RUSHING WORK ON BATTLESHIP

**Michigan Will Be Completed Six
Months Ahead of the
Contract Time**

Camden, N. J., Feb. 27.—At the yards of the New York Shipbuilding Company work is being rushed on the battleship Michigan, and it is expected that the vessel will be delivered to the government six months earlier than the contract requires. If the expectation is fulfilled the ship will be ready for her trial trip early in June.

The Michigan will rank foremost among the great fighting ships flying the United States flag. She is America's first all big gun battleship and comes closer to the Dreadnaught class of warships in the English navy than any other fighting vessel in the American navy. Her battery will consist of eight 12-inch breechloading rifles.

The hull of the Michigan is of steel throughout. Although a very heavy vessel, the contract calls for a sustained speed of 18 1/2 knots an hour for four consecutive hours. Besides the eight 12-inch guns, she will carry two submerged torpedo tubes, and the secondary battery will consist of twenty-two 3-inch rapid-fire guns, two 3-pounder machine guns, eight 1-inch semi-automatic guns, two 3-inch field pieces, and four machine guns. The 12-inch guns will be mounted in pairs, in four turrets on the center line, two forward and two aft.

The hull is protected on the water line by a complete belt of armor having a thickness of eleven inches throughout the machinery spaces, and twelve inches at the magazine spaces.

For a height of eight feet above the main belt there is the casemate armor, eight inches thick at the top to ten inches thick at the bottom.

There will be a complete protective deck from stem to stern. The magazine and shell rooms will be so arranged that about one-half of the total supply of ammunition will be carried at each end of the ship.

The propelling engines of the vessel, twin-screw, four-cylinder, triple-expansion type, of a combined indicated horsepower of 16,500. Each engine will be located in a separate compartment of the vessel, one of the two funnels of the vessel will be one hundred feet above the base line. The crew of the big battleship will number fifty-one officers and 750 men.

**DON'T WAIT UNTIL
THE SUN SHINES.**

"Now is the time to order seeds," said President Johnson of the Portland Seed Co., to a representative of the Guard.

"Don't wait till the sun shines. Stocks are at their best at this moment. Orders can be filled quicker and there is no need for putting it off until the sun comes out and gives you the planting fever. You might as well have your seeds when you want them, as to wait them right away and then be unable to get them without a day or two delay. Everyone who hasn't a seed catalog should write for it right away. Everyone who has should send in an order right now. Ordering seeds early means more satisfaction, better planning and better results. Don't procrastinate. Do it now."

IN MEMORIAM

Lewellyn, Or., Feb. 22.—On February 3, 1909, the angel of death entered our society and bore heavenward the spirit of our beloved sister, Mrs. Robert Petrol. She had lived among us her allotted time; she had done her work, and she has left her influence. A home has lost a fond wife and mother, and the society one of its faithful members. To the bereaved in their sorrow we extend our deepest sympathy.

THE LEWELLYN CENTRAL AND SOCIETY.

Mrs. W. H. Davis, Pres.
Mrs. Carrie Petrol, vice Pres.
Madge Irish, Sec.

WHITE SOX ARE ENROUTE TO COAST

Chicago, Ill., Feb. 26.—Today will find the White Sox on their way to California to get in shape for the '09 pennant race. The squad is one of the largest that Mr. Comiskey has taken on a practice trip. In addition to the players, the party includes the club official, a bevy of baseball correspondents and several invited guests.

The party will reach San Francisco the first of next week and will spend several days in limbering up practice. Then the outfit will be divided into two squads, the first team remaining at San Francisco for three days while the second goes to Los Angeles for a series of exhibition games. Other dates will be filled in California, nearly thirty in all, and then will come the journey home by easy stages.

From El Paso northward the two teams will engage in a score or more contests with the other major league teams training in Texas and Arkansas and with various minor league teams.
