

THE EUGENE DAILY GUARD

CLARENCE PRINTING CO., INC.
Charles E. Fisher

THURSDAY, MAY 6, 1909

The state of Washington has undertaken the task of regulating marriage by adopting a law, similar to that passed by the Oregon legislature and vetoed by the governor, that men and women must be morally and physically fit for the duties of husbands and wives before they can legally enter the matrimonial state, and bridegrooms will have to show their fitness, by a physician's certificate and affidavit, before they can secure a marriage license. The law provides, among other things, that women who desire to marry must be of legal age, fixed at eighteen years, and men twenty-one years; also that the parent cannot give consent unless the girl is more than fifteen years of age. The penalty for giving false information or performing such marriage is a fine of not more than \$1000 or imprisonment in the state penitentiary for not more than three years, or both. It is also provided that no woman under forty-five years of age, or man of any age, except he marry a woman more than forty-five years, either of whom is a common drunkard, habitual drunkard, epileptic, feeble-minded, idiot or insane person, or formerly afflicted with pulmonary tuberculosis, or any contagious disease, shall intermarry or marry any other person within the state.

A special city election will be held next Monday for the purpose of voting on amendments to the charter which will enable the city to condemn land for right-of-way purposes. Under the present charter the right to condemn land is conferred upon the city, but no method of procedure in the premises is provided. This defect was held by Judge Harris to be fatal, and upon that ground he decided the Millikan right-of-way case against the city. It is to cure this defect that the election is called for next Monday, and if the amendment is carried work upon the power plant ditch cannot longer be held up, as there will be no legal bar to the condemnation of the necessary land. Work is progressing on those parts of the ditch where the right-of-way has already been secured, and the machinery for the plant has been purchased and paid for, so that it is to the interest of every taxpayer to go to the polls and make sure that the pending amendment to the charter is carried, otherwise there is likely to be long litigation and consequent delay over this piece of land and possibly heavy financial loss to the city.

The following news item from the Salem Journal shows how great is the field for investment of capital in Willamette valley electric roads: "The freight business now being carried on by the Oregon Electric between here and Portland has just about doubled, according to statements made by the officials today. Every day the local freight leaves this city with a full carload, and the incoming cars are also laden with goods for Salem business houses. There has been some intention on the part of the company to make further improvements in their passenger service. A later night train is now talked of and two more additional cars during the day service. More cars will probably be placed on the Forest Grove line also."

The new sultan of Turkey may be handicapped by having

only three wives, but we are confident he'll soon remedy that. His call to power was "so sudden," you know. His predecessor had 33 years to get his wife score up to 4000.

Plain every day consumers can't afford to send delegations to Washington, but they'll have a say, and it will count, too—in the ballot box—if those elected to look after their rights fail to do so.

"Not one of the Constantinople papers has a good word for the deposed sultan," says a cablegram. Nothing strange about that—not one of those editors has more than one head.

A poll of the senate, made by a Western senator, is said to show a majority of four against adding an income tax to the tariff bill, which indicates that Aldrich has not been idle.

A thirty-one story hotel—the highest in the world—is being built in New York, and it is a good guess that its prices will be in keeping with its height.

This is the season when the highest compliment you can pay a man is to say "he's almost as popular as a successful baseball pitcher."

All the boosters since returning to their homes are boosting Eugene.

Corvallis' new daily paper, the Gazette, is neat and newsworthy, and apparently well patronized by the businessmen of that city.

Look at the trusts, you tariff kickers. Not one of them is making any fuss about. Can you guess why?

EUGENE MAN TAKES
PALO ALTO BRIDE

The Palo Alto, Cal., Daily News of recent date has the following:

The marriage of Miss Minnie Beach of Palo Alto, and John H. Harris, of Eugene, Oregon, took place yesterday afternoon at 5:30 at the home of the bride's cousin, Mr. J. M. F. M. Russell, of 215 Cooper street. Rev. Charles L. Best performed the ceremony. The house was attractively decorated for the occasion with a profusion of roses and the bride in a pretty wedding gown of white lace and tulle, made a decidedly charming picture.

Among a number of beautiful gifts was a set of silver teaspoons, a remembrance from the Palo Alto Herald-Judge, of which Mrs. Harris has been an active member during the three years she has lived in this city, since coming from her home in Illinois. She is a young woman who is held in exceptional esteem and has made many genuine friends through a very attractive disposition.

Mr. and Mrs. Harris left on last evening's train for a visit in Fresno, after which they will be at home in Eugene, Oregon, where Mr. Harris follows his profession of mechanical engineer.

Among the guests who were present at the wedding and the luncheon which followed were Rev. C. L.

Best, Rev. E. S. Thompson, of Fresno, Mrs. J. T. Cookford, Miss Lois Hilliard and Armand Hilliard, of Fresno, Mr. and Mrs. F. M. Russell, Charles and Beart Russell, Miss Arthur Kidson, Misses Lucy and Bertha Tracey, Miss Annette Broad, Miss Leta Klahner and Miss Florence Jewett.

HOME COOKING

At the End-of-the-year Saturday, May 8, the ladies of the auxiliary will have charge and serve home cooked lunches from 11:30 to 2 and from 2:30 to 5. Also ice cream, candy and sodas during the day and evening. Don't miss this chance of a lunch like mother used to serve.

EMPLOYMENT

All kinds of employment wanted. Kuehn's employment office, 211 Willamette street. Phone Red 1411. or

I have got two of the best bargains in Eugene in the way of a home. If you want a nice home for less than actual value, call and see me at 211 West Fifth street.

Mrs. Minnie Hubbard told Mrs. Jones that Jim never grows since she was Folger's Golden Gate coffee. Her grocer grinds it for her.

Gus reduced from \$1.75 to \$1.50 per 1000 feet. of WILLAMETTE VALLEY CO.

The Crescent

HELP ! HELP ! HELP !

I expect to make \$100,000 on an investment of \$10,000, and in order to get SOON for this investment, will sacrifice on the following properties:

340 ACRES, 1 1/2 miles from Creswell. All level plow land except 20 acres timber. Will produce 75 bushels of oats or 3 tons hay to the acre. small cash payment any good farmer can meet deferred payments on crops from the land. Price per acre

13.17 ACRES orchard land with 200 growing cherry trees, 3 1/2 miles from Eugene, near famous Harlow cherry orchard. Price

10 ACRES adjoining Dr. McCormack orchard; gilt edge fruit land and location for a home, only short walk from new \$20,000 school now being built. You can make the price of this land out of two crops of strawberries land itself. Price

130 ACRES within the corporate limits of Florence, dry and level. Price for the whole, \$35; or in 10 acre tracts at, per acre

Lots in Miller's addition to Florence, \$150 to \$250 each. Lots in the plat of Florence

120 ACRES in Glenada, lying between the church and public school. \$ marine view and spring brook through the tract. Per acre

96 ACRES at Acme; 41 acres meadow and balance rolling hill land; 2 and 2 stores, 2 merchant mills and shiplanding near. Good dairy property. Price

MILL SITE on ship channel near Florence and 18,000,000 feet tributary Price

CHOICE BUILDING SITES in my home tract near Hendricks' Park, with out spring water. Building restrictions insure big values. Overlook river, near car line. Prices on application.

All the above property is owned within the family, so I do not need to come one about prices, terms or commissions.

I want money and NOW is the time to get a bargain from me. I sold acres Eugene at \$49 per acre that is now worth \$1000 per acre. I sold the where the new Sanford building is now going up for \$1700. I sold the Florence for \$35 that is now worth \$1500, and thought at the time getting good prices.

In 1891 the yearly production of gold for the whole world was only \$120,650,000, and silver was then but \$177,225,000 yearly for the whole earth. Since that date these have grown until last year the production of gold was \$324,472,000 and in 1907 the output of silver was \$177,225,000. This steady increase in the production of the great medium of exchange is said to be due to the introduction of improved machinery in mining, and there is every reason to believe this increase will continue to increase in value. The United States is getting more than her proportion of this new money and Oregon, through her timber and increasing commerce, is getting a larger proportion than any other state. The mathematical result shows that Oregon real estate is getting a larger proportion of this increasing inflow of money. In three years will be "booming."
