FOURTH ASSISTANT POSTMASTER ON RURAL NEW ROUTES

Washington, D. C., Dec. 1.—Touching the heart of the agricultural communities in every state of the Union, the annual report of Fourth Assistant Postmaster General P. V. DeGraw, made public today, announces increased usefulness of the rural free delivery service and the unprecedented bringing of the work of the bureau up to date, and recommends rural delivery of packages of 11 pounds maximum at a special postage, and the uniforming of rural carriers. The package provision suggested requires legislation, and is designed to be effective between the distributing postoffice and the patrons of any rural route emanating from such postoffice.

Uniform of Rural Carriers. The rural carriers in the service, of which Mr. DeGraw is the head, daily pass 3,900,000 homes, and he recommends once more the adoption of a uniform. Their high standard of efficiency is attested by the fact that only 165 carriers out of a total number of 39,143 were dismissed for cause during the past year.

Rural delivery is now in operation in 943,087 miles of road, over which carriers are required to travel daily. Of these roads, 35,000 miles are macadam, the remainder being earth, sand or gravel. Since the service was first established, \$70,632,162 has been expended on roads traversed by rural carriers. Road officials and patrons are notified whenever repairs are necessary on rural routes. More work has been done on such public highways and more expenditures made in their improvement than in any previous year in the history of rural delivery, and the official reports received clearly indicate that interest in rural improvement is being generally manifested throughout the country.

The estimate of appropriations necessary for this service for the next fiscal year is \$26,246,000, an increase of \$73,000 over the current appropriation.

During the year 1925 new routes were established, 12 routes discontinued prior thereto were re-established, and 140 routes discontinued, leaving a net increase in number of 1549. During the year 1925 postoffices were discontinued and the patrons rendered service by rural carriers.

NO MORE DEPOT PEDDLERS AT ALBANY

The sandwich and fruit merchants at the depot closed their business career as such last night. Some ominous signs did it, says the Albany Democrat. The S. P. Company ordered them off its property as salesmen. The boys have been at it for a number of years, doing a good business. Some of the boys saving up \$100 or \$200. Norval and Durrell Parker are said to have good bank accounts. Boys at the trains are a great convenience to people traveling, who wish to escape from the infamous graft system of the Pullman diners, and travelers appreciate their presence with their tables, within the reach of all in price. But there is a new regime and condition of affairs with the changing of the location of the depot, and perhaps this, with the rest was inevitable.

No Guesswork

If men who doubt the value of Nervita Tablets could only look over our order files and read the letters we receive from those who know their value, no man who is weak and nervous would hesitate a moment, but begin at once to regain his strength with Nervita.

Gentlemen—Some six years ago I bought two boxes of Nervita Tablets in Richmond, Ind., and at the time I certainly did not know their value. I tried to get them here, but could not get any more. I want to tell you that I never took any medicine in my life that did me so much good. I would like to get six boxes for a friend of mine.
Jan. 16, 1926. Yours truly, Max H. Kellerman, Cal.
