DEMONSTRATION

TRAIN WILL BE HERE NOV. 10

Portland, Oct. 21.—Arrangements for the Southern Pacific railroad's elaborate "educational special" have been fully completed and the journey will begin the morning of November 4, under the personal supervision of R. B. Miller, general freight agent. The trip planned for the "dairy on wheels" will cover most of the towns in the Willamette valley. On board will be a corps of teachers and members of the faculty of the state agricultural college, who will deliver lectures on the best and proper methods of caring for milk and other dairy products as each stop is reached. This subject alone is considered to be of immense importance for the reason that butter manufacturers have recently claimed that eastern butter makers are enabled to compete with the Oregon product on this market because of the fact that local dairymen do not take proper care of the cream. The train will carry a large number of agricultural exhibits and will be equipped to demonstrate the best methods of packing fruit. Bad weather will not interfere with the arrangements, as coaches will be carried and if necessary they will be thrown open for holding lectures. The itinerary of the train is as follows: Wednesday, November 4—Hillsboro, 9:05-10:50 a. m. Forest Grove, 11:10-12:45 p. m. North Yakima, 2:15-3:45 p. m. Carlton, 4:05-5:40 p. m. ROOSEVELT WRITES ON LABOR QUESTION

Washington, D. C., Oct. 21.—Campaign literature was enriched today by a letter from President Roosevelt addressed to Senator P. C. Knox in which Roosevelt pays his respects to President Gompers of the American Federation of Labor. Speaking at Philadelphia Tuesday Knox took issue with Gompers on the question of organized labor in the present campaign and the president's letter is in support of Knox's view. He says in part: "Mr. Bryan has frankly questioned Mr. Taft during the progress of this campaign to make clear his stand on public matters in which the public are entitled to be enlightened. In turn, with equal frankness, and with equal propriety, Mr. Bryan should be asked to break his long-continued silence and make definite and certain his own position in regard to the matter which concerns not only business men and every decent law-abiding citizen, whether a wage-earner or not, just as much as it concerns Mr. Gompers and that part of organized labor stands with him. There is none of the generalities of vague expression of sympathy for labor. Let Mr. Bryan simply confine himself to the plain-English plank of his own platform and tell us publicly, definitely and clearly whether he accepts or rejects the statement of Mr. Gompers that this plank pledges him to the principles of the bill for which Mr. Gompers stands; and whether, if elected, he will endeavor to have his proposal enacted into law. This is asked honestly in the interest of that large voting public which believes sincerely in the promotion of every legitimate right and interest of labor but which believes also that from the standpoint of the best interest of labor it neither requires or is entitled to more than justice and that the right to destroy business should not be formally recognized in the law of the land."

SENSATIONAL TESTIMONY IN TRIAL OF MORSE

New York, Oct. 21.—Into the testimony at the trial of Charles Morse and his co-defendant Charles Curtis, who are charged before Judge Lough in the criminal branch of the United States court with conspiracy and violation of the National banking laws, was introduced today the name of Miss Kate A. Wilson, secretary to Mr. Morse, and the prosecution produced witnesses who testified to large loans made by the National Bank of North America, a Morse institution, to Miss Wilson, Edwin Moses, a government bank examiner, who has

proved at this hearing that he is a wizard at figures, was the principal witness relative to big loans made to the financier's secretary. Summed up his testimony as follows: "Endless Chain of Loans. "On her bare and unsupported note, Morse would loan Miss Wilson a sum of money. Miss Wilson's note would be cashed by the National Bank of North America, and with the proceeds stock of the American Ice Company would be purchased. Then the ice stock would be used to secure another loan of the bank. With the money thus secured, bank stock would be purchased and the bank stock added in supporting the ice stock pools in which Morse and other financiers were interested. The failure to raise the price of ice above par was what caused the break in the endless chain."

GOOD FOOTBALL GAME PROMISED TOMORROW

There promises to be some playing in the game tomorrow between the High school and the University of Oregon Freshmen that will approach very closely to college football. It is going to be a very hard test for the academic players. The Varsity's Freshmen eleven consists, with the exception of four men, of the second team and three of four from the first team. Yesterday the University of Oregon's second team of practically the Freshmen is said to have given the first team quite a drubbing. This indicates that the High school will get some severe punishment tomorrow or else the school has an unusually strong team.

The Freshmen will be strong in individual work. The High school's only hope lies in fast playing and fine team work.

Minor Game. The High school second team this noon played a game with a team picked from the three grammar schools.

Salem Excursion. The number of students who are planning to accompany the Eugene team when they play Salem on November 7, is getting quite large and quite a number of business men have signified their intention of taking advantage of the reduced rate to the Capital city. A band has been organized and the routers are practicing yells and songs daily.

Having concluded to retire from the lumber business I offer for sale, lease or will exchange in Eugene or Portland income property, my sawmill, sawmill site, booms, lumber sheds, office, planer, dry kilns and all tools connected with the business. Mill located at river bridge in the centre of Eugene city, east and west, and only three blocks from the S. P. R. R.

This is a fine opportunity for some one to go into the lumber business, as there is always a big local demand for all slabwood, sawdust, shavings, cull lumber, as well as the better grades of lumber. Lots are cheap, labor cheap, lumber high.

A good millman can make this property pay for itself in two years, and if he will operate day and night in one year. Greatest opportunity in this part of Oregon for a mill man; best located mill in the state. Capacity, 20,000 feet in ten hours.

When you have this mill you are at the market. Planer and dry kiln—everything needed to make lots of lumber and lots of money. Give this your early attention if interested in a lumber proposition. I am sure you cannot beat it in the state. The quicker you act the surer you are of making your fortune, for this is a chance in a lifetime.
