

S.S.S. CURES OLD SORES

If an old sore related simply because the flesh was diseased at that particular spot, it would be an easy matter to apply some remedy directly to the place that would kill the germ; or the diseased flesh might be removed by a surgical operation and a cure effected. But the very fact that old sores resist every form of local or external treatment, and even return after being cut away, shows that back of them is a morbid cause which must be removed before a cure can result. Just as long as the pollution continues in the blood, the ulcer remains an open cesspool for the deposit of impurities which the circulation throws off. S.S.S. cures Old Sores by purifying the blood. It removes every trace of impurity and taint from the circulation, and thus completely does away with the cause. When S.S.S. has cleaned the blood, the sore begins to heal, and it is not a surface cure, but the healing process begins at the bottom; soon the discharge ceases, the inflammation leaves, and the place fills in with firm, healthy flesh. Under the purifying and tonic effects of S.S.S. the system is built up, and those whose health has been impaired by the drain and worry of an old sore will be greatly benefited by its use. Book on Sores sent free of an old sore will be sent by mail to all who write.

THINKS NICKELDIANS BAD FOR CHILDREN

But Says They Can Be Made Worth Much By More Careful Selection.

A plea for selection of nickelodeon pictures was made by Rev. O. C. Wright, who spoke on the subject of popular entertainments last night. He said that many of the pictures now shown at the nickelodeons are of the "Jesse James type" and that in his observation a number of children have been hurt by lasting impressions received at the nickelodeons.

He added, at the conclusion of his address, that he thought the nickelodeons could be made worth a great deal to the public and children by proper choice in the presentation of pictures. "Nine-tenths of the knowledge gained is received through the eye," he said, "and it seems to me that this avenue ought to be guarded in places of public amusement."

- I want money and NOW is the time to get a bargain from me. I sold acre Eugene at \$49 per acre that is now worth \$1000 per acre. I sold the where the new Sanford building is now going for \$1700. I sold Florence for \$35 that is now worth \$1500, and thought at the time getting good prices.

In 1891 the yearly production of gold for the whole world was only \$120,650,000, and silver was then but \$177,325,000 yearly for the whole earth. Since that date these have increased until last year the production of gold was \$424,472,000 and in 1907 the output of silver was \$177,325,000. This steady increase in the production of the great medium of exchange is said to be the production of improved machinery in mining, and there is every reason to believe this line will continue indefinitely at about the same ratio, with the result that money will continue to grow in value. The United States is getting more than her proportion of this new money and increasing commerce is getting a proportion to this increasing inflow of money. The next three years will be "boom years."
