

# A Clean Man

Outside cleanliness is less than half the battle. A man may scrub himself a dozen times a day, and still be unclean. Good health means cleanliness not only outside, but inside. It means a clean stomach, clean bowels, clean blood, a clean liver, and new, clean, healthy tissues. The man who is clean in this way will look it and act it. He will work with energy and think clean, clear, healthy thoughts.

## Dr. Pierce's Golden Medical Discovery

prevents these diseases. It makes a man's insides clean and healthy. It cleans the digestive organs, makes pure, clean blood, and cleans, healthy flesh.

It restores tone to the nervous system, and cures nervous exhaustion and prostration. It contains no alcohol or habit-forming drugs. Constipation is the most unclean uncleanliness. Dr. Pierce's Pleasant Pellets cure it. They never gripe. Easy to take as candy.

### TRACT BOUGHT FOR O. N. G. RIFLE RANGE

Roseburg, Or., Nov. 17.—Acting as an agent of the Federal Government, Adjutant-General W. E. Finzer, of the Oregon National Guard, yesterday purchased a 27-acre tract of land, one mile northeast of the city, for a target range. The price paid was \$1750. Although the title to the land is vested in the United States, the range will be under state control and used exclusively by the state militia. It will become the largest range in the state, affording opportunity for marksmanship tests at 1200 yards.

**PILES CURED IN 6 TO 14 DAYS**  
PAZO OINTMENT is guaranteed to cure any case of itching, blind, protruding or bleeding piles in 6 to 14 days or money refunded. 50c

One of these days you will wake up and kick yourself because you did not invest in Eugene real estate. Before prices take a great spurt, come to our office and look over our list.

### MISS PETTY MAY KEEP CHILDREN

Miss May Petty, matron of the Atwood maternity hospital at Tremont station until a few days ago, will be allowed to retain control of her adopted girls, 2 and 3 years of age, provided she does not renew her connection with the Atwood institution. This was the verdict of the jury of six that heard testimony in the juvenile court yesterday in the proceeding brought to take the children away from her.

A large number of witnesses testified that Miss Petty has taken good care of the children. It developed that she has resigned as matron of the hospital, where, it is alleged, the little girls were permitted to witness operations, and she also stated that she is about to be married.

Dr. C. H. Atwood took the stand during the afternoon and denied that he had performed criminal operations at the Tremont station hospital. Numerous nurses and employees who have worked for him at times testified to the same effect. This was to refute testimony offered by the state earlier in the day as to the character of the institution.—Journal.

# NOTORIOUS BATONYI DIVORCE SUIT CALLED

New York, Nov. 18.—Society is looking forward to some spicy revelations in the trial of the divorce suit brought by Mrs. Frances Work-Burke-Roche, Batonyi against her husband Aurel Batonyi, the Austrian coach driver whom she married shortly after her divorce from Burke-Roche, her English husband. The case was called for trial today in open court. At the same time Batonyi's counter-suit, in which he makes various charges against his wife, will be tried.

It was about two years ago that society throughout the East was startled to learn that Mrs. Burke-Roche, one of the handsomest women in the "Four Hundred," noted horsewoman, whip and breeder of prize toy bull terriers, had been for almost a year the wife of Batonyi, the famous professional whip. The marriage took place August 9, 1905, at the Hotel Empire in this city, but it was not until a year later that it was publicly announced. Then the couple went to Europe for a while and upon their return took up their residence at Newport.

Prior to her marriage to Batonyi Mrs. Roche, as she preferred to be called, had figured considerably in the newspapers. She was conspicuous in society on account of her wealth, beauty and love of sport. As Miss Frances Work she was a great belle in this city, and when she went abroad in 1889, she met the Hon. James Boothby Burke-Roche, brother of the present Baron Fermoy, and next in line of succession. They were married but the marriage proved an unhappy one, and in 1890 Mrs. Roche obtained a divorce in Delaware, with the custody of her three children. Her daughter, Miss Cynthia Roche, a great belle and one of the most attractive young women in society here and in Newport, married in 1906 Arthur Scott Burden, youngest son of Mr. and Mrs. James A. Burden. The wedding, attended by all society, was one of the most brilliant held in New York in recent years.

When she divorced her husband her father, a millionaire horseman,

noted for his eccentricities, made her an allowance. Her habit of exceeding her allowance caused frequent quarrels and estrangements with her father. She announced at one time that she could not possibly live on less than \$375 a day, and Mr. Work, wealthy though he was, could not see his way clear to allow her that amount. It was Mrs. Roche's love for all kinds of out-door sports that led to her acquaintance with Batonyi. The handsome Hungarian had been a professional whip and instructor of driving to the "Four Hundred" for years. He became Mrs. Roche's teacher and their courtship was carried on in the box of the coach "Good Times," while one of them handled the lines and the whip and the other occupied the box seat. Batonyi made love as well as he drove, and he taught Mrs. Roche the latter accomplishment, at least, so thoroughly that she soon became noted as an amateur whip, driving her four-in-hand about Newport and vicinity.

The trouble between bride and bridegroom, however, began almost as soon as their marriage became known. The union was very distasteful to Mrs. Roche's father and he did not seek to hide his sentiments in the matter. He promptly announced that his daughter's allowance was cut off and intimated that the couple would find it rather hard sledding to get along without his help. Subsequent developments proved that his prophecy was correct. Mr. and Mrs. Batonyi lived quietly enough for a time on a small place near Newport owned by Mrs. Batonyi. Mr. Work did not relent in his attitude and the couple soon found themselves short of funds. Through the intercession of her brothers a reconciliation was effected between Mr. Work and his daughter on the ground that the latter leave her husband. She did so and brought the present suit for divorce on the ground of non-support and other charges. Batonyi retaliated by bringing a counter suit and well-known Newporters into the scandal. He also brought suit against his wife's father and brothers for alienation.

### GEORGE GROSS AND WIFE HOME AFTER LONG TRIP

Left Eugene September 20 and Made Tour of Eastern and Southwestern States

Geo. G. Gross and wife returned to Eugene last evening after an extended visit to the East and Southwest. Leaving here September 20, Mr. and Mrs. Gross first went to Minneapolis, where they stayed a short time, going from there to Anoka, Minn. From the Minnesota country they went to Chicago, where they stayed one week. Leaving the Illinois metropolis they went to La Platte, Mo., Mr. Gross' old home, where they sojourned some time. From there they went to Kansas City, and from there to Leon, Kansas, and also visited other towns in the sunflower state. Texas was their next object. Old Mexico proved attractive to them and they spent some time there. Arizona was the place they visited next and from there they struck for California, visiting several towns in the golden state. Mr. Gross was in Frisco the day Heney was shot. On that day he visited the court room where the trial of Abe Ruef was in progress, listening to the proceedings about three hours. He and his wife left the city about three hours before Heney was shot. Mr. Gross states that the towns and country throughout the Sacramento valley were burned up; that no rain has fallen there since last February, and that the flowing wells were going dry. He says it seems good to get back where it rains. Both he and his wife greatly enjoyed their trip of eight weeks and never felt better in their lives.

### LANE COUNTY EXHIBIT NOT BROUGHT BACK

Eugene, Nov. 18th. Editor Guard:—The Register of yesterday morning said that the grain and grasses Lane county had at the Oregon state fair, 1908, were returned. This must be a mistake. It also said I was in charge of it. I guess it was a car of fruit trees just arrived which the reporter took for the exhibit. Please correct the same. Our exhibit is at Seattle, to be displayed at the big fair there next year. E. M. WARREN.

Wood-savers and even bakers—this has made the Superior range famous. Chambers Hardware Co.

### YOUR LAWN IS HUNGRY

**NOW IS THE TIME TO FEED IT**  
Next Spring it will Gladden your Heart  
HOLLIES AND BONES ALSO RESPOND TO PROPER FERTILIZATION AT THIS SEASON  
No need to litter with Stable Refuse  
THIS is the time of year to apply bone meal. It takes several months for it to dissolve in the soil, so the nutrient goes into your grass next Spring, when needed. If you apply the bone meal NOW. No other fertilizer is quite so cheap and clean. No weeds in it. Just the thing, applied right now, for roses, holly trees and other shrubs. To meet the Fall demand for this effective fertilizer we have on hand an immense stock. Prices astonishingly low. We furnish complete information as to how to get best results for turf and shrubs.

## SPORTING NEWS

Now comes the big game—New Haven.

The New York Americans will have at least 21 players to dispose of.

It is said that Manager McAleer, of the St. Louis Browns, will trade George Stone.

The Chicago White Sox have drafted First Baseman Tennant, of the Decatur Three-I League.

Glaze and Chadbourne, of the Boston Americans, have been sold to the Indianapolis Club.

And now they say that Hans Wagner never would have been the player that he is had he not those bow legs.

A boxing carnival is being arranged to take place in Savannah during the week of the big automobile races.

Coach Glenn Warner, of Carlisle, is being boosted for coach of the University of Pennsylvania squad of 1909.

Tom Shevlin, the former Yale warrior, says that the University of Chicago has the best football team in the West.

It is said that if Captain Burr, of Harvard, plays in the game with Yale it will be against the advice of Harvard's medical supervisor.

Fred Merkle, of the New York Giants, says he lost 20 pounds in two days after making that celebrated fat-head fizzle.

Manager Charlie Babb, of the Mem-

phis team, has a promising bunch of players from which to pick his '09 outfit. *Aus Chatus* can nick some, too.

Christy Matthewson's speech-making through New York state made about as many votes for William J. Bryan as his pitching won games from the Chicago Cubs.

Members of the Armory A. A. of Boston declare Young Loughery, of Philadelphia, the greatest fighting machine seen at the armory in many a day.

Peter Maher's brother Jim proved to be a "falsotto" at Philadelphia recently. He lasted nearly half a round against Al Kubick.

Harry and Willie Lewis in a neat bout at New Haven on December 14. If Lewis wins Lewis loses, and if Lewis loses Lewis wins. All a better has to do is to bet on Lewis.

After fifteen years in the major leagues Catcher Jack Warner has retired to take charge of the Galveston ball team.

Former Captain Hogan, of Yale, thinks well of Fish, Browne and Corbett, of the Harvard football team. Jim says these three play football that is football.

If Johnny Hayes and Durando, the Italian runner, come together in Madison Square Garden next week, as scheduled, the event probably will be attended by one of the largest crowds that ever witnessed a sporting event in the metropolis.

### TWENTY-FIVE YEARS OF STANDARD TIME

Washington, Nov. 18.—Twenty-five years ago today took place that world-wide revolution in measuring time—the adoption of the standard method in the United States, whose example was later followed by other civilized countries. Previous to November 18, 1883, the methods of measuring time in this country were so varied and so numerous as to be ludicrous. There were fifty standards used in the United States from coast to coast, and on one road between New York and Boston, whose actual difference is twelve minutes, there were three distinct standards of time.

Even small towns had two different standards, one known as "town," or local time, and the other "railroad" time. Naturally this condition of affairs caused endless complications, and railroad officials were hurried to the point of despair in their efforts to make out time tables that could be understood by the lay public.

There were many minds which wrestled with the problem. As early as 1869 Professor Charles F. Dowd, of Saratoga, N. Y., worked out a theory by which it was proposed that time should be regulated by meridians one hour apart. Sir Stanford J. Peck presented a plan based on the 24 o'clock notation. The plan which was finally adopted and brought into practice was worked out by W. F. Allen, of New York, secretary and treasurer of the American Railway Association.

At noon on November 18, 1883,

there was a general re-setting of watches and clocks all over the United States and Canada, and the four great time zones, one hour apart, into which the continent is divided, came into being. So smoothly did Mr. Allen's plan work from the beginning that the general readjustment was accomplished without difficulty, and it has worked satisfactorily ever since. Other countries were quick to take notice of the convenience of the new arrangement, and the majority of them have adopted the same system.

### COTTAGE GROVE NOTES

The Misses Ethel Moore and Gertrude Palmer were Eugene visitors last Saturday, in attendance at the big football game.

Miss Sophie Osberg went to Creswell yesterday morning, where she will visit with Miss Etna Hallerman for a few days. From there she will go to her home at Oregon City. She will be accompanied by Miss Mabel Coffman, of this city, who will visit with her for a short time.

Contractor Craig had his hand badly lacerated last Saturday while shoeing a horse. A kick from the animal jammed his hand into a horse shoe which he was removing, and two of his fingers were torn so as to require medical attention.

# S.S.S. HEAL OLD SORE

Before any sore can heal, the cause which produces it must be removed. As long as the blood, from which our systems receive their nourishment and strength, remains impure and contaminated, no old sore on the body will remain open, and no new sore will heal it. The nerves and tissues of the flesh around the sore are all fed with unhealthy matter and nature is simply expending its energy by draining it from the system through the sore. The only way a sore is a thorough cleansing of the blood, entirely purifying the circulation. It goes down to the very bottom of the system, completely cleanses the circulation that there is no longer any impure blood. S. S. S. heals the sore from the bottom, the skin with healthy, firm flesh, the tenderness leaves, the pores open, the skin regains its natural color and when S. S. S. has done its work, the purified blood the place is permanently healed. S. S. S. cures Ulcers and any medical advice free to all who write. THE SWIFT SPECIFIC CO.

## Black Motor Vehicle A Practical Car for Business or Pleasure

Inexpensive, cost less than half as much as the ordinary automobile, low speed 2 to 6 miles an hour; high speed 6 to 26 miles an hour.
