Unless It's a GOOD Store It Will NOT Pay To Advertise It!

Unless you know a person—unless that person comes into your life in some way—you are not greatly concerned about whether he is good or bad, desirable or undesirable. It's so with a store. The people who never visit it care nothing about it one way or the other. It doesn't exist—for them. But when they are persuaded to patronize it—when they come to turn the spotlight of their attention on it—when it comes to have a part in their lives, as some stores must have in all lives—then it's different; then it does matter whether it strives to win confidence; it does matter whether or not its price concessions are genuine, dependable.

If it meets all tests that a good store must stand when it is advertised—when it thus invites the critical attention of the people—then advertising will "make" the store. If it fails in most of the vital things—if it proves, under the light of publicity not to be much of a store, THEN ADVERTISING WILL NOT PAY—for it will emphasize the shortcomings as well as merits.

For these same reasons it is generally assumed that the store which does not advertise is seeking to avoid close inspection and comparison, and that the store which does is courting them.

GOLDEN OPPORTUNITY

You can make a clear profit of \$15.00 per month or over if you lease and operate this mill. This is a sawmill property, located right in the city. Now examine these figures—take them to any good sawmill man for verification, and you will be convinced of this rare opportunity. The mill is located at the river bridge in Eugene. Logs cost \$5 to \$6 per 1000; lumber averages \$13.33 per 1000. Common grade \$11.50; finishing grades, \$30. Cost of sawing, \$2 per 1000; cost of logs, \$5.50 per 1000; total cost logs, sawing and selling, \$7.50 per 1000; over-runover log scale, 25 per cent, \$1.87; take this from \$7.50, leaving you \$5.62, the total cost of your lumber right here in the best market in the state. Now logs will saw 1-3 clear, and it is worth \$17 green and rough, \$25 to \$30 dried and planed. But take the lumber rough. The common is worth \$11.50, clear \$17, making an average of \$13.33. The profit will be \$7.50 per 1000, and on a cut of 20,000 feet per day, which the mill will do if pushed, this will show a profit of \$4000 per month of 26 working days. You can't beat this proposition in Oregon. I will give you a very reasonable lease on this property. See M. S. Barker, 333 Pearl street, Eugene, Or.
