

## Remedies are Needed

Were we perfect, which we are not, medicines would not often be needed. But since our systems have become weakened, impaired and broken down through indiscretions which have gone on from the early ages, through countless generations, remedies are needed to aid Nature in correcting our inherited and otherwise acquired weaknesses. To reach the seat of stomach weakness and consequent digestive troubles, there is nothing so good as Dr. Pierce's Golden Medical Discovery, a glyceric compound, extracted from native medicinal roots—sold for over forty years with great satisfaction to all users. For Weak Stomach, Biliousness, Liver Complaint, Pain in the Stomach after eating, Heartburn, Bad Breath, Belching of food, Chronic Diarrhea and other Intestinal Derangements, the "Discovery" is a time-proven and most efficient remedy.

The genuine has on its outside wrapper the Signature

*W. M. Green*

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic, medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

## PUBLIC SCHOOL CHILDREN SEND BOOST LETTERS

All Boosters Are Not in the Commercial Club, Says Professor Stockton

To the Editor:

It seems that not all of the "Boosters" are in the Commercial club and I am enclosing a clipping from the local paper of Wildwood, N. J., together with copies of two letters received from pupils of the schools in that distant town, merely as an interesting suggestion of what may be done in the way of enlightening school exercises that are often too dull and prosaic.

The Wildwood letters were not written for publication and I do not know whether these which we submit are the best or the poorest of the lot, as I have not seen all of them, but I find them interesting and creditable as the work of children.

Sincerely yours,  
GUY C. STOCKTON,  
Supt. Eugene Schools.

Following is the clipping from the Wildwood paper, only the letter from the Eugene pupil being given here:

### LETTER FROM OREGON.

Wildwood School Pupils Exchange Communications with Western Pupils.

The pupils of the Wildwood Grammar school received this week twenty letters from pupils of the Central school, Eugene, Oregon, in reply to those sent from here recently.

This work was taken up by the Wildwood pupils in order to come in closer contact with conditions and industries of western life.

The letters received were written by seventh grade pupils and contain some very interesting facts. Postal cards of views are being exchanged.

The first few letters are to be under the supervision of the teachers but later the correspondence will be at the option of the pupils.

Below is a copy of one of the letters. The writer sent many clippings of views of the natural wonders of Oregon which, when mounted will make a fine booklet.

Eugene, Oregon, Nov. 20, 1908.  
Malvern Reeves, Wildwood, N. J.  
Dear Friend:  
I am in the seventh grade of the

Central school, Eugene, Lane county, Oregon.

The mountains along our coast have the heaviest rainfall in the state, sometimes more than 100 inches falling during the year. The broad valley between the Cascade and Coast mountains is drained by numerous streams and the rainfall is plenty but not excessive. The climate if this country is much like that of many parts of England.

In the Willamette valley wheat growing forms the chief occupation but is gradually giving place to dairying, fruit growing and general farming.

Alfalfa grows so fast that three and sometimes four crops are cut in a single year. Beef cattle are fattened and dairy herds, sheep and breeding stock are fed on alfalfa hay during the winter and dry seasons.

Fine breeds of cattle, horses, sheep and goats are reared.

The wool of the goat is known on the market as mohair. Oregon is the largest mohair producing state in the Union.

Pears, apples, prunes, peaches, wheat, barley, flax, gold, silver, lumber, coal and nickel are produced by our state.

Eugene has the University of Oregon, which has a large number of students. I am sending you a post card of the buildings.

I will close for this time hoping to hear from you soon.

I am your truly,

WALLACE DANIEL,  
124 West 7th St.,  
Eugene, Oregon.

A UNIQUE CHRISTMAS GIFT.

Dr. Franc Lueke Hard has solved the problem for many who find it a task to select presents for their friends.

Father, mother, brother, sister will appreciate the sensible gift of an order for a pair of glasses and a first-class examination to be had after Christmas, insuring a perfect fit, and rest for two long-neglected eyes. Thus combining the useful and ornamental in the Christmas gift.

See Dr. Hard at once, while it is on your mind, and secure a coupon.

A Dangerous Operation.

is the removal of the appendix by a surgeon. No one who takes Dr. King's New Life Pills is ever subjected to this frightful ordeal. They work so quietly you don't feel them. They cure constipation, headache, biliousness and malaria. 25c at W. A. Kuykendall's drug store.

New stock brass and black and irons. Chambers Hardware Co.

Lee Hoselton, in the Coleman building, third floor, cuts and polishes agates and other stones. Work guaranteed in all respects.

The vegetable oils which are used in the manufacture of Ivory Soap come from the other side of the globe.

Cuba and South America produce oils of fairly good quality; but we prefer to go 10,000 miles further, pay more and get the best.

Why do we do it? Because it pays—that is the only reason.
