

# S.S.S. REMOVES THE CAUSE OF CATARRH

No remedy that does not entirely remove the cause of Catarrh from the blood will ever make a permanent cure of the trouble. Just as long as the circulation remains contaminated with the impurities and catarrhal matters which produce the trouble, the mucous membranes or inner linings of the body will be kept in a state of irritation and disease. Sprays, lotions and other local applications will sometimes temporarily relieve the tight, full feeling in the head, buzzing noises in the ears, uncomfortable, stuffy feeling of the nostrils, and help to loosen the mucus in the throat; but Catarrh is a constitutional blood disorder and until it has been entirely driven from the system there can be no permanent cure. S. S. S. cures Catarrh by removing the cause from the blood. It attacks the disease at its head and by thoroughly purifying and cleansing the circulation, and ridding it of every particle of impurity, and at the same time enriching the blood, allows the inflamed and irritated membranes to heal, improves the general health, and stops every disagreeable symptom. S. S. S. reaches down to the very bottom and leaves no trace of the disease in the system. Book on Catarrh and any medical advice free to all who write.

Rolled barley—Per ton, \$31  
Chopped feed—Per ton, \$30.  
Cracked corn—Not in market.

### PORTLAND MARKET REPORT

Portland, Nov. 12.—The strength of the demand for American hops in England, actual or prospective, is shown by the fact that buyers for export account in this state now appear willing to take not only everything in sight that will grade as choice, but primes and mediums as well. Dealers who have foreign orders to fill have been industriously operating in different parts of the valley for several days, buying whatever choice hops were to be had at top quotations, the E. C. Horst Company being the most aggressive operator in the field, and the result of the activity of this company and that of others has been a decided stiffening of the market all around. Medium grade hops, from which dealers to date have held more or less aloof, are now sought, and prices offered on all the grades show an upward trend. Reports current in the city today, but not confirmed, are that the Horst Company yesterday took over several large lots of mediums from dealers, at prices ranging from 6 to 7 cents, and had offered slightly better than 8 1/2 cents for choice goods in the Independence district. Offers of 8 1/2 cents for fine hops are not at all unusual now. "There is no doubt now that England is in the market for American hops," said a dealer today, "but I do not look for anything like a runaway market in that direction. The chances are that the English demand will be steady and strong, and sufficient in the end to make all the good hops available in this state. The Oregon growers who have choice hops to sell are more bullish than ever, and there is no denying that the market prospects look good for them. Already dealers have shown a disposition to take hops other than choice for export, for it is well known that the Oregon product as a whole this year is considerably higher than that of England in quality, and it is quite likely that England will take what she can get—choice hops if possible, and if not other grades—and pay the price." The prospect for hops in this state in 1909 is already engaging the attention of dealers and growers, and the belief seems to be general that the hard experience of a good many of the growers the past few years will not result in any material curtailment of the product next year. More Eastern Eggs Arrive The Pearson-Page Company today announced the receipt of a straight car of Eastern eggs and quoted prices of 32 1/2 to 35 cents a dozen on the goods. Local eggs continue scarce, with strictly fresh offerings quoted at 27 1/2 cents, but a good deal of complaint is heard on the street regarding the quality of offerings from the country. This is the season of minimum production, and the eggs have often to be held too long in making shipments from the country. Further large shipments from the East are expected. Price of Butter Advanced Some of the city creameries today lifted the price of their standard make to 36 cents a pound, while others that have been selling for 35 cents a pound for some time made no changes in their quotations. In the country creamery market there are no developments, the trade being for the time being none too active because of the competition of Eastern butter, which comprises a large part of the supply in the market now. The best grades of the imported article are quoted at 32 to 34 cents. Poultry Generally Unchanged Poultry generally moved at yesterday's prices, but the market was far from being active and stocks were sufficient for the demand. Ducks, geese and turkeys continue weak, and there is small likelihood of any improvement this week. Dressed Meats Are Steady Country dressed meats held their own today, with the best veal selling at 8 1/2 cents, pork at 7 1/2 cents, and mutton at 7 cents. Inferior stuff in all lines was quoted at 2 to 3 cents lower than these figures, and generally slow. Cash Wheat Is Advanced a Cent An advance of 1 cent a bushel is noted in the local cash wheat market today. Exporters are again in the market and millers, too, are buying. As high as 90c has been paid for club during the past 24 hours. There is a firmer tone in cash barley, and some buyers are today asking an advance of 50 cents a ton. Practically no 1 feed barley is being offered under \$26.50 a ton, track, Portland. There is a very quiet tone in the cash oats market and prices are nominally unchanged. The slashing of Oriental freight rates on the sound has caused more interest to be displayed in export

flour trade. A number of inquiries were received this morning, and should the rates get to a very low figure the trade expects a fair resumption of flour sales to both Japan and China.

Portland Livestock Market. Portland Union Stockyards, Nov. 10.—The run of cattle is falling off again. Cattlemen evidently come to the conclusion that it would pay them better to keep their supplies off the market when they are not wanted and ship them when a demand appears. The trouble with the cattle market of late has been the fact that shippers sent in supplies when they were not needed and on this account prices were dragged lower than would have been the case if shippers had not compelled killers to take the offerings. Sheep Scarcity Is Pronounced No arrivals of sheep have been noted in the Portland yards since last Thursday. The market is therefore very dull. The wants of the large killers are still being supplied out of their own surplus purchases made some weeks ago on the range and until these supplies are exhausted there will be little call for sheep from the big ones. Hog arrivals have fallen back into their ordinary rut and this has been a slight help to the market. During the past 24 hours a sale was made as high as \$10, but the general transactions are not over \$6. Following is the general range of values on stock running in the yards for late shipments: Hogs—Best, east of mountains, \$6 @ \$8.10; ordinary, \$5.75; bickers and China fats, \$5 @ \$5.50; stockers and feeders, \$4.75 @ \$5.00. Cattle—Set east of mountains, steers, \$4; medium steers, \$3.75; best cows, \$3.00; medium cows, \$2.50 @ \$2.75; stags, \$2.50 @ \$3.00; bulls, \$1.75 @ \$2.00. Sheep—Best wethers, \$3.50; ordinary wethers, \$3.25; lambs, \$3.90 @ \$4.00; straight ewes, \$3.00; mixed lots, \$2.50 @ \$2.75. Veal—Choice young calves, \$4.50; heavy and rough, \$3.50 @ \$4.00.
