

## MASTER OF NEW YORK SHOT

New York, Nov. 9.—Postmaster Edward W. Morgan was shot on the street as he was leaving his home accompanied by his young daughter this morning. The shooting was done by Rick H. B. Mackey, stenographer in a law office, who shot himself twice, dying instantly. He is believed to be insane.

Some time ago he complained to the postoffice authorities in New York that some one had tampered with his mail, and that the electric light was turned out in the corridor of the postoffice while he was reading it. The authorities could find no evidence of tampering.

### ONCE IN ASYLUM

New York, Nov. 9.—Eric H. B. Mackey, who shot Postmaster Edward W. Morgan in New York, is the son of H. W. B. Mackey, of Cambridge, Mass., who is engaged in literary work. Mackey formerly lived in New York and was employed in a rubber factory. About six months ago he was employed for a fancied grievance, but was found insane. He was committed to the Worcester asylum, from which he escaped in 1904.

## TOBACCO TRUST STOCK SLUMPS AND OTHER STOCKS ARE AFFECTED

New York, Nov. 9.—The sensational break of 32 points in the price of common stock of the American Tobacco Company on the curb today resulted in a sharp reaction of prices leading to active stocks during the first hour's bidding on the New York stock exchange. The last price of Tobacco common Saturday was 375, and the high price last week 390. Today it sold down to 343.

Preferred fell 3 1/8, the drop following a decision of court last week declaring the company a trust, which flooded the market with selling orders.

The majority of the leading active stocks sold at 1 1/2 below Saturday's prices during the first hour today. A vigorous rally in the second hour established handsome net gains for those stocks over Saturday's closing.

Missouri Pacific was conspicuous by a raise of 2 3/4. Later the stock market showed a subsidence of the acute apprehension manifested earlier over the scope of the American Tobacco decision.

## PROSPERITY IS RETURNING SAYS NEWSPAPER

New York World Asserts That One Million Men Will Go to Work

New York, Nov. 7.—The World tomorrow morning will print an exhaustive review of the revival of industry following the election, showing that 1,000,000 men are marching briskly forward to reopened factories, busy whirling looms and spindles and to railroads and other branches.

From every section of the United States the wheels of shops and factories are shrieking a rousing welcome to battalions of employees who are responding promptly to the call for more help to man the plants which have been entirely closed or practically out of commission pending the result of the national election.

Huge Demand for Labor. In each quarter of the nation smoke pours from the chimneys of establishments which have been working reduced forces of men at half time. Rush orders for additional equipment have poured into the offices of machinery builders in volume and sufficient to swamp them and creating at once a tremendous demand for additional employees.

All along the line word has been passed that prosperity has arrived simultaneously with the election of William H. Taft, and, like a giant, business and manufacturing interests have roused from lethargy and, shaking off the shackles of uncertainty and distrust of radical changes in economic conditions, have ordered fires rekindled and forces doubled.

Every barometer of trade has changed utterly within a week. The first news from the polls sent the glass to the "fair weather" mark and within a week business conditions from coast to coast have become wonderfully settled.

Unprecedented Prosperity. From financial headquarters the signal has been flashed to business firms to hurry the building of de-

manufacturing conditions here as compared with foreign countries. Information regarding which has been obtained through the departments of state and commerce and labor. As Taft, Cannon and a majority of the ways and means committee favor a protective policy in framing the new tariff it is hardly likely that the free list will be materially increased or that any essential reductions will be made in the tariff on manufactured goods.

layed railroad lines. Contracts involving expenditures of huge sums for equipment and labor and which contained clauses conditioned upon the election result, have been put into effect by telegraph. In many manufacturing centers of the East and West, and in the South, the full strength of the labor army is practically called into action.

There is not an industrial captain but has signalled the magic slogan, "Get Busy!" From all parts of the country come details of a revival of industries and business.  
The World then follows with nine columns of dispatches from all industrial centers in all parts of the United States, showing unusual activity, and quotes bankers and business men as predicting the greatest spasm of prosperity the country has experienced for years. The trend of all the interviews is that the country feels firm ground under its feet, with no obstacles in the way of progress.

## Lots of Men, in Buying Clothes are,

not half particular enough about quality; they'll buy almost anything that looks stylish and fits if the price is low.

It's the wrong way to buy clothes. We hope you don't buy yours that way. The right way is to be sure first of the quality you are getting. Is it all wool? Is it well tailored? A price means nothing unless you know what you are getting for it.

In this store we want you to know what you are getting for your money; we're not afraid to tell you, either. Ask if the goods are all wool; ask if they are tailored right; ask about style; wear; try the clothes on.

But if you see the Hart, Shaffner & Marx label in the clothes, just consider it an answer to your question; all wool; clean, honest tailoring; correct style; wear; price will be right.
