LOWER SIUSLAW NEWS OF INTEREST

E. O. Palmer, of Eugene, was looking over the Siuslaw country the first of this week.

Miss Fannie Colvin returned to Florence last Friday to resume her duties in the school after spending her vacation in Eugene.

The people of North Fork road district recently voted to levy a five mill tax to be expended on the road between the school house and the portage and that at Minerva.

The directors of the McLeod district have purchased a site for a schoolhouse from William Brewer and intend to move their building across the river from the present location.

Albert Camp, of Mapleton, and M. J. Sweet, of Point Terrace, Jesse and Rolla Phelps, of Indian Creek, are among the Siuslaw people who were called to Eugene on land business.

Jos. P. Whisman and bride came in from Eugene on Tuesday's stage. After spending a few days with relatives in Acme they will go to the Umpqua, where Mr. Whisman has his employment.

A short time ago a petition was circulated on the upper part of tide water asking the county court to divide Florence road district at the township line which crosses near the mouth of Hoffman creek and form the upper part into a new district. A remonstrance was circulated in Acme and Florence and nearly fifty signatures obtained in a short time. The people of the lower river are opposed to dividing the district till the road is opened all the way down the river to Florence.

JUDGE ROOT IS GUILTY OF IMPROPRIETY

Seattle, Jan. 11.—The State Bar Association committee appointed to investigate the conduct of Judge Milo A. Root, who resigned as justice of the supreme court two years ago, has made its report. Judge Root was elected at the recent election for another term of six years. His resignation affected only the term in which he was elected two years ago. If he fails to qualify the office will be declared vacant. The committee finds Judge Root guilty of gross impropriety which unfits him as judge in the supreme court. The report is a lengthy document and makes the following findings of facts, conclusions and recommendations:

That Judge Root had correspondence with M. J. Gordon, attorney for the Great Northern Railway, concerning a money transaction; that Judge Root accepted from the Great Northern through M. J. Gordon and other railroads, free transportation; that Judge Root filed as the opinion of the supreme court an almost verbatim draft of an opinion dictated by M. J. Gordon, attorney for the Great Northern, in the case of Harris against the railroad company.

The committee is unable to obtain any facts to substantiate the rumor of the giving out of advance information concerning the decision of the supreme court. The committee is unable to obtain any facts to substantiate the rumor of bribery and corruption. The committee holds that the conduct of Judge Root in receiving free transportation is highly censurable. The conduct of Root in the Harris case is characterized as a "gross breach of judicial and professional propriety."

ANOTHER CHARGE AGAINST TILLMAN

Washington, Jan. 11.—Postmaster Barnes has sent Senator Tillman a letter demanding payment of \$16.00 for carrying through the mail a typewriter sent through the mails under Tillman's frank. As the package was sealed he is charged with postage rates. Tillman replied that the machine was the property of the government, that it had been the custom to ship government typewriters under a frank. That as the machine was not his personal property the postmaster can sell it or deliver it to the sergeant-at-arms of the senate.

Erection of a new and modern court house to replace the worn establishment which Multnomah county has long used, has been definitely decided upon by the county court and commissioners. Announcement was made yesterday that as soon as a levy can be made the preparations for construction work on a steel building, to cost \$500,000, will be undertaken.

SERIOUS FIRE IN LINTON LUMBER MILLS

Five totally destroyed the planing mill, the adjoining platform and a large quantity of lumber belonging to the Clark & Wilson Lumber Company at Linton yesterday, causing a loss of approximately \$50,000. Only by heroic endeavor was the saw-mill of the company saved; had it caught fire there would have been grave danger of every building in the town feeding the flames. The loss is said to be fully covered by insurance.

The flames originated in the engine room of the planing mill, under what is called the re-saw, and spread so quickly that in a few minutes the entire building was a seething furnace. The cause is believed to have been a hot box.—Portland Telegram.

STATE FEDERATION MEETS IN SALEM

The Oregon State Federation of Labor will open its annual session in this city Monday, January 18, and from present indications will be in convention assembled for fully a week.

Great interest centres about this federation. The legislature, being in session at the same time will probably affect the number and character of labor recommendations which the federation will see fit to hand over to the lawmakers, and no doubt there will be more calls for labor legislation than ever before.—Salem Statesman.
