SPRINGFIELD HAS NEAR BEER ORDINANCE

Dealers Must Secure a Permit
From Council—Other
Notes

At an adjourned meeting of the town council Wednesday evening an ordinance was passed whereby it becomes necessary for anyone wishing to sell or keep for sale near beer or other soft drinks of the same kind, must first make application to the town recorder for a license and the same will then be acted upon by the council, who may refuse to issue any license so applied for if in their judgment the same should not be granted. The council can also revoke any license issued, for cause, upon giving notice to the person holding the same that it will be revoked.

The ordinance also contains a section where in it is unlawful to keep such places of business open later than 11:30 o'clock p. m. nor before the hours of 6:30 o'clock a. m.

Stolen Tools Found
The sledge hammer, chisel and tools that were taken from L. E. Thompson's blacksmith shop over two weeks ago and were used by the robbers in their effort to rob the store of Mr. Paul Bettelheim, were found by Mr. Withrow last Saturday. They were found under the sidewalk near his woodyard and looked as if they had been carefully placed there for future use. The big sledge hammer still had the marks of paint that showed plainly it had been used in pounding the knob of the safe door off. The tools were returned to their owner who was glad to receive them, though he had sent to Portland for another hammer to take the place of the missing one.

Baseball Meeting.
Last Tuesday, as advertised in last issue of the News, a baseball meeting was held in the town hall for the purpose of perfecting a baseball organization and getting the business men and citizens to co-operate with the players in a permanent organization of this kind.

John Kestly was elected president and A. J. Henderson, secretary. Will Rouse was unanimously elected manager of the team.

Small Items.
Chas. Tallafiero came over from Eugene for a few hours last Saturday. He expects to start soon for Seattle where he will work out with the league baseball team, making

ready for his summer's engagement. The city council have decided to have the dog ordinance strictly enforced in the future so if you are the owner of one of the objectionable, it will be well to post up on the ordinance which can be found in another part of this issue.

Considerable property has changed hands in Springfield during the past week. Chas. McCollum, a brother of Barber McCollum and Thomas Watson, brother of Mrs. McCollum, each purchased residence lots on North C. street. Also John Atkinson bought a ten-acre tract of Springfield. The three deals were made by Browning & McKinney.

The ferry at this place is tied up on account of high water as it seems the equipment is not thought to be strong enough to withstand the strong current. The ferry should be made to withstand the power of the water till it reaches such a stage that teams cannot reach it on account of the sloughs on the west side. Another strong pointer that we need that bridge.
