## MULTNOMAH MAY PLAY THE WINNING TEAM

Plan to Have Victor in U. of O.-  
O. A. C. Play Clubmen  
On Thanksgiving

The directors of the Multnomah Amateur Athletic Club Tuesday night adopted a resolution which is expected to solve the vexing problem of whether Oregon Agricultural College or the University of Oregon shall be the club's opponent on next Thanksgiving day, says the Oregonian.

The resolution is in the nature of a compromise, and provides that the Multnomah Club play the winner of the annual Oregon Agricultural College-University of Oregon game on Multnomah Field, instead of singling out either institution.

At the end of the present season the three-year agreement between the club and the University of Oregon ended, and the Oregon Agricultural College became a candidate for the Thanksgiving date with the clubmen. The directors believed they were entitled to consideration, but the University of Oregon refused positively to alternate with O. A. C. in their games on that day and demanded a continuance of the old arrangement.

According to the decision last night Oregon and Corvallis will be asked to play their annual game about three weeks before Thanksgiving day and the winning team will be pitted against the club here on the holiday date, while the losing club can arrange a game with the University of Washington.

In club circles this is looked upon as the best solution of the problem, for the Multnomah Club desires to continue the friendly relations now extant. The clubmen think such an arrangement cannot be turned down by either institution, unless it is thought the intercollegiate games come too early in the season. The college players, however, commenced training for football early in September, and the early November date, it is contended, should find them as well fitted for their annual struggle as any other.

President George W. McMillan of the Multnomah Club, stated last night he believed the new arrangement would be agreeable to the representatives of the two colleges and he hoped each would vote favorably when the proposition is formally submitted to them.

## CHOIR OF SEVENTY-FIVE CHILDREN AT REVIVAL MEETING THIS EVENING

Professor Spear Will Direct  
Chorus of Little Folks at  
Presbyterian Church

A choir of seventy-five children will sing at the Presbyterian Church tonight. Prof. Spear has been training the boys and girls at the children's meeting and has created much enthusiasm among them. They will assist the large choir of adults several times during the meetings. The meeting last night was one of the best of the series, the sermon being especially tender and held the large audience with unusual interest. Prof. and Mrs. Spear were heard to splendid advantage in a beautiful duet. The choir rehearsals at the close of the service attract many, thus proving the interest people are taking in the song service.

In addition to the service held at three o'clock this afternoon and at 7:30 there will be a Watch Night meeting to await the passing of the old and the coming of the New Year.

## SILVERTON-EUGENE BASKETBALL GAME TOMORROW NIGHT

Second of the League Series Will Be Pulled Off in the Armory Pavilion

Tomorrow evening the high school plays its second league basketball game with Silverton. Silverton has a very strong team this year, not yet having been beaten. She defeated Albany with whom Eugene tied, by only one point. This indicates that the game will be very close and also fast. During the past week the boys have been putting in hard practice and confident of winning. They have been devoting special work toward basket throwing and with the splendid team work already shown it is pretty certain that Silverton will have to have a remarkable team to beat them. The Silverton team is managed by Leslie Miller, a graduate from Oregon last year.

Perhaps the town people do not realize that the Eugene high school team is the only organized team in the city and the article of ball that they put up is "deserving of all the support that can be given them. Basketball is absolutely the fastest game played, and combined with the greatest possible headwork and endurance and skill, more than is required for football, as a night entertainment has no equal.

The business end of the game is being looked after by Paul Jenkins for Eugene, and Professor Leslie Miller, U. O. '08, of the Silverton high. Let every one lend their encouragement and their 25 cents and help to win this game in "The Eugene Way." Game called at 8 p. m. sharp.
