt but that many a man kept his place of business open on Sunday, not because it brought him more money, not because he did not feel the need of rest, but because some law or some society or some other influence has tried to compel him to close.

Valvry, modern political domestic conservatism are drolly combined in the woman suffrage bill introduced in the Philippine assembly recently by Senator Sotto, according to the Boston Pilot. It gives all women over 23 years of age the right to vote, provided they have the written consent of their parents or their husbands.

Great Britain is finding the burden of keeping its feet up to a two-power standard so heavy that it is about to shoulder some of the expense on a future generation. The government, it is stated, is about to negotiate a loan of \$500,000,000 on terms which will not disorganize the annual budget nor cast a heavy burden upon the present generation.

Senor Castro has been almost lost sight of in the row ticked up by the people of the Balkan states and it is safe to assume that the bellicose little upstart is up to some mischief and will be given some wholesome soundings when the nations find time to attend to his case.

When the big squadron of warships reaches the Mediterranean, if the countries bordering that body of water are not tranquil, there may be something doing, especially if the President decides to call a peace congress about that time.

So many troublesome legal questions are being put up to Attorney-General Bonaparte that we don't see how he can do his share of stamping, unless he puts off all the answers until after the election.

Maybe the St. Louis man of 65, who is attending college, is only trying to keep himself in a condition to understand the slang-whanging of

the other student members of his family.

The latest popular song is entitled, "What's the Use of Jumping If You Can't Stay Up?" The writer evidently never experienced the pleasure of jumping on somebody he cordially disliked, remarks an exchange.

Unless a man knows himself to be capable of conducting a high-class correspondence school all by his lonesome, he would better fight shy of writing campaign letters.

Dr. Mary Walker, once widely advertised by her trousers, steps into the limelight to assert that tobacco smoke, not microbes, is the source of most of the tuberculosis.

If Kind Edward wants to bust all the buttons off his vest and to break his galluses, should persuade Rudyard Kipling to write an ode to his poet laureate.

Nick Longworth's strenuous denial of his alleged attempt to promote a Presidential treaty indicates that he got cold feet very early in the game.

Surely the Boston Herald was forging Hearst when it said that Deba was getting the most joy out of this campaign.

ITCHING HUMOR ON LITTLE BOY

His Hands were a Solid Mass, and Disease Spread All Over His Body —In Four Days the Child was Entirely Cured—Mother Strongly

RECOMMENDS CUTICURA SOAP AND OINTMENT

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not so bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores, etc., that I thought I would get them. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I went to the drug store and purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I stripped my little boy and took the Cuticura Soap and lukewarm water and washed him well. Then I dried him with a soft bath towel, and took the Cuticura Ointment and rubbed him thoroughly with it. I did this every evening before I put him to bed and in three or four nights he was entirely cured. You have my permission to publish this because anybody who suffered as my baby did ought to know of the Cuticura Remedies. I will surely and gladly recommend the Cuticura Remedies, for they are a godsend to all suffering with skin diseases. Mrs. Frank Donahue, 208 Fremont St., Kokomo, Ind., Sept. 16, 1907."
