SCHOLASTICS AT O. A. C.
 High School Teams from All Over the State in Meet.

Saturday will witness at Corvallis the third annual interscholastic track meet under the direction of O. A. C. Entries from thirty-five high school teams have been scheduled and it is expected that there will be two thousand people to witness the various events which include all the track sports.
 Hill Military Academy may not enter, though in past years that

school has taken a prominent place. The H. M. A. team is on a different standard from the other scholastic institutions, and the rival institutions in Portland object to its entrance.

INVENTS HUB THAT NEVER NEEDS OIL

To test out the new frictionless vehicle hub which he has invented, J. J. Luckey, of Hood River, will start this morning to drive to Eugene. It is Mr. Luckey's intention to drive to New York during the summer, without once oiling the axles of his spring wagon. The hub is an ingenious affair, not even dust proof. It has already been run three and one half years without removing the wheel from the wagon. It is adapted to all kinds of farm vehicles and implements.—Portland Journal.

PEOPLE BLIKED BY TRAVELING OPTICIANS.

Every few days we hear complaints from people of the city and country that they have been bilked by some traveling optician who has misled them with glasses under all kinds of promises. These opticians (?) nine times out of ten, are men who cannot make a living where they are known and depend on their stall and gift of gab to scare their victims into buying their wares. They will promise anything and make the highest prices for inferior work and snide goods. One of these fellows told us that we ought not to kick because they piled their business here, for there were so many suckers in the country and if he did not get their money some other fellow would. We are permanently located here and we can always be found when wanted. Our prices are reasonable and we give you the benefit of many years' experience and steady practice. Our guarantee is as good as gold.

of pianos and the Trowbridge is now at its best and the price is only \$250. It has been advertised as a leader and sold for very much more. If I had been charging from \$350 up for them and then changed to another leader because some one had shown they could be sold for \$250, would you think I was overcharging for the new leader and all others that I asked a good price for? A few more left at \$250, guaranteed absolutely new and as good as any.

The manager of a furniture factory says that if women realized the value of soap and water there would not be so great a demand for furniture polish.

But soap and water must be used with judgment, as strong soap is injurious to furniture.

This is his recipe:
 Make a tepid suds of Ivory Soap; dip a cloth in it, squeeze and go over the furniture several times. Polish with a chamois cloth.
