HOSPITAL FOR INCURABLES NOTRE DAME DE GRACE, MONTREAL

CONVENT OF ST. LAURENT NEAR MONTREAL, MOTHER HOUSE SISTERS OF THE HOLY CROSS

## Interesting Letters Concerning Peruna.

**Hospital, Quebec City.**  
The sisters, who come to take Peruna, has improved their health. They are trying it also.

**St. Marie, Supre.**  
The respiratory organs are all in Canada for the winter. It is no doubt caused by the winter experienced in the continent.

When Peruna was discovered by a reliable person to be a reliable remedy for these catarrhal diseases, a popular medicine, and in families and in famous great hospitals, where preventive and relief in all cases.

Persons do not hesitate to use the remedy in all cases. It is so helpful in the treatment of all such cases.

Persons do not hesitate to use the remedy in all cases. It is so helpful in the treatment of all such cases.

**Montreal, Nov. 7, 1903.**  
We found Peruna a relief in several cases. We say it is a good tonic and we are very thankful.

**Sisters of the Good Shepherd.**  
When catarrh once fastens itself upon the system it becomes an obstinate disease to eradicate.

A systemic remedy—one that reaches every internal organ of the body—is an absolute necessity.

Peruna is just such a remedy. It searches out the cause of the disease, healing and strengthening the mucous membranes, and thus giving Nature an opportunity to perform her part of the restorative process.

One of the many hospitals which have found Peruna of value in treating old and obstinate cases of catarrh is the Hospital St. John, who writes as follows:

"We are happy to tell you that your Peruna has given us satisfaction. Three patients have tried it, one 68 years old, Renou Dupuis, afflicted with catarrh, is much relieved, more than he has been for a number of years."

"A young girl, 15 years old, had an obstinate cough, which half a bottle of Peruna caused to disappear."

respondent in Eugene, signing himself "Sage Rooster," who occasionally dishes up the local news in entertaining style. Here is his latest:

The little fight between the city council and some of the people of Eugene seems to be getting larger, and it would not surprise the Rooster if Japan didn't have to step in and settle the trouble. But could even

Japan make the city treasury pay the warrants.

More paving is ordered at nearly every council meeting. There will be more improvements than ever this summer.

If the factions will quit their fighting it will be a big thing for the city. Like the old Fulton ring, it is hard for some rings to step down and out.

The electric light system of Eugene is something fierce, sort of wireless affair, coming in waves, without any danger of a tidal wave.

The P. O. building is about ready for the stone work, the excavation being done. The Rooster is almost afraid to go into the present waiting room of the old post office for fear some of the large cob webs all around will fall and crush him. The city council should send the health committee around to investigate. But my opinion is to put up a flag or red light, as a signal of danger.

I am glad to note the improvements going on in Albany, and hope to see her street car system extended and another Eugene car sent for.

Three cheers for Senator Chamberlain and all State No. 1 republicans who stood by their pledge.

# SPRINGFIELD OBSERVES DAY AT OLD HOME

Address Made by French and English Ambassadors

Springfield, Ill., Feb. 12.—Among the principal speakers today at the celebration here of the one hundredth anniversary of the birth of Abraham Lincoln was M. Jusserand, the French ambassador. He spoke in part as follows:

On two tragic occasions, at a century's distance, the fate of this country trembled in the balance. A leader was wanted on both occasions. This boon from above was granted to the American people who had a Washington when a Washington was needed, and a Lincoln when a Lincoln could save them. Both had enemies, both had doubters, but both were recognized by the nation at large as the men to shape the nation's destiny.

When the catastrophe happened there were no more differences and the whole French nation was united in feeling. From the emperor and empress who telegraphed to Mrs. Lincoln to the humblest workman, the emotion was the same—a wave of sympathy

covered the country, such a one as never seen. A subscription was opened to have a medal struck and a copy in gold presented to Mrs. Lincoln. In order that it might be truly a national offering it was decided that no one would be permitted to give more than two cents. The necessary money was collected in an instant, and the medal struck bearing these memorable words: "Dedicated by the French Democracy to Lincoln, honest man, who abolished slavery, re-established the Union, saved the Republic, without veiling the statue of liberty."

The French press was unanimous in expressions of admiration and of sorrow. "A Christian," said the Gazette de France, "has just ascended before the throne of the Final Judge, accompanied by the souls of 4,000,000 slaves, created like ourselves in the image of God, and who have been endowed with freedom by a word from him."

When, in a log cabin of Kentucky, a hundred years ago this day, that child was born who was named after his grandfather, who was killed by the Indians, Abraham Lincoln, Napoleon III. swayed Europe, Jefferson was president of the United States and the second war of independence had not yet come to pass. It seems all very remote. But the memory of the great man whom we

try to honor today in any way in every body's mind as if he had only just left us. It is not that their virtues have in glory after their death, and that the only which any evil man may have conceived against them never survives the oblivion. Such was the fate of Lincoln.

James Bryce Speaks. Springfield, Feb. 12.—Declaring that Englishmen honor the memory of Abraham Lincoln as Americans do and that it was fitting that one who was privileged to represent the land from which his forefathers came should bring on behalf of England a tribute of admiration for him, Hon. James Bryce, British Ambassador to the United States, delivered a notable address at the Lincoln celebration here today.

You are not to commemorate a great man, one of your greatest—great in what he did, even greater in what he was. One hundred years have passed since in a lowly hut in the bordering state of Kentucky, this child of obscure and unlettered parents was born into a country still wild and thinly peopled. Three other famous men were born in that same year in England—Alfred, Thomas, the most gifted poet who has used our language since Wordsworth; and William Gladstone, the most powerful, versatile and high-minded statesman of the past two generations in Britain and Charles Darwin, the greatest naturalist since Linnaeus, and chief among the famous scientific discoverers of the nineteenth century. It was a wonderful year and one who knew these three illustrious Englishmen whom I have named is tempted to speak of them and compare and contrast each one of them with that illustrious contemporary of their whose memory we are met to honor. He quitted this world long before them, but with a record to which a long life could have scarcely added any further lustre.

## TROWBRIDGE PIANOS

Mr. Editor:—I am representing the Trowbridge Piano Company in Eugene, because I have a lot of their pianos. I notice that my money looked awful good to them and they were glad to get it. Now I will sell you a Trowbridge piano for \$250 as large as the largest one they make—their statement to the contrary notwithstanding. Some other excuse will have to be found to justify the extortionate prices charged for these same goods heretofore. Is a big watch worth more than a small one, even of the same make? F. A. RANKIN.

P. S.—Do you think it will be for me to publish the wholesale prices for the very best Trowbridge & Mehlin pianos? I can do it, and maybe I will if— R.
