### DREADFUL DISEASE IS CURED BY CUTICURA

"My six year old daughter had the dreadful disease called hives for two months. She became affected by playing with children who had it, although we did not know it. By scratching she caused large sores which were irritating. Her body was a complete sore but it was worse on her arms and back. We employed a physician who left medicines but it did not help her and I tried several remedies but without avail. Seeing the Cuticura Remedies advertised, I thought I would try them. I gave her a hot bath daily with Cuticura Soap and anointed her body with Cuticura Ointment. The first treatment relieved the itching and in a short time the disease disappeared. I recommend the Cuticura Remedies for all skin diseases and give them my greatest praise. Mrs. Geo. L. Fridhoff, R. F. D. 1, Warren, Mich., June 30 and July 13, 1908."

### Boy's Back Raw

From Shoulder to Shoulder. Scratched till Blood Ran. Cured by Cuticura.

"My son's back was raw from shoulder to shoulder and the width of your hand. I really did not think he ever would be cured. He would scratch until the blood would run and he was like a raw piece of meat. I used different kinds of things but each kind made it worse until I read of the Cuticura Remedies, and one cake of Cuticura Soap and one box of Cuticura Ointment cured him like magic. I would not be without it in the house and I have recommended it to all my friends. Mrs. J. D. Maxwell, 6th St., Woodside, Long Island, N. Y., May 21, 1908."

### PLATFORM OF CITY CANDIDATES IS ANNOUNCED

Mr. Bingham and His Associates Issue an Address to the Voters

I. H. Bingham, candidate for mayor, C. P. Barnard, C. F. Littlefield, M. Svarverud and George Fisher, candidates for councilmen, have drawn up and signed the following platform and declaration of principles upon which they firmly stand in the city election contest:

In announcing my candidacy for the office of mayor of the city of Eugene, a sense of duty toward the voters of this city constrains me to make plain to them my views with reference to such matters as are likely to come before me for consideration in the event of my election to the exalted office to which I aspire. It is believed that at no time in the history of our fair city has there ever been need an election so fraught with impending peril to the wage-earner, as well as to the property owner, as is the election to be held on April 13, 1909.

The enforcement of Law and Order—The scope of municipal government of the second city in the state of Oregon—in what it can and ought to accomplish for the people of Eugene—has been widened far beyond the principles laid down by the founders of our city and the framers of our earlier ordinances, and this widening has met with popular approval. In aligning myself with these progressive citizens who have contributed most toward this march of progress, I desire to announce that in the event of my election, I shall not be deterred from upholding and enforcing the majesty of each and all laws on our statute books or the filibustering of the reactionaries nor the purchased mendacity of those who circulated distorted misrepresentations of the performance of official duties or the policies of my administration. Effective laws will be zealously enforced. In effective laws will give place to new ordinances enacted with a view to guarantee equal justice before the law to all classes of our community.

Corporations—All attempts to array one class of our citizens against another by the use of such words as "corporations," "monopolies," etc., are as reprehensible as they are untruthful and unwise. Certain would-be reformers who undoubtedly have selfish desires to satisfy in the hope of holding some petty office in the city government later, are daily and hourly circulating reports, (which they know to be vicious and malicious statements), regarding my attitude toward, and my alleged connection with, certain corporations doing business in the city of Eugene, and Lane county. These rumors and reports are so preposterous and mendacious that even the wisdom of a denial is questionable.

The truth is that I do plead guilty to having been instrumental in inducing large numbers of capitalists to invest large sums of money in the city of Eugene and Lane county, but, in so far as having or holding any personal interest in or with any corporation doing business in the city of Eugene, I am neither an officer, a stockholder, advisor in or with any such corporation. I never have sustained any such relation with them; I never expect to do so; all reports to the contrary not withstanding. Proofs of the utter falsity of these rumors, together with ample proofs of the ulterior motives which inspired them, are to be had on every hand. Happily for myself—fortunately, I think, for the best interests of the city—these rumors are so unfounded as to require no further explanation from me.

In the event of my election, it will be the policy of my administration to require all corporations operating within the jurisdiction of this city to strictly comply with the laws and mandates of this city while at the same time, supported by the best advice of our best citizens, I shall endeavor to lend every encouragement to capital seeking legitimate investment within the jurisdiction of the city and with the view of placing Eugene in the front rank as a great manufacturing center.

In the meantime the best interests of the wage-earners, will not be overlooked or sacrificed. Their interests are identical with that of capital legitimately invested. Each is largely—sometimes wholly—dependent upon the other. Conflicting interests, should there be any, should be harmonized in a spirit of fairness, ever bearing in mind that the best interests of all concerned will be best subserved by the united effort of our whole people.

If elected to the office of mayor, I shall submit, at the first regular meeting of the city council, definite suggestions relative to needed reforms and needed amendments to existing city ordinances. I am persuaded that the changes so recommended will give a healthy impetus to business, and stability and certainty to those lines of industries that have the sanction of the law, as well as to stop those that are prohibited by law, all of which is so essential to the stability and certainty of all lines of business.

Municipal Ownership—The people of the city have twice declared by their ballots in favor of municipal ownership of city water plant, therefore, this question has already been definitely settled by the people and this matter should not be consistently or truthfully

brought forward as an issue in this campaign.

In the event of my election, these, like all other laws, will be strictly enforced in so far as they are effective. If found ineffectual they will give place to new amendments having for their purpose the carrying out of the wishes of the people as heretofore expressed by them at the ballot box. I shall endeavor to be vigilant in the maintenance of such a high standard of law abiding citizenship as will tend to promote and preserve the peace and dignity of not only the city of Eugene, but that of our commonwealth as well.

In defining my position on this, and all other matters likely to come before me for consideration, I desire to do so in language capable of but one construction:—Viz—I am decidedly in favor of carrying into full force and effect all existing laws or any amendments thereto, or other additional laws which the people may deem wise to enact.

Eugene Water Board—If, after mature investigation, it is deemed advisable, I shall not hesitate to call a special election for the purpose of electing five free-holders of the city of Eugene, who shall serve as members of the water board without compensation. Their duties and terms of office will be in accordance with the provisions of the law enacted by the people of the city of Eugene at the election held in this city in April, 1908.

Responsibilities—In the event of my election, the reforms I have herein suggested will not hinge upon executive determination of certain facts. On the contrary, the reforms I have suggested are prompted by the oft repeated comments of the influential, representative people of the city of Eugene. Realizing the great importance of such criticisms, emanating from so many different influential sources, and believing that such criticisms should be as helpful as they are admonitory and are deemed sufficient to cause one to seriously consider the obligations resting upon those responsible for the expenditures of public funds, one cannot fail to be impressed with the importance of making these expenditures as economically as is consistent with good and efficient service, to the end that the burden of taxation may be as light as possible.

These reflections prompt me to suggest that I am not unmindful of my own frailties and of my inability to cope single-handed with the many formidable problems of the upbuilding of our city during the next two years. I shall, therefore, if elected, make it my first duty to take the public into my confidence in an advisory way, and shall not hesitate to consult and confer with the public in all matters of public interest, including the expenditures of public funds, which, as a matter of fact, should always be regarded as a public matter of absorbing interest to each and all of the general public.

Having thus briefly reviewed the problems likely to confront our people during the next two years, I hereby solicit the considerate support of my fellow citizens. With such support I shall acknowledge no criterion but success. Without such support the further development of our interesting and promising city may become a matter of very serious uncertainty.

Respectfully,  
I. H. BINGHAM.  
We, the undersigned candidates for councilmen for the city of Eugene, Oregon, heartily endorse the above and foregoing declaration of the principles of the government of the city of Eugene in the event of our election.

### No Man is Stronger Than His Stomach

A strong man is strong all over. No man can be strong who is suffering from weak stomach with its consequent indigestion, or from some other disease of the stomach and its associated organs, which impairs digestion and nutrition. For when the stomach is weak or diseased there is a loss of the nutrition contained in food, which is the source of all physical strength. When a man "doesn't feel just right," when he doesn't sleep well, has an uncomfortable feeling in the stomach after eating, is languid, nervous, irritable and despondent, he is losing the nutrition needed to make strength.

Such a man should use Dr. Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition. It enriches the blood, invigorates the liver, strengthens the kidneys, nourishes the nerves, and so GIVES HEALTH AND STRENGTH TO THE WHOLE BODY.

You can't afford to accept a secret nostrum as a substitute for this non-alcoholic medicine of known composition, not even though the urgent dealer may thereby make a little bigger profit. Ingredients printed on wrapper.
