GENERAL NEWS FORECAST OF THE COMING WEEK

Washington, D. C., Jan. 16.—The proceedings of the national congress and of the legislatures now in session in the various states will furnish much grist for the news mill during the coming week. United States senators are to be elected in New York, Pennsylvania and several other states, but as the result in virtually every case has already been determined in caucus the elections will be wholly perfunctory in character.

Speeches by public men of prominence will be more than usually numerous. The President is down for two addresses during the week, the first to be delivered at a mass meeting to be held Monday night in celebration of the seventy-fifth anniversary of the landing of the first Methodist evangelist in Africa, and the second at a dinner to be given at the Shorham hotel Saturday night in honor of Vice President-elect Sherman.

President-elect Taft has accepted an invitation to deliver an address Thursday before the Augusta chamber of commerce. Secretary Root will speak before a meeting of Harvard alumni in Boston and another member of the cabinet, Secretary of War Wright, is scheduled for a speech at the annual banquet of the board of trade in Newark, N. J.

Literary and other societies all through the country will hold exercises Tuesday in celebration of the centennial of the birth of Edgar Allan Poe. On the same day the birthday anniversary of Gen. Robert E. Lee will be observed in the customary manner throughout the South.

Establishment of a Federal children's bureau is the aim of state-men, philanthropists and labor leaders who will gather in Chicago to attend the fifth annual conference of the National Child Labor committee. Prominent speakers from all over the country will be heard at the meeting.

The cases of D. W. Cooper, Robin Cooper and John D. Sharp, charged with the murder of former Senator E. W. Carmack, are set for trial at Nashville next Wednesday.

Progress in the work of relief of the Italian earthquake sufferers and various other happenings in the foreign field will occupy attention. Developments in the critical situation in China are expected with the arrival of the Chinese new year Thursday.

The first session of the eleventh Parliament of Canada will convene Wednesday. The principal measures to come up at the session include the new insurance act, left over from last session; a bill to prevent payment of secret commissions; a bill to establish a separate

portfolio for labor, and a bill to amend the present rules of parliamentary procedure with a view to expedite the transaction of public business and eliminate purposeless debate.

The ships of the Atlantic battleship fleet will spend the week at various Mediterranean ports, including Marseilles, Villefranche, Naples and Algiers.

One of the most important conventions of the week will be the annual national gathering of the United Mine Workers of America at Indianapolis. In addition to transacting the usual amount of routine business the convention will make arrangements for the joint conference with the operators to discuss the wage scale to come into effect next April.

PRESIDENT HELPS ORPHANS.

Hundreds of orphans have been helped by the President of the Industrial and Orphan's Home at Macon, Ga., who writes: "We have used Electric Bitters in this institution for nine years. It has proved a most excellent medicine for Stomach, Liver and Kidney troubles. We regard it as one of the best family medicines on earth." It invigorates the vital organs, purifies the blood, aids digestion, creates appetite. To strengthen and build up this, pale, weak, children or run-down people, it has no equal. Best for female complaints. Only 50c at W. A. Kuykendall's.

Abstracts furnished and land titles examined. Fred Flisk, Merchants' Bank Building, Eugene, Oregon.

MANIFOLD MARVELS OF ELECTRICITY DISPLAYED

Chicago, Ill., Jan. 16.—The fourth annual electrical show opened in the Coliseum today and will continue for two weeks. After visiting the mammoth exhibition one is almost inclined to discredit the words of the famous Edison that the electrical industry is still in its infancy. The elaborate and varied displays not only illustrate the progress made by electric light, heat and power during the past twenty-five years, but also show many wonderful devices and inventions of recent date with which the general public is little acquainted.

Electrical cooking devices from one of the most unique features of the exhibition. Practical demonstrations show how the housewife can get up in the morning and by the mere pushing of a few buttons have breakfast ready within eight minutes. Other interesting exhibits are of electrical heating apparatus, laundry machinery, sanitary devices and cleaners, and numerous other household necessities.

The show, however, is not all novelties. The big, new, practical things in electricity prevail to a large extent. Much more working machinery is displayed than at the previous shows, illustrating the countless uses for the electric motor in the home, the factory, the store and for transportation on land and sea.
