HEAR THE GREATEST MAN THAT EVER VISITED EUGENE

RUSSELL H. CONWELL

of Philadelphia, Lectur Acres of Diamonds

This is a conservative statement. Witness the following:

Charles A. Dana, former editor of the New York Sun, in writing to Harper Bros., said in part: "I regard Russell H. Conwell, of Philadelphia, as America's greatest man in the best form."

Harper's Weekly, of New York, said: "For creating much out of nothing and doing great deeds with the smallest means Conwell has no peer in the United States now."

Albert H. Smith, in his biography of Conwell, states: "Russell H. Conwell, the author, has written nineteen books, a number of which have had a sale exceeding two hundred thousand copies each.

Russell H. Conwell, philanthropist, is founder and president of a university of four thousand students. He is founder and promoter of the Samaritan hospital, healing twelve hundred people a month. He is founder of an orphanage for the children of firemen and policemen who lay down their lives for their fellows.

Russell H. Conwell, the preacher, presides over the largest Protestant congregation in America.

Russell H. Conwell, the lecturer, is the most popular lecturer in the world, which statement can be sustained by the statistics of the lecture bureaus. "Acres of Diamonds" has been delivered twenty-six hundred times. He has probably addressed more people than any other man living.

Mr. Conwell has been in the lecture field for forty-eight years and has delivered here and abroad nearly seven thousand lectures. More special trains are run to Conwell lectures every year than to any other single attraction in the United States.

He has been intimately associated with a great number of noted authors and statesmen both in America and Europe. Watch for our reading notices this week.

SUES TIMBER LAND OWNERS

Government Attorney Brings Suit to Annul Patents to Large Tracts Purchased of Railroad Companies

Portland, Jan. 24.—Another step in the fight of the Federal government to recover possession of the land included in the immense grant to the Oregon & California railroad company was taken yesterday when B. D. Townsend, special assistant to the attorney-general filed in the Federal court in Portland 35 suits in equity against the Oregon & California and Southern Pacific companies and over 100 other defendants.

These suits are supplementary to those previously filed against the Harriman companies and are for the purpose of recovering land included in the grant and already sold by the railroads, or, where title to the land cannot be regained, of securing for the government all monies paid for the land in excess of $2.50 an acre, the price at which it was stipulated in the original grant the land would be sold. Besides the railroads, the defendants in the suits are those who have purchased land from these companies. The suits involve more than $15,000,000 and also more than 353,288 acres of land. All of the land is located in Oregon.

Carries out Announced Policy.

These suits filed by Mr. Townsend are in keeping with the pledge that the Federal attorneys made in the original bill of complaint filed by the government, in its suit against the Oregon & California company. In its original suit the government alleges the fact that the railroad violated the terms of the grant by refusing to sell the lands contained therein for $2.50 an acre and seeks either to force the railroad to sell the land to settlers according to the terms of the grant or to have the entire grant annulled and the land restored to the public domain.

At the time this suit was filed the federal authorities knew that the railroad company had sold to timber syndicates such as the Hammond and the Weyerhauser interests, and also to timbermen, thousands of acres included in the grant. In order not to involve complications and delays, the suits against the railroad and against the other owners were brought separately.

It is alleged in the complaint that all of the lands sold to the dfendants named in the suits were sold in violation of the terms of the land grant, and for this reason the government hopes to make null and void the deeds and contracts made by the Oregon & California company to the purchasers. It has been almost a herculanean task on the part of Attorney Townsend, to get together the evidence upon which to base his suit.

It has involved months of the hardest kind of work, for the selling of the lands by the company began, in the early days and has continued up until 1908. In many instances copies of deeds and contracts to sell are in possession of the government. Other deeds and some very important ones have never been recorded, yet the governmentis in possession of evidence, as in the case of the Hammond holdings, that deeds and contracts are in existence.

List of the Defendants.

How much better? Well, there is only one way to find out—buy a cake and see for yourself.
