ONE HUNDRED INJURED IN STUDENTS BITTER RACE RIOT IN VIENNA

Vienna, Nov. 10.—An encounter between two warring factions of students at the University of Vienna today resulted in the injury of about one hundred of the young men. The cause of the conflict was the smouldering antagonism between the Pan-German and Jewish students. The bitter feeling culminated in today's sanguine encounter. During the trouble the balcony of the university collapsed, precipitating many combatants to the floor. The Hebrew students turned up at the University early today, determined to keep out the Pan-Germans. A serious fight followed their appearance.

Most of the injuries were slight. Among them were a few broken limbs and collar bones. Race feeling is growing throughout the city.

CASA BLANCA INCIDENT WAS CLOSED TODAY

Paris, Nov. 10.—The foreign office has been advised from Berlin that the agreement over the Casa Blanca incident was signed today. Consequently it is considered here to be a matter to be sent to The Hague for arbitration. While there is no disposition to crow over the French victory, great satisfaction is felt that Germany recognized the justice of the French contention.

UNIVERSITY MAY HOLD COMMONWEALTH DAY

New Plan to Bring College Nearer the People Is Suggested

In order to inform the legislators, the editors and the influential men of the state what the University is doing, Prof. F. G. Young, head of the department of economics, has announced that the faculty is considering holding a Commonwealth day at the most appropriate time in each year. The idea is new, not any institution in the United States having such a precedent. Two days might be turned over to the celebration, which would be held on the campus. Not only would the University needs and work be presented to the assembly and the people, but other good speeches would be made dealing with state problems. The fundamental principle beneath the plan is to bring the University and its work nearer the people. It is not intended to have the meeting just before the legislature meets, but at some time when there is no political stir, and men are in calm minds. Therefore it has been suggested that sometime in June, when the University appears its best, be chosen.

Washington, Nov. 10.—It was stated at the department of justice today that in view of the large amount of money involved, the important questions of law and peculiar interest in the case, that the government would not rest on the decision of the circuit court of appeals in the Standard Oil case, but that the case would be taken to the supreme court of appeals in the United States at the earliest possible date. This will be done by an application to court for writ certiorari. Application to the court for writ will be submitted Nov. 30.

MRS. ALLEN REED IDENTIFIED AS BLACKMAILER

Prisoner Tries to Suicide—She Is Thought to Be Insane

Denver, Nov. 10.—A woman who attempted to kill herself and Miss Helen Phipps, daughter of Mrs. Genevieve Chandler Phipps, and two policemen, after failing to extort \$20,000 from Mrs. Phipps, was identified today as Mrs. Allen Reed, wife of a druggist in this city. Mrs. Reed returned recently from Springfield, Mass., whither she had gone to attend the funeral of her father, whose name has not yet been learned.

She is believed to be insane. When she discovered that the plan to have Mrs. Phipps turn over \$20,000 at the bank failed she threw two sticks of dynamite, which struck the cushion seats of the automobile but failed to explode.

In the temporary absence of Chief of Police Hamilton, who had been investigating her testimony, Mrs. Reed attempted to swallow fifty morphine tablets, but one of the attendants struck her hand from her mouth, scattering the tablets on the floor.

Mrs. Reed is highly respected. Her husband was at Buffalo Park, Colo., where their summer home is located, while the woman was engaged in her efforts to extort the money from Mrs. Phipps.

present their most lively appearance in the winter time. There is every indication for a real boom in evidence. The Mayflower Company has a large crew of men installing machinery under Superintendent Fastabend. The West Coast Mines Company will soon start their mine; the Golden Slipper Company have a contract for tunnel work; the Combination mine under the management of Sherman Clark are doing good work and hope to get their plant at work as a fine body of ore is now blocked out.

The Riversdale, Oregon, Colorado and Virginia mines will work all winter. The Golden Rule Company is preparing for winter work and the North Fairview Co., headed by Herbert Leigh, will continue mining throughout the winter. Many other properties are getting in supplies and a general good feeling prevails.

The camp is reached by two routes—one by Row River to Cresco, where S. D. Regan is postmaster; the other by Sharp's creek to Bohemia post office, where F. J. Hard is postmaster and has a general supply store.

It looks as though Lane County is really going to have a genuine mining movement.

Lots of Men, in Buying Clothes are,

not half particular enough about quality; they'll buy almost anything that looks stylish and fits if the price is low. It's the wrong way to buy clothes. We hope you don't buy yours that way. The right way is to be sure first of the quality you are getting. Is it all wool? Is it well tailored? A price means nothing unless you know what you are getting for it. In this store we want you to know what you are getting for your money; we're not afraid to tell you, either. Ask if the goods are all wool; ask if they are tailored right; ask about style; wear; try the clothes on. But if you see the Hart, Shaffner & Marx label in the clothes, just consider it an answer to your question; all wool; clean, honest tailoring; correct style; wear; price will be right.
