RECEIPTS OF SATURDAY'S GAME BEAT THE RECORD

Over \$8000 Taken in and Each
Team Will Receive
Over \$3000

The total receipts at Saturday's football game between the U. of O. and O. A. C. were officially announced yesterday as \$1195, which is the largest amount of money ever paid in at a football game in the Pacific Northwest, says the Oregonian. The publication of the receipts demonstrates that Portland is the best paying football center in the Northwest, and further, it is an unassailable argument in favor of the playing of the annual U. O.-O. A. C. game in Portland.

Each team receives \$3364.15 out of which they will be required to pay hotel bills while in Portland. At that each team has cleared at least \$3000, which means that they will be all the more favorable to playing the game in Portland each year. Had Saturday been a good day the receipts would have been \$10,000 easily, and already the promoters of the Thanksgiving day game between the Multnomah Athletic Club and the University of Oregon are anticipating a crowd.

The University of Oregon, victors in Saturday's game, and the Oregon Agricultural College squad, the opposing team, left the city yesterday and will rest up and train for the holiday games next Thursday. The University of Oregon team went to Seaside, where they will enjoy the salt air and practice on the beach sand until Wednesday, when they will return to Portland for the Thanksgiving day game. The Oregon Agricultural College team left yesterday morning for Stevenson, Washington, where the "Aggies" will train for the big game at Seattle next Thursday.

Manager Pratt and Captain Stott will continue strenuous practice of the Multnomah Club eleven during the next three days, for the clubmen are anxious to defeat Oregon this year. Many of the Multnomah players witnessed Saturday's game, and after having seen the State University squad in action, are ready to admit that they have a hard game ahead and are practicing hard to overcome whatever advantage Oregon may have in speed and up-to-date football. The clubmen are anxious to wipe out last year's defeat and hope to overcome the varsity team with weight and strength.

Captain Stott and his men entertain hopes of going through the present season with a clean record, and expect to defeat Oregon next Thursday, and also to take the measure of

the Oregon Agricultural College on December 5.

Couch Forbes and the Oregon boys are now at Seaside enjoying the ocean breezes while practicing on the seashore. Their success against O. A. C. Saturday has imbued them with renewed confidence, and their efforts against Multnomah will be much stronger than against their recent rivals. Captain Moullen, Fullback Clark and other Oregon stars have always been depended upon to work their hardest against Multnomah, while the Multnomah players, some of whom are former O. A. C. men, will try their best to defeat Oregon in revenge for last Saturday's defeat administered to their alma mater. The former O. A. C. students on the Multnomah team are Dow Walker, Bert Pilkington and Forrest Smithson, and these three players will be in the game with the sole idea of reversing Oregon's record of last year.

Receipts of Game
The following statement of receipts and disbursements at Saturday's game have been made by the management of the two teams:
Total receipts.....\$1195.00
Expenses.....\$1375.79
Net receipts.....\$678.30
Each team's share.....\$3364.15

BORN
To Oliver Root and wife, of Mohawk, Sunday, Nov. 22, 1909, a daughter.

Six miles west of Eugene, to Henry Peterson and wife, twins, a son and daughter.

In Eugene, Nov. 22, 1908, to L. H. Tidball and wife, a daughter.

THE WHEAT MARKETS

Portland, Nov. 23.—Track prices: Bluestem, 95; club, 90; turkey red, 92; Red Russian, 88; valley, 91.

Tacoma, Nov. 23.—Wheat, milling—Bluestem, 95; export—Bluestem, 92; club, 87; red, 85.

Chicago, Nov. 23.—December, \$1.03 3-4; May, \$1.07 1-2; July, \$1.01 7/8.

The total output of a Bandon salmon cannery was 10,000 cases, nearly twice what it was a year ago, and this in the face of the fact that there was a strike of the fishermen in the early part of the season. Salem has built about 100 houses a day his year and then some, says the Statesman. Yet there are not houses enough to go around, and will not likely be in the near future.

EDUCATIONAL WORK OF THE Y. M. C. A.

A Night School for Men That
Work by Day Conducted
by the Association

One of the recent developments in educational work has been that of supplemental education, the idea being to supplement the daily work of men by study at night. It should be borne in mind that less than one per cent of the men of North America have received a college education, and less than three per cent are even high school graduates. Carol D. Wright, the former Commissioner of Labor, has estimated that only five per cent of men are fitted by training for the positions which they occupy. There is, therefore, a great need for vocational training. The country is well supplied with professional men and engineers, but there is a great need of educating mechanics of high grade office men, first class salesmen, and skilled artisans.

The Young Men's Christian Association, perhaps more than any other organization, has recognized this call and through its night school is giving thousands of men practical training in their daily occupations. Its classes cover a variety of subjects, from elementary English to the most advanced work in mechanics. Its courses do not presume to give men any short cut or patent method, but by giving men only the essential they are enabled to cover the ground in a comparatively short time. Special schools are conducted such as automobile classes, in which men are taught the care, use and repair of machines. Many salesmanship classes are being conducted, giving men the ethics and principles of scientific salesmanship. In Portland a class is conducted each year in forestry and lumbering. In one of the Iowa towns courses are given in practical agriculture, dairying and stock judging.

Many of the small cities have demonstrated the need and possibility of doing educational work. In Salem, Oregon, between fifty and sixty young men are enrolled in the night school, twenty of them being in a class in salesmanship. The association strives to adapt its educational work to the industries of the community. These classes are taught by practical teachers, many of them being employed by day in the subjects which they teach by night and, therefore, can bring a knowledge that comes from first-hand experience. Besides the regular class instruction educational clubs are formed where there is a group of men who are interested in some particular subject. A

number of cities have camera clubs, another has an electricity club while collector's clubs are to be found in many associations among the boys. Educational lectures and practical talks also form an important phase of the association work. The practical talks are made informal and may be given to a small group of men by some man who has gained his knowledge through practical experience. Many of the leading men of our cities have given their life experience to groups of young men, which has inspired them to great effort for success.

The educational work of the association does not presume to be a substitute for the public school or college. No boy is admitted to the night classes if it is possible for him to go to school, and many of the night schools conduct preparatory classes to fit boys for entering college. This work appeals to many as intensely practical, and produces more efficient employees.

REPUBLICANS TELL WHERE THEY GOT BIG FUND

\$1300—W. B. Ridgely, Chicago. \$1250—Clarence H. Mackay, New York; H. E. Huntington, San Francisco; H. Schawind, Jr., O. H. Cutler. There is a long list of \$1000 contributors, including some prominent men, among them, Thomas A. Edison, the inventor; President Roosevelt; Senator Wetmore of Rhode Island; General Magoon; some of the Vanderbilts; Oscar Strauss; Ex-Governor Franklin Murphy of New Jersey; G. A. Hobart, Newark, N. J.; R. C. McKinney, Connecticut; W. H. Whitmore, Connecticut; J. W. Peck, Connecticut; H. W. Voorhees, Cincinnati; Julius Fleischman, Cincinnati; Ben Worthington, Ohio; B. S. Cunningham, Ohio; R. J. Gampell, Providence; Steven O. Metcalf, Providence; Lyman Goff, Providence; L. N. Nedringhaus, St. Louis; William Miller Collier, Madrid; G. M. Dowser, West Virginia; J. A. Jeffery, West Virginia; J. R. Grundy, W. Harde, P. H. Eaton, E. H. Whittin, W. H. Bent, M. H. Dolphinson, W. P. Jackson, Morris Bachman, C. G. Atkins.

The \$500 list is also a long one. Altogether, the list shows \$12,330 contributors.

A municipal electric lighting plant for The Dalles is a matter which is now being considered by the city council. Dalles City owns considerable water power on Mill Creek and if it is found feasible and practicable, steps will be taken to build a plant which will supply the city with lights.

VINOL CURES CHRONIC COUGHS, COLDS AND BRONCHITIS

After Other Remedies Fail

"I have been troubled with a chronic cold and bronchitis for a long time and have tried many remedies without finding relief. Through the kind suggestion of a friend I tried Vinol, and after taking four bottles, am entirely cured." A. H. Wilde, 733-8th Avenue, Minneapolis, Minn.

St. McDonald, 147 W. Congress St., Paul, Minn., writes: "I contracted a severe cold last winter and thought I would never get rid of it. I tried Vinol as a last resort, and it has completely cured me."

Vinol combines two world-famed tonics, the healing, medicinal properties of cod liver oil and a tonic iron, deliciously palatable and agreeable to the weakest stomach. For this reason, Vinol is unexcelled as a strength-builder for old people, delicate children, weak and run-down persons, after sickness and for Chronic Coughs, Colds and Bronchitis.

Vinol is sold in Eugene by the Red Cross Drug Company.
