### A BIG ENTERPRISE FOR EUGENE HAS BEEN LAUNCHED

Stock Company Organized to  
Conduct a Big Dairy Farm  
Here — \$30,000 Capital

One of the great enterprises, next  
to building the Siuslaw railroad, that  
could ever come to Eugene and Lane  
county has been launched. Near Eu-  
gene is to be one of the finest stock  
and dairy farms in the United States.  
A splendid farm of 618 acres, within  
one and a half miles of Eugene, has  
already been contracted for, and a  
stock company is now being organized  
with \$30,000 capital to purchase  
this land and fully equip it with ev-  
erything necessary to make it one  
of the most sanitary and up-to-date  
dairy and fine stock farms anywhere  
to be found. Two carloads of the  
very best selected registered dairy  
stock consisting of Jersey and Gurn-  
sey cattle, will be purchased in the  
Eastern states by an expert judge of  
dairy stock. He has been contem-  
plating this matter for months, and  
has been doing a lot of correspond-  
ing with several of the most promi-  
nent breeders in the East. He knows  
just how to do this thing and is now  
in a position to land two carloads of  
the very best bred milk producing  
stock to be found, and at very rea-  
sonable prices. The purpose is to  
raise fine dairy stock, and to supply  
Eugene with perfectly sanitary milk.

The stock will be thoroughly tested  
for tuberculosis and fully guaran-  
teed free from any disease whatever  
before being purchased, and will be  
tested and examined every few  
months by the local, state and coun-  
ty inspectors, and everything will be  
run from first to last on sanitary  
and up-to-date methods. The bene-  
fits to Eugene and Lane county of  
this far-reaching enterprise cannot  
be estimated. The business will be  
started with about fifty head of cat-  
tle, and enlarged to one hundred by  
increase and importation as desired.  
The business will be run with econ-  
omy and business methods under the  
management and direction of a board  
of five directors elected by the stock-  
holders.

The dairy business has proven it-  
self one of the safest and surest  
sources of income in various parts of  
the country including Lane county.  
The difficulty with the Eugene milk  
supply has been that successful dair-  
ymen soon make a stake and quit  
the business turning the dairies over  
to new hands, thus rendering the  
supply uncertain in part. The ad-  
vantage of the present plan lies in  
the incorporation of the company  
that will operate the business con-  
tinuously on business principles, af-  
ter the manner of banking and other  
corporate interests. The public and  
consumers of its products will be in-  
vited to inspect the premises, and

methods of treatment at all times.  
Absolute cleanliness will be the mo-  
to of the management.

This enterprise means the upbuild-  
ing of the dairy business for the en-  
tire county and state, and will be a  
large factor in the coming district  
fair.

As there is no dairy in the whole  
state producing inspected milk, and  
only one in the state of Washington,  
the demand for this class of milk is  
such that its production is extreme-  
ly profitable. The milk produced  
by Washington's only inspected dai-  
ry brings 35c per gallon wholesale.  
Investors in this stock can figure for  
themselves that a cow giving two gal-  
lons a day for 30 days in the year  
will yield \$210 less the expenses.  
Then also the increase from these  
registered cattle will be sought for  
far and near for breeding purposes,  
and its sale will add largely to the  
income of the enterprise.

Now Eugene has the opportunity  
of securing this splendid enterprise,  
but in order to do this 200 shares  
of stock at \$100 each must be tak-  
en by noon Saturday, February 20,  
to take up the option now held on  
the land and start the preliminary  
work.

Any one living in the country can  
secure stock by writing or calling on  
George Melvin Miller, room 29, Mc-  
Clung block, where the subscription  
books are now open.

### THIRTEENTH STREET MARKET

We beg to announce to the  
public that we have just re-  
modelled our Thirteenth  
street market, and fitted it  
up in first-class shape in all  
respects. We are prepared to

### PLEASANT HILL ITEMS

(Special Correspondence.)

Pleasant Hill, Feb. 16.—Mr. and  
Mrs. Albert Hendricks, of Eugene,  
were over Sunday visitors here this  
week.

Bert Mathews returned Friday  
from a trip to Portland.

William Klugow is here from Cal-  
ifornia visiting his sister, Mrs. L. Mil-  
ler, and perhaps incidentally to drop  
onto a bargain in real estate.

Robert Drury is at Kitson Springs  
on a combined pleasure and business  
trip.

A new installment of the public  
library has been received by M. E.  
Parrow, local librarian. It is well  
patronized and much appreciated by  
the people generally.

Clarence Barker is preparing to  
paint his home, fence and otherwise  
improve his property, recently pur-  
chased from Mr. White.

Mrs. Laura Crabtree, of Free-  
water, Wash., arrived Sunday in re-  
sponse to a telegram informing her  
of the dangerous illness of her sis-  
ter, Miss Jane Mitchell, who is still  
in a critical condition. Dr. Barr, of  
Springfield, is in attendance.

While visiting in this neighbor-  
hood Monday, Mrs. P. S. Hills, of  
Jasper, received a telephone message  
stating that her sister-in-law, Mrs.  
Lizzie Renfro, of Walla Walla, was  
lying at the point of death. Mrs.  
Hills left immediately for Eugene,  
where she would take the first train  
for Walla Walla.

Friday evening the Mathews sis-  
ters gave a valentine party at their  
home, which was attended by over  
thirty young people, including most  
of their high schoolmates. Music  
and games occupied the fore part of  
the evening, after which refresh-  
ments were served and the valentines  
read and distributed, which furnish-  
ed amusement till the " wee wee"  
hours, when the guests took their  
leave, well pleased with the evening's  
entertainment.

In a late issue we were quoted (in  
speaking of the Jasper ferry) as say-  
ing the river was "too high to ferry."  
We said "too low to ferry," the ferry  
being actually aground in the middle  
of the river. Even the skiff is ap-  
praised with difficulty, as it often  
grazes two men to start it. The deep  
channel near the bank prevents ford-  
ing, so there we are. The only solu-  
tion of the problem is a bridge, to  
which we are in all justice entitled,  
and we ought to get it without much  
delay.

FEBRUARY CLEARANCE SALE  
Six good lots left out of 18. Who  
will be the next to be made happy?  
We need the money and must sell
