TO LOVERS OF GOOD COFFEE

All coffee mills heretofore used will only crush the berry, mutilating the minute oil cells, allowing the coffee oil to evaporate, thus impairing the strength and flavor.

By this new process the little oil cells remain unbroken, the essential oil (food product), cannot evaporate, and the coffee retains its fine, rich, aromatic flavor in its full strength.

This is one reason why a pound of coffee cut in this mill will make from ten to fifteen cups more of full strength coffee than will any coffee ground the old way. The lover of good coffee finds here a richness of flavor never found in coffee ground in the ordinary way at any price.

Another feature about this mill is that you may have your coffee cut as fine as the finest sand and it will be practically free from that fine dust which is produced by the old method of grinding. You will, therefore, always have a clear cup of coffee instead of a muddy effect—a result of using the old style mills.

Royal Cut Coffee is also adaptable for percolators or French Drip coffee pots.

Try a pound of our coffee cut on a royal mill and we know you will be pleased with the results.

Yours truly,

W. M. GREEN, THE SQUARE DEAL GROCER
619 Willamette St. Phone Main 25.

Steam and Gas Fitters

- Pipe threaded from 1/4 inch to 6 inch
- Price from 10c to 50c
- All size nipples cut from 1 inch to 6 inch
- All work guaranteed.
