Nyser got his turnip decorated by a string of blue. Phetyplice and Davis contested for first on corn, the latter, however, went happily home displaying a red ribbon pinned to his ears. Mrs. Ketchum, who has had fifty years' experience in baking bread—just celebrated her golden wedding—had the laurel bestowed upon her lovely loaf, made from the Snow Ball flour, grown and gristed right here, by the way. Mrs. W. F. Cline, with her beautiful jelly got the bit of blue ribbon—butter yet the judges could find no butter better than that from the cow that eat the corn that was fed to it by the Granger maid that lives in the county of Lane. The butter got the ribbon.

Various minor prizes were also awarded that are not included in this list.

"Why is it, Mrs. Jones, my coffee is always bitter?" Buy better coffee; get Folger's Golden Gate whole roast; don't grind too fine or boll too long.

BROWN LUMBER COMPANY'S MILL HAS STARTED UP

Big Plant At Cottage Grove Now Cutting Lumber After Year's Idleness

After more than one year's idleness the big sawmill of the Brown Lumber Co. was started up on full time in Cottage Grove Wednesday morning with a force of forty-five men, which force will be increased as the mill increases its output. Since closing down in August of last year, this mill plant has been completely overhauled and improved, much new modern machinery having been installed, including a new re-saw, edger, cut-off, live rollers and other less important machinery, giving the mill a daily capacity of 80,000 feet of lumber.

The mill pond which was recently cleaned out and enlarged is piled full of logs but was not yet filled with water. It is being filled as fast as the supply will admit. This inconvenience forces the use of a donkey engine temporarily with which logs are dragged to the chute, but as soon as the pond is filled with water the donkey may be dispensed with. A fine grade of milling timber is being logged at Rocky Point and Diston, on Row river for this mill and is being delivered daily over the branch railroad, the O. & S. E. to the mill.

At present the mill is running on a big order for the Southern California oil fields, including the big walking beams used in the old wells. We are informed by Superintendent White that there are orders ahead to keep the mill running steadily providing cars can be had to make the deliveries.—Cottage Grove Leader.

the people have learned of its good qualities, while City View Park has just been put upon the market and but few persons have as yet learned of its attraction. Our building restrictions absolutely prevent your investment from cheap and shabby surroundings and thus guarantee rapid increase in value. The outlook is the best afforded by any suburban property anywhere between Portland and San Francisco. With the opening of West 11th street, City View Park will be within six minutes ride from the First National Bank. City View Park is just as near the business center of Eugene as is Hendricks Park, where unimproved land sells at \$500 to \$1500 per acre. It is my business to tell you of these facts. It is your business to investigate and learn these truths before you buy.
