ALMOST A SHOOTING AT SPRINGFIELD

EXCITING TIME OVER RIGHT TO CROSS PROPERTY WITH A PILE DRIVER—PISTOLS WERE DRAWN.

There is reported to have occurred an exciting time in Springfield last Tuesday afternoon in regard to the rightful possession of a certain piece of property. The legal ownership of a portion of South A street seems to be in doubt and it is yet to be determined whether it belongs to the city of Springfield or individual property. At any rate the pile driver crew were refused the privilege of pulling their machine through what is laid off and is supposed to be city property. After the foreman of the crew had obtained permission of the council to cross over the ground and the marshal had been instructed to have the fence removed, the party claiming the ownership flatly refused the right to take down the fence, which he proceeded to do. Just as he was about to complete his burdensome task, the party claiming ownership put in an appearance. As reported to us, a wordy battle followed. Next was the drawing of pistols and we are told had not the better judgment of the marshal and his antagonist, interfered, no doubt some one would have been the target for a fatal shot. And then, how sad. The deed was not done, and but still, no one was hurt. We understand the matter will be settled in the court and the marshal shall be exonerated from all blame as he was obeying the orders of the city council, which is his duty, and which he should be ever willing to do. Mr. Miller will move his family here from Drain and they will become permanent residents of Eugene.

FITCHARD BUYS HOPS AT BETTER THAN 10c

The hop market at Independence seems to be much stronger than any where else. C. I. Fitchard of that place, has bought 60 bales of Walker Bros., of Independence, at better than 10 cents and has this week bought 250 bales from W. W. Percival, of Independence, and 400 bales from R. O. Brady, of Crosswell, at better than ten. Portland buyers and Klaber, Wolf & Netter claim to be paying top market price, but according to the above they are from 2 1/2 to 3 cents under the market. Mr. Fitchard has two more large deals on which he expects a close this week at better than 10c. He says "Anybody who chooses hops should come to Independence and

get the market price. The market on choice hops will go to 15c or better as there are very few choice hops in the country."
