'MOBILE RUNS WILD IN OAKLAND AND HURTS FOUR

One Accident Follows Another, As the Result of Which One May Die

Oakland, Dec. 26.—The collision of an automobile and train in the heart of the business district today was preceded by the running down of two pedestrians by the same machine. One person was perhaps fatally injured and three others are more or less badly hurt. The injured are: Sam Knlla, chauffeur, perhaps fatally; John Petty and Mr. and Mrs. J. H. Riley. The machine was dashing down Broadway at a furious speed carrying to the hospital Albert Gross, who had just been injured by a trolley car. Petty was also an occupant of the automobile. Just before the machine struck the train it ran down and struck Rileys, who was crossing the street. At Seventh and Broadway the machine collided with a local train, injuring the chauffeur and Petty. The four victims were taken to the hospital in the police patrol as was also Gross.

Wild animals, cougars, panthers, wolves, bears and other varmints are destroying the fast vanishing game of the state. William R. Mealy, of Foster, Linn county, wants the legislature to put back an adequate bounty on these animals for the protection not only of game, but of the livestock of the country.

HEALTHY GROWTH OF EUGENE PLANT

There is probably no institution in Eugene that is enjoying a more healthy growth than the marble works of E. C. Lake, located on East Seventh street. During the past year Mr. Lake has been crowded with orders and notwithstanding the fact that he employs all the men his plant will conveniently hold, still his rush continues. Each day of the past year the Lake Marble works have turned out at least one monument and on some days as many as two have been completed.

At present there are nearly 100 finished monuments and headstones on his shop floor ready for delivery and orders are in for many more.

During the past year Mr. Lake has received two large carloads of marble from Vermont, which is the principal kind he uses, besides three cars of granite which is used as bases and curbing. The marble comes from Proctor, Vermont and the granite from Barre, in the same state. Mr. Lake also uses some of the famous Tenino, Washington, stone for bases.

His work is of all kinds, from the most modest headstone and it is figured and lettered in the most attractive manner. The marble cutter, Mr. G. W. Harris, is an expert in his line of business and there is no design too intricate for him to follow. He is ably assisted in his work by Mr. E. J. Wallin. Mr. Lake is highly pleased with the amount of work turned out the past year and says that prospects for a great increase for the coming year are very bright.

COUNTY COURT CHANGES BOUNTY

At a recent session of the county court the bounty on predatory animals was changed. Heretofore the bounty on coyotes, wildcats, gray and black wolves was \$2.50, but this amount will not be paid on all such animals in the future. According to the new ruling only coyotes will draw the \$2.50 bounty, while that on cougars will be \$5.00. The coyote is really the bane of the ranchers' lives, as they kill poultry as well as sheep and young cattle. The cougar is the one animal that is sought after for he never knows when his appetite is satisfied, killing indiscriminately. The new bounty ruling takes effect on the first of the year.
