TO TIMBER OWNERS

If you desire a careful and accurate cruise on your timber, we can do some of the best. Our methods will cost you more money than the old way—i.e., "guess work," but if you would rather pay more for an estimate that is practically a mile scale than for work that estimates some trees more than once, and many trees not at all, we can do your work satisfactorily, and it will stand inspection by any competent timberman. 207

FOR SALE, EXCHANGE OR LEASE

Having concluded to retire from the lumber business, I offer for sale, lease or will exchange for Eugene or Portland income property, my sawmill, sawmill site, boom, lumber sheds, office, planer, dry kilns and all tools connected with the business. Mill located at river bridge in the centre of Eugene city, east and west, and only three blocks from the S. P. R. R. 216

This is a fine opportunity for some one to go into the lumber business, as there is always a big local demand for all slabwood, sawdust, shavings, cull lumber, as well as the better grades of lumber. Logs are cheap, labor cheap, lumber high. 217

A good millman can make this property pay for itself in two years, and if he will operate day and night in one year. Greatest opportunity in this part of Oregon for a mill man; best located mill in the state. Capacity, 20,000 feet in ten hours. 218

When you have this mill you are at the market. Planer and dry kiln—everything needed to make lots of lumber and lots of money. Give this your early attention if interested in a lumber proposition. I am sure you cannot beat it in the state. The quicker you act the surer you are of making your fortune, for this is a chance in a lifetime. 219
