

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

**It Makes Weak Women Strong,
Sick Women Well.**

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent free on receipt of 21 one-cent stamps to cover cost of mailing only; or, in cloth binding for 31 stamps.

NEW REPUBLICAN NATIONAL CHAIRMAN HAILS FROM MAINE

Augusta, March 12.—Dr. John Fremont Hill, the new vice chairman of the Republican National Committee, is one of the best known public men in Maine. He long has been identified with New England politics and was one of the most important factors in this section of the country in the campaign which led up to the nomination of Judge Taft for the presidency.

Dr. Hill was born in Eliot, Me., October 23, 1855, and has been a resident of Augusta since 1879. He represented this city in the assembly in 1889, and in 1893 and 1895 he represented Kennebec county in the senate. In 1896 he was presidential elector and in 1899 a member of the executive council of the Republican National Committee. In 1900 he was elected to the governorship of the Pine Tree State and was re-elected in 1902. As governor he displayed executive ability of the highest order and his administration received the approval not only of the Republicans of the state but of many prominent Democrats as well.

Though Dr. Hill is a graduate of Bowdoin Medical College, he has devoted little time to the practice of medicine. He is a man of considerable wealth and of late years he has abandoned the medical profession entirely to give his attention to the numerous financial and industrial enterprises in which he is interested. Soon after coming to Augusta he associated himself with the publishing firm later known as the Vickery & Hill Company. This firm made a specialty of publishing weekly papers for the masses and in the course of a decade or two the partners accumulated millions. They built a printing plant which at the time was the largest in the world. As a result of the business of the Vickery Hill Company the Augusta postoffice became the second in the

United States in the amount of business handled. On the periodical mailing days of the various publications sold trains of mail cars were run on the tracks alongside the printing houses and loaded with tons of papers to be distributed broadcast throughout the land. Dr. Hill married the daughter of the head of the firm and after the death of Mr. Vickery he continued to direct the affairs of the company.

But he has other interests as well. His share in the electric railroad development of Maine has swelled to enormous proportions his private income. Besides, he is a director and trustee of a number of financial institutions in Augusta and other cities and is a large real estate owner. For many years two of the leading hotels in Augusta have been among his holdings. In fact, it is a common saying here that almost everything that does not belong to the Vickery estate belongs to Dr. Hill. But no fault is found on this account, for no citizen ever displayed greater generosity than Dr. Hill, and he has been foremost in every movement that has had to do with the welfare and progress of Augusta and her people.

Only in one instance has Dr. Hill been known to oppose the wishes of the people, or rather their chosen representatives. And his stand in that instance was pardonable. For a number of years he lived in the house occupied so long by James B. Blaine and his family. Some years ago the legislature attempted to buy the homestead, with a view of making it the executive mansion. But Dr. Hill would not sell the estate. It so happened that the intention of the legislature was carried out, after all, for in 1900 Dr. Hill was elected governor, and for four years the old Blaine home was in effect at least what the legislature designed.

SILK STOCKINGS

SOUVENIRS OF VICTORY

New York, March 12.—Silken hosiery souvenirs figured at a luncheon given to Mrs. Williams Grant Brown, recent nominee for the presidency of the New York City Federation of Women's Clubs, at the Hotel Astor today. There were two strong parties working for rival candidates previous to the election, and that of Mrs. Brown was designated as the "Silk Stocking Party."

The souvenirs were given as a party emblem. They were not the real thing, however, only miniature imitations. Mrs. Brown was not elected, but members of her party declared that she should have been, and only some serious mistake at the last moment prevented it. The luncheon today was given by her strong supporters as a consolation party.

GOTHAM PLANS FOR

FINE RIVER DRIVE

New York, March 12.—Bids were opened today for one of the largest contracts let by the city in some years—that of the completion of the Riverside Drive from 155th street to Spuyten Duyvil. The thoroughfare is to be constructed in every way like the present Riverside Drive, 115 feet in width, and will when completed be one of the finest thoroughfares in the world. It will cost in the neighborhood of \$5,000,000.

The Riverside Drive extension was authorized by the board of estimate nearly three years ago, and has been held up since then by the involved condition of the city's finances. It will extend north from 155th street about four miles, and it to include a mammoth viaduct over Inwood valley. This viaduct will be 1800 feet long and will cost \$2,000,000. The contractors have 90 working days to complete the entire work.

ATTENTION, EIRS!

The committee appointed at the last meeting of the lodge to look up property and devise ways and means for the erection of a new hall will be ready to report at the meeting this week, and as the matter under consideration is very important, it is expected that each and every one of you will make it your business to be present to hear the report.

THE COMMITTEE

ANNUAL MILITARY BALL.

Company C will give its annual military ball on St. Patrick's Day, March 17th. This is one of the big events in social circles both in Eugene and in the neighboring towns. Guardsmen from the local militia and out side companies will be out in full regalia. The company is noted for its successful social functions and will try to make this the peer of them all. Everybody come out and have a good time. Grand march at 8:45. Tickets \$1.00; gallery 25c.

Mrs. Ethel Knight, of Portland, is here today to play at the funeral of Mrs. Hendee.

Mrs. Lida Steward and Mrs. Miller, of Halsey, came up for the purpose of attending the Hendee funeral.

DIRECT NOMINATIONS

SUBJECT OF MEETING

New York, March 12.—What promises to be the most interesting of the series of meetings held under the auspices of the Civic Forum this winter is scheduled to take place tonight in Carnegie hall. Direct nominations will be the subject of the address. The chief speaker will be Senator LaFollette, of Wisconsin. Another prominent speaker on the program is Senator George E. Chamberlain, who owes his seat in the senate to the successful operation of the direct primary law in the state of Oregon.

WHEEZER OR SNEEZER?

Have You Heard of Hyomei for Coughs, Asthma or Hay Fever.

If you wheeze or sneeze, hawk or spit, snuffle or blow, something is the matter with the membrane of your respiratory tract, and you need Hyomei.

And you need Hyomei because it will cure you of any catarrhal or inflammatory condition that exists.

It isn't a stomach medicine or spray, or douche, but a very pleasant healing, antiseptic balsam, from the eucalyptus forests of Australia. You breathe this balsamic air through a small, pearl rubber inhaler, and it reaches every nook, corner and crevice of the membrane, and promptly kills the catarrh germs.

The use of Hyomei cured Mr. Cutler of catarrh in 1904. He has strongly endorsed the use of Hyomei in many instances, and we are glad to go on record regarding this marvelous catarrh cure, and endorsing its use.—Mrs. A. Cutler, 201 Post street, Battle Creek, Mich., Oct. 12, 1908.
