THE HOWARD WATCH

Down on the big ditch at Panama is a worse place for a watch than Suez or the Coast of India-China: blazing days—severe nightly drop in temperature—humidity 87 degrees—and months of tropical rainfall.

All along the Panama canal—you find "Howard time," the recognized standard—as in all big undertakings for the last sixty-seven years.

The Howard temperature adjustment is permanent. Unaffected by the severest heat or the most violent changes.

The Howard is the finest practical watch in the world, and the strongest. Its special hard-tempered balance cannot knock out of true with the jolts and vibrations of rough use in the field.

A Howard watch is always worth what you pay for it.

The price of each Howard watch, from the 17-jewel in a fine gold-filled case, guaranteed for 25 years, at \$35.00, to the 23-jewel in a 14-k. solid gold case at \$150.00—is fixed at the factory and a printed price ticket attached.

Besides the Howard, we carry the Hamilton, Waltham, Elgin and other high grade watches.
