MEMBER OF ASSOCIATED PRESS
 Entered at Eugene, Oregon, postoffice as second-class matter
 FRIDAY, NOVEMBER 20, 1908

No man ever sank under the burden of the day. It is when tomorrow's burden is added to the burden of today that the weight is more than a man can bear.
 GEO. MACDONALD.

It certainly will do the state of Oregon no good and will not assist in the betterment of public and private morals for a leading newspaper of the state, like the Oregonian, to openly advise public officials to violate pledges signed voluntarily and filed with the records of the state. The Oregonian had a perfect right to urge these men not to sign the pledges in question, but since they have done so its only honorable course as a newspaper would be to insist that they now be carried out to the letter. Broken pledges are too common among office holders to be in any manner advocated, or even condoned, by the press, which should seek to elevate the standard of political morals.

Reports of a great decrease in the death rate among babies this year come from New York city; yet it has been a trying summer. The lives saved are the fruits of the Tenement House Commission, the City Health Department and the warfare of the Merchants' Association committee against the house fly. We are learning slowly that the protection of life, which the government regards as its business, means protection against the numerous armies of germs that live in the predeceous empire of dirt.

The great railroad news, printed a couple of days ago in The Guard, is confirmed in the following item from the Klamath Falls Herald: "Work was commenced this afternoon by a party of S. P. surveyors under Engineer Rankin and Field Chief E. E. Avery on the permanent location of the survey for the extension of the railroad from Klamath Falls to Natron, near Eugene. Work is to continue all winter and Engineer Rankin has established his headquarters here."

The clubwomen of Texas are making an indignant protest because women prisoners have recently been set to work on the rock pile at Fort Worth. They say that since women are not allowed to have an equal voice with men in making the laws which they are forced to obey or to act as jurors, they should not receive the punishment meted out to men for the same crime.

Wall street indications are that the high financiers have decided that the lambs are in proper condition for another wholesale shearing. Their notion of prosperity is now, as it has always been, jag-handled.

Maybe the New York legislature will send us big-brained a man as Elihu Root to the United States senate, but it has been a long time since it did such a commendable thing.

Still, it is difficult to convince the man who has just failed in several frantic efforts to make a quick "touch" that confidence has been completely restored.

Where gun-toters are numerous there street shoot-ups are bound to be pulled off once in every so often. The remedy is obvious, even if not applied.

Nick Longworth was re-elected to congress all right, but he has learned his lesson and "ain't sayin' a word."

WILL PLANT AN ORCHARD INSTEAD OF BUILDING MILL

The Guard yesterday stated upon reliable authority that the Palmer Company intended going ahead with its sawmill enterprise on the tract of land purchased two years ago two miles below the city, but it is learned today from another source that the land is being cleared of trees and brush for the purpose of setting out a 50-acre apple orchard. The Guard's informant claims to have received his information directly from the owners of the tract. According to this the sawmill enterprise has been given up or else the plant will be built on some other tract that the company owns in this vicinity. Honore Palmer, the young Chicago millionaire, who is at the head of the company, recently purchased some fruit lands in the Rogue River Valley. He has seen the profits to be made off of apples in Oregon and by planting the tract near Eugene to the fruit, he will have a larger revenue still from the product. A part of the tract owned by the Palmer Company is wooded, but with the aid of a donkey engine, as mentioned in yesterday's Guard, it will not take long to clear the land. As this has never been under cultivation it will be very rich and will be especially adapted to apple culture. There is also quite an acreage of cleared and cultivated land in the tract.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is in reality an internal inflammation—a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Uric acid, an irritating, inflammatory accumulation, gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, acrid condition. The pains and aches and other disagreeable and dangerous symptoms of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. S. does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the blood, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every impurity and makes it a rich, health sustaining fluid, to bring permanent relief and comfort to those who suffer with Rheumatism. Book on Rheumatism and any medical advice free to all who write.

TO LOVERS OF GOOD COFFEE

All coffee mills heretofore used will only crush the berry, mutilating the minute oil cells, allowing the coffee oil to evaporate, thus impairing the strength and flavor. By this new process the little oil cells remain unbroken, the essential oil (food product), cannot evaporate, and the coffee retains its fine, rich, aromatic flavor in its full strength. This is one reason why a pound of coffee cut in this mill will make from ten to fifteen cups more of full strength coffee than will any coffee ground the old way. The lover of good coffee finds here a richness of flavor never found in coffee ground in the ordinary way at any price. Another feature about this mill is that you may have your coffee cut as fine as the finest sand and it will still be practically free from that fine dust which is produced by the old method of grinding. You will, therefore, always have a clear cup of coffee instead of a muddy effect—a result of using the old style mills. Royal Cut Coffee is also adaptable for percolators or French Drip coffee pots.

W. M. GREEN, THE SQUARE DEAL GROCER

Folger's Golden Gate Coffee

Always uniform—our best product—sold in 1 lb., 2 lb., 2½ lb. and 5 lb. cans. Your grocer will grind it better if ground at home—not too fine.

Hawkes Libby

No piece without this Trade Mark engraved on it is genuine.

Come In and See and Price

The largest and best line of CUT GLASS in the city.

Nappies \$1.50 to \$6.00
 Bowls \$3.50 to \$16.00
