

VILLAGE HOME

Peruna Is Used As An All-Round Reliable Family Medicine.

Thousands of Similar Homes in the World Being Used With the Best Results.

Philadelphia, Pa., Feb. 16, 1902.

Dear Sir: We have Peruna in the house all the time and when we think we need it, we take it. We are about sixty years old and have not called a doctor to our place for some years.

We go out in all kinds of weather and sometimes when we go on a trip we take Peruna along. A preventive is better than a cure. That has been our experience.

I had poor health some years ago and when I found your medicine I hit the right thing. We both thank you for your good medicine.

Sincerely yours,
PHILIP KRATZ.

Witness to Signatures.
I, John Donnelly, Mayor of Doylestown, Pa., have been acquainted with Mr. Philip Kratz for 25 years. I know him to be an honorable and useful citizen. He, in my presence, signed the above statements concerning Peruna, which I have every reason to believe are true in all particulars.

SIGNED: JOHN DONNELLY, Esq.

through a conspiracy with F. A. Krebs and S. A. D. Puter. Puter already having been in jail on account of some of the transactions. A government official has been in the city securing a complete list of Smith's holdings, about 144,000 acres in all.

TRYING TO GET BACK LAND. Puter has commenced to secure the holdings of Smith in Linn County, Oregon, secured the land

INCREASED FACILITIES FOR BIOLOGY DEPT.

Apparatus for Every Phase of Pre-Medical Study Is Installed

The biology department at the University under the direction of Professor A. R. Sweetser has made more extension this year than any other department in the University. Besides two large rooms on the second floor of Deady Hall, it now has the third floor.

A bacteriological laboratory has been established, equipped with an electrically heated incubator for developing cultures. Two new sterilizers have been purchased, and eight microscopes of the latest and most up-to-date pattern obtainable have been purchased.

In the herbarium room several cases have been placed for the purpose of storing the 15,000 plant specimens which were donated to the University last year. A new room has been set aside for the anatomy and physiological laboratory, and several valuable skeletons have been added to the collection in this branch. Considerable new apparatus and supplies have been obtained for the botany, zoology and histology rooms, and an electric elevator connecting the second and third floors has been installed.

Altogether the efficiency of the department has been greatly increased, and Professor Sweetser is well pleased with the new equipment now at his command, as are the pre-medical students.

ASHLAND AND NEWBERG DRYEST TOWNS IN OREGON

J. W. Hobbs, United States Internal revenue agent for Western Oregon, was in Ashland a few days ago, says the Record. In response to inquiries put to him, Mr. Hobbs said that Ashland and Newberg were the driest "dry" towns in Oregon, with Corvallis a close third. Mr. Hobbs admitted that the blind pigs that existed here in former "dry" periods were a thing of the past. This is also the judgment of the city officials, who are not making any noise about the matter, but are seeing to it that the laws are being observed as far as it is within their power to do so.

CORVALLIS BOOSTERS TO RAISE BIG FUND

Corvallis, Oct. 16.—At a rousing boosters' meeting held last night in the Commercial Club rooms, plans for raising a booster fund of \$6000 were discussed. It was the largest meeting of that nature ever held in this town, and will have far-reaching results.

J. H. Hartog, of Eugene, was the principal speaker of the evening, and told of the great work being done by the citizens of Eugene in the up-building of their community.

The need of a booster club to work in conjunction with the Commercial Club is keenly felt, and it is the determination of the local businessmen to keep the ball rolling, now that it is started.

A SIMPLE QUESTION.

Eugene People Are Requested to Honestly Answer This.

Is not the word of a representative citizen of Eugene more convincing than the doubtful utterances of people everywhere else in the Union? Read this:

Charles Beadle, of 333 Eighth St., Eugene, Ore., says:

"I am fully as ready to recommend Doan's Kidney Pills today as I was in 1903, just after using the remedy. As I said in my testimony at that time, I had suffered from kidney complaint nearly always since the war. I never knew when to expect an attack. A cold would bring it on or any over exertion. On several occasions I was helpless. The last severe attack I had was about six months ago, when something like lumbago set in and brought on a heavy bearing down pain as if there was a weight over each kidney. I was bent over and could not straighten up to save me. There was such a weakness in the action of the kidneys that I could not control the action of the secretions, and it caused much annoyance. Having used several remedies with little if any benefit, I finally began taking Doan's Kidney Pills. From the start almost I could feel the benefit. The action of the kidneys and bladder was soon corrected and then the pains and aches disappeared. I was benefited in every way and what I told in my former testimony about the relief I obtained is true in every respect. Three years have now elapsed since I testified in favor of Doan's Kidney Pills and I have been continually free from kidney complaint. I consider them a wonderful remedy and have recommended Doan's Kidney Pills again and again.

FRANK CURTIS DIES AT JUNCTION CITY

Was Prominent Citizen of Northern Lane Town—Other News Notes of Interest

Frank Curtis died at his residence in this city Monday forenoon of heart failure, aged 52 years, 4 months and 3 days. Funeral services were held at the residence Wednesday morning by Rev. E. H. Belknap and the remains were interred in the Goodman cemetery near Monroe. Mr. Curtis had been in poor health for some time past but his ailment was not considered alarming until within the last few days. He died sitting in his chair and it was some little time thereafter when the family discovered that he was dead. Mr. Curtis served the city as marshal some two or three terms and at the time of his death was mail carrier on U. P. D. No. 2, and his many friends along the line who have watched for his coming, rain or shine, will see him no more. His wife died on the 7th day of last March. Seven children are left to mourn the loss of both father and mother, viz: Oris, Mrs. Mary and Justice, George, W. Della, John and Bertha. Mr. Curtis carried a

Policy in the United Artisans for \$1,000.

Jerry Cory returned home Saturday after spending a few weeks at his old home at Laurel, Nebraska. He owns a section of land near that place which brings in a good rental. He reports good times there, but the country is not improving as rapidly as on the coast. While he enjoyed every minute of his visit and has large holdings there, the Nebraska climate is a little too strenuous and he prefers delightful Oregon.

Roberts Cranston have removed from the hotel corner and have also dissolved partnership. Mr. Cranston continuing the business. He is now located in the Johnson building next door to the Corvallis creamery. He expects to get a new stock of goods as soon as he gets things in shape.

Our friend S. S. Snell, is now grandfather and seems considerably elated over the distinction. A son was born to Mr. and Mrs. Seldon Snell at Astoria, on the 12th. "Grandma" Snell is with her son in that city.

Frank Irving is seriously ill at the home of his father-in-law, Wm. T. Irving. He has passed through a stage of typhoid fever and he is still in a very critical condition.—Jane and Bertha. Mr. Curtis carried a
