The second annual show of the Lane County Poultry association is being held in the new Cherry block on Willamette street, the exhibition having begun this morning, but all the coops will not be placed till tomorrow morning when the formal opening will be held. During the cold, foggy weather last week the top of Spencer Butte was in the sun. A trip to the butte brought forth astonishment on the part of an English visitor. He had seen the mountains in various parts of the United States and Europe, but never had he seen a more beautiful view than that he beheld from the top of Spencer Saturday. All around him were clouds. No land was in sight except the heads of the Coast range, the mountains of Southern Oregon, and the Cascades. The Three Sisters, Mount Jefferson, and other peaks were like giant glaciers thrust into the sky. The fog gave the appearance of a great sea thickly covered with snow, and over all the sun shone in a cloudless sky.

TO TIMBER OWNERS

If you desire a careful and accurate cruise on your timber, we can do some of your work. Our methods will cost you more money than the old way—i.e., "guess work," but if you would rather pay more for an estimate that is practically a mill scale than for work that estimates some trees more than once, and many trees not at all, we can do your work satisfactorily, and it will stand inspection by any competent timberman.
